Copies of the report and accounts to 30 September 2023 may be obtained from the registered office of Columbia Threadneedle (Lux) III (the "Fund") at 49, Avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg and from foreign representatives and will be posted to shareholders on request. Notices to Shareholders are published in the *Recueil Electronique des Sociétés et Associations* (the "RESA") and in Luxembourg newspapers, to the extent required by Luxembourg law, and in such other newspapers as the Directors may decide. The articles of incorporation of the Fund (the "Articles") have been lodged at the *Registre de Commerce et des Sociétés* of Luxembourg where they are available for inspection and copies can be obtained upon request. The net asset value of each of the Fund's shares is published in accordance with the relevant appendices of the Fund's latest prospectus (the "Prospectus"). The issue and redemption prices are available from Columbia Threadneedle Management Limited, Exchange House, Primrose Street, London EC2A 2NY, United Kingdom, at the registered office of the Fund and will be published as further described in the Prospectus.

No subscription can be received on the basis of financial reports. Subscriptions are only valid if made on the basis of the current Prospectus, the latest key investor information documents and the latest annual and the most recent semi-annual report, if published thereafter.

The information contained in this report is historical and should not be taken as a guide to future performance. Statements contained

Columbia Threadneedle (Lux) III

in this report concerning future performance are the opinions of management and there can be no guarantee that such opinions will prove to be correct.

Columbia Threadneedle (Lux) III The Portfolios and their Objectives

CT (Lux) Diversified Growth

The investment objective of the Portfolio is to achieve capital appreciation over the medium to long-term through a broadly diversified mix of holdings into traditional and alternative assets including investments in: equities, bonds, indirect property and indirect commodities. The Portfolio intends to target a return of ESTR (Euro Short-Term Rate) (or the equivalent local currency SONIA (Sterling Overnight Index Average) rate per hedged share class) +4% over a rolling 3 year period. Portfolio efficiency is maximised, and costs minimised, by using the most efficient products in the market place, that provide liquid, low-cost exposure to the relevant asset class. A combination of cash, Exchange Traded Funds (ETF), financial derivative instruments, listed certificates issued by investment banks, as well as swap contracts and currency are used to structure the Portfolio.

CT (Lux) Euro Bond

The investment objective of the Portfolio is to ensure an adequate return of the invested capital while reducing risk due to an adequate investment diversification. The assets of the Portfolio are mainly invested, directly or through the use of financial derivative instruments, in debt securities having a fixed and variable income listed on a stock exchange or dealt in on another regulated market of an OECD-member state, whilst attempting to reduce the exchange risks. Without changing the specific investment policy of the Portfolio and as market conditions and investment opportunities prevail, the Portfolio may, on an ancillary basis, invest in securities listed on a stock exchange or dealt in on a regulated market of a non OECD-member state. Taking into account the principle of investment risk spreading, the Portfolio will invest, directly or indirectly through the use of financial derivative instruments, in investment grade (at the time of the purchase and as defined by recognised rating agents such as Moody's Services or Standard & Poor's) bonds and money market instruments. The Portfolio may invest in financial derivative instruments to achieve its investment objective. Such instruments may also be used for hedging purposes. These instruments may include, but are not limited to, futures, forwards, options, swaptions, interest rate swaps and inflation swaps.

CT (Lux) European Growth & Income

The investment objective of the Portfolio is to achieve long-term capital appreciation and an enhanced level of income by investing in companies listed on one of the European States Stock Exchanges or a regulated market. The Portfolio will invest at least 75% of its total assets in equity securities of companies that are incorporated under the laws of, and have their registered office in, a country in Europe. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). In addition to equity and equity-related securities, the Portfolio may also invest in warrants on equity and equity related securities which qualify as transferable securities.

CT (Lux) European Smaller Cap

The investment objective of the Portfolio is to make available to investors participation in a Portfolio consisting of securities of European domiciled companies listed on the various European States Stock Exchanges. The Investment policy is directed towards achieving long-term capital growth through investment in small and medium sized companies.

The Portfolio will invest at least 75% of its total assets in equity securities of companies that are incorporated under the laws of, and have their registered office in Europe. In addition, the Portfolio will invest the majority (i.e., greater than 50%) of its total assets in European equities of companies that have a maximum capitalisation less than or equal to the highest capitalisation in the Index. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the GITA.

CT (Lux) Global Absolute Return Bond

The investment objective of the Portfolio is to deliver a return through a combination of income and capital growth. The Portfolio seeks to deliver an absolute return irrespective of bond market direction. The Portfolio aims to achieve this objective through investing at least two thirds of its total assets in corporate bonds. In addition thereto, the Portfolio will invest in bonds issued by other entities including sovereign and supranational issuers. Investments in contingent convertible bonds will not exceed 10% of the Portfolio's net assets. Exposure to China through the Hong-Kong and Shanghai Bond Connect will normally not exceed 5% of the Portfolio's net assets. The Portfolio may also invest in other transferable securities, collective investment schemes, money market instruments, deposits, cash and cash equivalent, financial derivative instruments and forward transactions.

CT (Lux) Global Convertible Bond

The investment objective of the Portfolio is to achieve high returns by investing its assets through a balanced portfolio consisting of convertible securities. The Portfolio will invest its assets in a balanced portfolio consisting of convertible debt securities and synthetic convertibles which offer the most attractive risk/reward characteristics in terms of upward participation and downward protection. The Portfolio will invest at least two thirds of its total assets in convertible debt securities issued by corporations located in Europe, the United States, Japan and Asia.

Columbia Threadneedle (Lux) III The Portfolios and their Objectives (continued)

CT (Lux) Global Smaller Cap Equity

The investment objective of the Portfolio is to make available to investors participation in a Portfolio consisting of listed securities of companies on a worldwide basis. The investment policy is directed towards achieving long-term capital growth through investment in small and medium sized companies. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). The Portfolio will invest primarily in equity and equity-linked securities (excluding convertible bonds and bonds with warrants) issued by small and medium sized companies. Small and medium sized companies will generally be companies with a maximum stock exchange capitalisation of US\$ 10 billion or equivalent at the time of purchase. The Portfolio may hold and continue to invest its assets in companies with a higher capitalisation if the capitalisation of the relevant company subsequently reaches or exceeds US\$ 10 billion or equivalent after acquisition by the Portfolio. The Portfolio may also hold exchange traded funds and fixed interest securities should this be considered to be appropriate at any particular time. Subject to the investment restrictions set forth in section S "Investment Restrictions", the Portfolio may also invest in money market instruments, bank deposits and other eligible liquid assets for treasury purposes and in case of unfavourable market conditions. In normal market conditions investment in such liquid assets and debt instruments of any kind will not exceed 15% of the Portfolio's Net Asset Value.

CT (Lux) Global Total Return Bond

The investment objective of the Portfolio is to deliver a return through a combination of income and capital growth. The Portfolio aims to achieve this objective through investing at least two thirds of its total assets in corporate bonds. In addition thereto, the Portfolio will invest in bonds issued by other entities including sovereign and supranational issuers. Investments in contingent convertible bonds will not exceed 10% of the Portfolio's net assets. Exposure to China through the Hong-Kong and Shanghai Bond Connect will normally not exceed 5% of the Portfolio's net assets. The Portfolio may also invest in other transferable securities, collective investment schemes, money market instruments, deposits, cash and cash equivalent, financial derivative instruments and forward transactions.

CT (Lux) Plus II (liquidated with effect from 13 December 2022)

The investment objective of the Portfolio is to achieve an above average rate of return over the long-term, measured in Euro, through investing in shares or units of other collective investment schemes that invest in global developed market equities and bonds or by investing in global developed equity and bond markets directly. Up to 5% of the Portfolio's total assets may be invested in shares or units of other collective investment schemes that invest in emerging market equities.

CT (Lux) Responsible Euro Corporate Bond

The investment objective of the Portfolio is to achieve an above average rate of return over the long-term, measured in Euro, through investing mainly in investment grade fixed income debt securities, floating rate and other debt securities, including asset backed securities and contingent convertible bonds, issued by companies. Investment grade securities are defined as securities that are rated Baa3/BBB- or higher by Moody's, Standard & Poor's or another recognised credit rating agency. The Portfolio may also invest up to 15% of its net assets in sub investment grade fixed income debt securities, floating rate and other debt securities. Investments in asset backed securities may not exceed 10% of the Portfolio's net assets. Investments in contingent convertible bonds will not exceed 10% of the Portfolio's net assets.

CT (Lux) Responsible Global Emerging Markets Equity

The purpose of the Portfolio is to provide a medium through which investors may participate in an actively managed portfolio, primarily invested in equity and equity-related securities of companies in emerging markets worldwide. The Portfolio may, as described below, invest in companies which are listed or traded on a recognised exchange in emerging market countries worldwide, which have, in the opinion of the Investment Manager, the potential for generating long term returns and contribute to or benefit from the sustainable economic development of the emerging market countries. The subscription proceeds relating to the different Classes of Shares in issue shall be invested in one common underlying portfolio of investments. Each Class of Shares will have a proportional entitlement to the assets (and liabilities) of the Portfolio (calculated according to the prevailing Net Asset Values of each Class). The Portfolio will invest at least two thirds of its total assets in equity and equity-linked securities (excluding convertible bonds and bonds with warrants), of companies that are incorporated under the laws of, and have their registered office in, an emerging market country, or that derive a predominant part of their economic activity from emerging market countries, even if listed elsewhere. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

Columbia Threadneedle (Lux) III The Portfolios and their Objectives (continued)

CT (Lux) Responsible Global Equity

The Portfolio focuses on long-term capital growth through investment in companies across the world. Its objective is to maximise returns through investment in an ethically screened and diverse universe of companies. The Portfolio will invest at least two thirds of its total assets in equity and equity-related securities (excluding convertible bonds and bonds with warrants) of companies, in any market, that meet the ethical and sustainable criteria. The Portfolio will invest a more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) SDG Engagement Global Equity

The Portfolio aims to achieve long-term capital growth and support sustainable development. The Portfolio invests primarily in a diversified portfolio of equity and equity-related securities (excluding convertible bonds and bonds with warrants) of small- and mid-capitalisation companies, which may be anywhere in the world and be in any industry or sector. The Portfolio will hold more than 50% in equities securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) Sustainable Global Equity Enhanced Income (launched with effect from 3 August 2023)

The Portfolio aims to provide income combined with capital growth over the long term (at least 5 years). The Portfolio will invest more than 50% of its net assets in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). The Portfolio aims to provide long-term capital growth by investing primarily in sustainable investments, considered for this Portfolio to be shares of companies that derive, or are on a credible short to medium-term pathway to derive, a significant amount of net revenue (50% or more) from activities that can be directly linked to one or more of the UN Sustainable Development Goals ("SDGs"). The Portfolio invests in shares of companies which may be located anywhere in the world, be of any size and from any industry or economic sector, subject to the Investment Manager's sustainable investment criteria.

CT (Lux) Sustainable Multi-Asset Income

The investment objective of the Portfolio is to achieve capital appreciation and income through sustainable investments, while maintaining long-term value. The Portfolio will invest in a diversified mix of sustainable investments in traditional and alternative asset classes. The Portfolio will invest a majority of its assets in equity securities and debt securities, including investment grade, below investment grade debt securities and contingent convertible bonds. The Portfolio may invest in derivatives to enhance performance by gaining exposure to a number of alternative sources of return and controlling risk. Derivatives may be traded through recognised exchanges or over-the-counter ("OTC") and may include but are not limited to, options, futures, swaps (including, but not limited to, total return swaps on strategies, equity baskets, equity indices, property or commodity indices), contracts for difference and forward contracts. The Portfolio may invest up to 10% of its net assets in below investment grade debt securities. The Portfolio will not invest in securities that are "distressed" or "defaulted" at the time of their purchase by the Portfolio. In the event of a downgrading of any debt security held by the Portfolio, the Investment Manager will take all reasonable efforts to keep this exposure below 5% of the Portfolio's net assets and to realise the distressed or defaulted securities as soon as reasonably practicable if this is in the best interest of the Shareholders. Investments in contingent convertible bonds will not exceed 5% of the Portfolio's net assets. The Portfolio will invest a minimum of 26% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) Sustainable Opportunities European Equity

The investment objective of the Portfolio is to achieve long-term capital appreciation through sustainable investments. The Portfolio invests in European companies listed on one of the European States Stock Exchanges or a regulated market. The Portfolio will invest at least 75% of its total assets in equity securities of companies that are incorporated under the laws of, and have their registered office in, a country in Europe. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) US Smaller Companies

The investment objective of the Portfolio is to make available to investors participation in a Portfolio consisting of securities of United States companies listed on United States Stock Exchanges or NASDAQ. The investment policy is directed towards achieving long-term capital growth through investment in small and medium sized companies. The Portfolio will invest at least two thirds of its total assets in equity and equity-linked securities (excluding convertible bonds and bonds with warrants) of small capitalisation companies that are incorporated under the laws of, and have their registered office in the United States, or that derive a predominant part of their economic activity from the United States, even if listed elsewhere. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). The Portfolio will invest in companies with a maximum stock exchange capitalisation of US\$ 10 billion or equivalent at the time of purchase. The Portfolio may hold and continue to invest its assets in companies with a higher capitalisation if the capitalisation of the relevant company has reached or exceeded US\$ 10 billion or equivalent after acquisition by the Portfolio.

Columbia Threadneedle Investments

The Board of Directors (the "Board") is pleased to present the Audited Annual Report of The Columbia Threadneedle (Lux) III (the "Fund") for the year ended 30th of September 2023, and considers that, taken as a whole, they are fair and balanced and provide the information necessary for Shareholders to assess the Fund's position and performance.

During the year, the size of the portfolio decreased by EUR 754 million to EUR 3,078 million (EUR 3,832 million as of 30 September 2022). The decrease was driven by the austere global economic downturn combined with distinct net outflows from CT (Lux) Euro Bond, CT (Lux) Global Total Return Bond, CT (Lux) Responsible Euro Corporate Bond, CT (Lux) Responsible Global Emerging Markets Equity and CT (Lux) Responsible Global Equity. The closure of CT (Lux) Plus II in December 2022 also contributed to the decrease. The overall decrease was alleviated by the launch of CT (Lux) Sustainable Global Equity Enhanced Income in August 2023, with net assets of USD 431 million at the year end.

Structure of the Fund

The Fund is a variable capital open-ended investment company, organized as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed Carne Global Fund Managers (Luxembourg) S.A as management company of the Fund (the "Management Company"). The Fund is organized as an "umbrella" with a number of Sub-Fund each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording Shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

The Fund currently has 16 Sub-Funds. All Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Belgium, Denmark, Switzerland, Germany, Spain, Finland, UK, Ireland, Italy, Luxembourg, Liechtenstein, Netherlands, Norway, Portugal, Sweden and Singapore.

During the year, 1 new Sub-Fund was created:

- CT (Lux) Sustainable Global Equity Enhanced Income

During the accounting period, 1 Sub-Fund was liquidated:

- CT (Lux) Plus II Fund

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

An agreement between the Fund and the Management Company sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010. This includes management of the Fund's assets and the provision of administration and marketing services. All other significant matters are reserved for approval by the Board, including the determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

Columbia Threadneedle (Lux) III Director's Statement (continued)

The Directors take decisions in the interests of the Fund and its Shareholders as a whole and refrain from taking part in any deliberation or decision, which creates a conflict of interest between their personal interests and those of the Fund and its Shareholders.

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is composed of 5 Directors, 2 of which are independent from the investment manager(s) and all the directors are independent from the management company.

The Board does not limit the number of years of Directors' service, and it does consider the nature and requirements of the fund industry and of the Fund's business when making recommendation to Shareholders for Directors be appointed. The terms of each Director's appointment are set out in a contract for services.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board, and the Directors individually, take active steps to keep up to date with developments relevant to the Fund by means of trainings or otherwise.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on a periodic basis. The Chairman is paid EUR 27k and the other Directors EUR 22k per annum. [All executive Directors have agreed to waive their remuneration] No element of the remuneration paid by the Fund to the Directors is performance related.

Board Meetings

The Board meets quarterly but if necessary additional meetings are arranged. [Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee.]

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular, the Board has adopted the principles of the ALFI Code of Conduct (the "Code") which sets out principles of good governance.

These principles are the following:

1. The Board should adopt clear and transparent standards of corporate governance.
2. The Board should have good professional standing and appropriate experience and use best efforts to ensure that it is collectively competent to fulfil its responsibilities.
3. The Board should act fairly and independently in the best interests of the investors.
4. The Board should act with due care and diligence in the performance of its duties.
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents.
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled.
7. The Board should ensure that an effective risk management process and appropriate internal Controls are in place.
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure.
9. The Board should ensure that Shareholder rights are exercised in a considered way and in the best interests of the Fund.
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.
11. The Board should integrate as appropriate sustainability standards and objectives including environmental, social and governance (ESG) criteria in its business model and operations.

The Board considers that the Fund has complied with the principles of the Code in all material aspects throughout the financial year. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Columbia Threadneedle (Lux) III Director's Statement (continued)

Environmental Social Governance ("ESG")

Certain Sub-Funds included ESG as part of their investment policy. Details of these are included with in the Prospectus.

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. [To protect Shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance, which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part].

Independent Auditor

PricewaterhouseCoopers, PWC has been the Fund's Auditor since 2002. The Board decided that they should continue to be proposed to the Shareholders to be appointed as Auditor.

Annual General Meetings ("AGM")

The next AGM of the Fund will be held on 25th January 2024 at the Registered Office of the Fund to consider matters relating to the year ending on 30th September 2023. At this meeting, Shareholders will be requested to consider the usual matters at such meetings including:

1. The adoption of the Financial Statements and approval of the allocation of the results,
2. The approval of Directors' fees,
3. The election of Directors,
4. The election of the Auditor, and
5. The discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM is, as required under Luxembourg Law, for Shareholders to vote on the discharge the Directors of their duties for the accounting year in question. This discharge is only valid where the annual accounts contain no omission or false information concerning the real financial situation of the Fund.

Significant Events

Please refer to Notes for details of the significant events during the year and after the year-end.

Patrick Johns

Chairman of the Board of Directors
October 2023

Audit report

To the Shareholders of
Columbia Threadneedle (Lux) III

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Columbia Threadneedle (Lux) III (the "Fund") and of each of its sub-funds as at 30 September 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 30 September 2023;
- the schedule of investments as at 30 September 2023;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Emphasis of matter

We draw attention to Note 21 to these financial statements, which indicates that following the decision taken by the Board of Directors, this set of audited financial statements replaces the previous set including our signed opinion dated 24 January 2024 and approved by the Board of Directors as at 22 January 2024. Our opinion is not modified in respect of this matter.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Performance

Over the twelve months to 30 September 2023, the Class A shares returned 4.6%. By comparison the benchmark of ESTR rate, plus 4% per annum, returned 6.5% over the same period. Performance is net of fees and in euro terms.

Equities were the main driver of returns as market rose. This was supported by tactical overweight positioning to the UK at the start of the period, while options protection against a fall in the S&P500, put on in July, helped further increase returns as the US market fell. We saw outperformance from our favoured markets, Japan and later the UK. The global equity team had a strong year, with both stock selection and sector positioning adding to returns. With yields rising, both government and corporate bonds detracted from returns for the portfolio over the period. Alternatives were a positive contributor, with the alternative strategies, such as risk premia, adding the most. Though rising interest rates were negative for several alternative beta areas, such as private equity and property holdings, which have seen discounts widen and net asset values fall.

Market Review

Global equity markets rallied strongly over the 12 months to 30 September 2023. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and rose throughout most of the period. However, concerns over inflation and recession, though reduced, remained. 2023 began with a series of stock market rallies, supported by China's removal of Covid restrictions, a warm winter averting an energy crisis in Europe and an anticipated softening of interest rate hikes. But, despite this, the US Federal Reserve (Fed) maintained its hawkish stance towards interest rates in the face of a resilient US economy, which caused market volatility. In addition, the collapse of two US-based regional lenders and UBS's rescue of Credit Suisse caused a short-lived fear of a financial crisis in the spring. China's economic recovery after lifting Covid restrictions disappointed in the face of its troubled property market, despite modest stimulus measures, and this hit both the domestic market and China-facing stocks. Moreover, towards the end of the period, investors were recalibrating equity valuations upon realising that higher interest rates were here to stay, increasing borrowing costs. Global government bond yields rose over the period as interest rates rose. There was a surge in the last quarter of 2022, as fears over inflation and the pace of interest rate increases dominated. But yields fell back as the pace of interest rate increases eased in 2023 and investors anticipated a peak in interest rates and even cuts if economic growth faltered. However, they rose to fresh highs in the last few months of the period, even as the peak of interest rates approached, as central banks signalled that interest rates would be 'higher for longer'. This was accompanied by yield curve steepening, as shorter-dated bond valuations strengthened in anticipation of looser monetary policy while longer-dated bond valuations weakened to reflect concerns inflation, and the prospect of fiscal deterioration. While government bond yields rose, credit spreads tightened to reflect the relative resilience of economic growth and healthy revenues.

Outlook

Looking ahead, we still anticipate a slowdown in global growth versus the trend level, accompanied by reduced, but still above-trend inflation. Our recent research suggests that, if past tightening cycles are any guide, the peak impact on GDP growth from rate hikes already implemented in the US, eurozone and UK is not likely to be felt until late this year or early in 2024. While the precise timing is uncertain, we are confident that, from here on, economic activity will increasingly feel the drag of prior monetary tightening. This suggests a positive fundamental outlook for core government bonds, where yield premiums are historically high compared with long-term GDP forecasts. Although we are constructive on the asset class, we would expect volatility to remain elevated. For corporate credit, where valuations look reasonable rather than compelling, the low-growth outlook should result in below-average – but still positive – excess returns over core bonds in the year ahead. The encouraging blend of disinflation and economic growth data in the US has left us more constructive on the outlook for equities than was the case a few months ago. Nevertheless, we remain somewhat cautious on the asset class as a whole. Sluggish growth presents a mild risk to company earnings and, of more concern, global equity valuations (on a price-to-earnings basis) look high on a historical basis, both in absolute terms and relative to other asset classes. The on-going conflict in Ukraine shows no signs of ending soon and the escalation of tensions in the Middle East means to say that geopolitical risk will continue to dominate the headlines for the foreseeable future.

Multi-Asset Team

Columbia Threadneedle (Lux) III CT (Lux) Euro Bond

Performance

Over the twelve months to 30 September 2023, the I Acc EUR share class returned -2.5%. By comparison, the BBI Euro Aggregate Treasury TR Index returned -2.2%. Performance is total return and in euro terms.

Over the twelve-month period, CT (Lux) Euro Bond performed in line with its benchmark. Underweight duration was beneficial as yields increased sharply, though our shift to a long duration bias was too early and this hampered returns in the second half of the period. There was a positive contribution from underweights in Italian government bonds amid more hawkish pressure from the European Central Bank (ECB). This was offset by losses from overweights in government-related bonds and curve steepeners in Europe held earlier in the period.

Market Review

European government bond yields rose over the period as interest rates rose. There was a surge in the last quarter of 2022, as fears over inflation and the pace of interest rate increases dominated. But yields fell back as the pace of interest rate increases eased in 2023 and investors anticipated a peak in interest rates and even cuts if economic growth faltered. The ECB made a tenth consecutive rate hike to a 22-year high of 4.0% for the deposit rate in September. This pushed interest rates close to still falling inflation rates and the ECB indicated that we are close to peak rates, so it is unlikely they hike again. As energy deflation deepened, preliminary estimates show inflation fell to 4.3% in September 2023, the lowest level since October 2021. However, the ECB dampened investors' expectations of a quick reversal of interest rates as inflation falls further, indicating that interest rates may have to be 'higher for longer' until wage pressures abate. This shift triggered a steeper yield curve, as shorter-dated bond valuations were anchored close to the policy rate while longer-dated bond valuations weakened to reflect concerns inflation, and the prospect of fiscal deterioration. The start of quantitative tightening (QT), as APP reinvestments ended in July 2023, further increased pressure on the market to absorb the supply of debt and drove the shift to higher yields for longer-duration bonds.

Outlook

Our bias for Eurozone government bond yields remains bullish, albeit with a steepening theme, as we prefer longs around the front end of curves. Over the quarter yields moved sharply higher, with a large steepening driven mainly by the back end of the curve. This can be explained by a combination of themes: a downgrade of US Federal credit ratings; a 'higher for longer' interest rate regime; growth remaining resilient; and increasing debt issuance in the absence of central bank buying. Whilst valuations have become more attractive, we continue to wait for further signs of weakness in the labour market before adding to bullish positions. We anticipate that yield spreads for lower-rated government bond compared to Germany will widen further in 2023 as growth weakens and supply dynamics worsen as the ECB reduces its purchases of Italian and other debt.

Performance

In the twelve months to 30 September 2023, the Class A EUR shares returned 21.9%. By comparison the FTSE All-World Developed Europe NR Index return was 19.5%. All figures are net of fees and in euro terms.

The portfolio outperformed over the twelve-month period. Stock selection was the main contributor to the outperformance. The largest contributors included Burford Capital, after investors began to understand the scale of the upside from the Judge's decision in Burford's favour in the Petersen case early in 2023. Aerospace company Melrose was strong after they spun-off the auto business and subsequently announced an upgrade in guidance. UBS was a strong performer as investors turned their focus to the benefits of the deal to takeover Credit Suisse. Detractors included Kerry Group, which like many food companies saw their shares underperform on consumer weakness and concerns over the impact of the new generation of obesity drugs. Deutsche Boerse was weak as lower volatility impacting stock exchange volumes.

Market Review

European equity markets rose strongly over the period. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and then recovered throughout most of the period. European equities outperformed through the winter as the economy mostly avoided recession. However, in early 2023, falling banking stocks hit the market, resulting from the collapse of two US regional banks and the rescue of Credit Suisse, contributing to the uncertainty over the direction of monetary policy. Although the lack of contagion from the financial crisis was welcomed, the European Central Bank (ECB) continued to raise rates even as the economy struggled with weak Chinese import demand and a subdued domestic consumer base. Towards the end of the period, risk-averse investors realised that global interest rates would likely stay higher for longer, adding to the economic pessimism of a broader regional economic contraction, which weighed on equities. As energy prices eased in Europe, preliminary estimates showed eurozone inflation fell to 4.3% in September 2023, the lowest level since October 2021. Meanwhile, core inflation cooled to 5.3% from 5.5% in July. Over the twelve months, the ECB raised interest rates eight times, with a jumbo hike of 75 basis points in October and smaller rises in December, February, March, May, June, July and September 2023, taking the deposit rate to 4.00%. In addition, March saw the beginning of quantitative tightening.

Outlook

As we move into the final quarter of the year, the direction of European equity markets continues to be determined by inflation and the prospects, or not, for a peak in interest rates and the subsequent impact on the economy. While there are signs of slower economies with PMIs noticeably weaker, especially in the UK and Europe, inflation remains stubbornly high, even though it has shown some signs of weakening. Central bank comments suggest we are at peak interest rates but that they will remain high for some time. We believe the portfolio remains well positioned, with our focus on high quality companies at attractive valuations that can perform despite the economic environment.

Columbia Threadneedle (Lux) III CT (Lux) European Smaller Cap

Performance

Over the twelve months to 30 September 2023, the Class A EUR share returned 12.2%. By comparison the EMIX (the composite benchmark until 31 July 2023) Smaller European Companies Index (NR), returned 13.6%. Performance is net of fees and in euro terms.

The Portfolio was slightly ahead of the strong gains of European equity markets over the twelve months. The largest positive contribution came from the holding of Breedon, the acquisitive UK building materials group, which made the move from AIM to the main market. Gerresheimer, the German-listed pharmaceutical packaging company, has been refocused towards higher value products with higher growth and is now seen as a key supplier of packaging in the growing area of obesity medicine. The shares surged following the encouraging heart data from Novo Nordisk's drug trial that increased expectations for the size of the addressable market for obesity drugs. Our holdings of semiconductor companies, including ASM International, benefitted from the strong NVIDIA results and the belief that the intense computing power consumption needed for AI will drive additional demand for chip manufacturing. Performance was hit by a profit warning from flatexDEGIRO, the German-listed online broker. The fall in full-year guidance due to lower client activity wasn't a shock. However, the news of an audit by the German regulator (BaFin), resulting in measures needed to improve internal controls and capital, was a surprise. While the company's rapid expansion requires greater regulatory oversight, the way in which this has been handled by management was extremely disappointing and we have sold our position. Coor Service Management, the leading Scandinavian integrated facility manager, announced a loss of one of its largest contracts, which accounted for about 5% of its sales. This has called into question the investment thesis and we are reviewing our position.

Market Review

European small cap equity markets rose over the period but significantly underperformed large caps. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and then recovered throughout most of the period. European equities outperformed through the winter as the economy mostly avoided recession. However, in early 2023, falling banking stocks hit the market, resulting from the collapse of two US regional banks and the rescue of Credit Suisse, contributing to the uncertainty over the direction of monetary policy. Although the lack of contagion from the financial crisis was welcomed, the European Central Bank (ECB) continued to raise rates even as the economy struggled with weak Chinese import demand and a subdued domestic consumer base. Towards the end of the period, risk-averse investors realised that global interest rates would likely stay higher for longer, adding to the economic pessimism of a broader regional economic contraction, which weighed on equities. As energy prices eased in Europe, preliminary estimates showed eurozone inflation fell to 4.3% in September 2023, the lowest level since October 2021. Meanwhile, core inflation cooled to 5.3% from 5.5% in July. Over the twelve months, the ECB raised interest rates eight times, with a jumbo hike of 75 basis points in October and smaller rises in December, February, March, May, June, July and September 2023, taking the deposit rate to 4.00%. In addition, March saw the beginning of quantitative tightening.

Outlook

As we move into the final quarter of the year, the direction of European equity markets continues to be determined by inflation and the prospects, or not, for a peak in interest rates and the subsequent impact on the economy. While there are signs of slower economies with PMIs noticeably weaker, especially in the UK and Europe, inflation remains stubbornly high, even though it has shown some signs of weakening. Central bank comments suggest we are at peak interest rates but that they will remain high for some time. We believe the portfolio remains well positioned, with our focus on high quality companies at attractive valuations that can perform despite the economic environment.

Columbia Threadneedle (Lux) III CT (Lux) Global Absolute Return Bond

Performance

Over the twelve months to 30 September 2023, the Class I Acc EUR shares returned 1.8%. By comparison, the SONIA Interbank Rate GBP return was 2.5%. Performance is total return, net of fees and in sterling terms.

The strategy delivered positive negative returns despite bond markets on average seeing losses. Exposure to US interest rate risk detracted from returns as US bond yields rose. Although defensive strategies in the US interest rate market helped mitigate the impact of the rise in US Treasury yields, exposure to embedded interest rate risk in the fund's corporate bond holdings created a drag on performance. Even as government bond yields rose, credit spreads tightened on the back of the resilient economy. Exposure to rising stars – issuers making the credit rating transition from high yield to investment grade – provided another positive contributor to performance, as did a tilt to higher beta sectors of the corporate bond market. Credit hedging strategies detracted from returns. Relative value interest rate strategies saw a set back at the start of 2023, largely due to a long position in the UK and a short position in Japan, though the position in UK delivered later in the year.

Market Review

Global government bond yields rose over the period as interest rates rose. There was a surge in the last quarter of 2022, as fears over inflation and the pace of interest rate increases dominated. But yields fell back as the pace of interest rate increases eased in 2023 and investors anticipated a peak in interest rates and even cuts if economic growth faltered. The US Federal Reserve (Fed) ended its quantitative easing programme, reduced its bond holdings and raised interest rates six times to end September at 5.50%. This pushed interest rates above falling inflation rates. Consumer price inflation eased from 7.7% in October 2022 to 3.7% in September 2023 amid falling energy costs. However, the Fed dampened investors' expectations of a quick reversal of interest rates as inflation falls further, indicating that interest rates may have to be 'higher for longer' until wage pressures abate. This shift triggered a steeper yield curve, as shorter-dated bond valuations strengthened in anticipation of looser monetary policy while longer-dated bond valuations weakened to reflect concerns inflation, and the prospect of fiscal deterioration. Even as government bond yields rose, credit spreads ground tighter. This reflected the relative resilience of economic growth and healthy revenues.

Outlook

Our bias for government bond yields remains bullish, albeit with a steepening theme, as we prefer longs around the front end of curves. Yields have moved sharply higher with a large steepening driven mainly by the back end of the US curve. This can be explained by a combination of themes: a downgrade of US Federal credit ratings; hawkish central banks citing a 'higher for longer' interest rate regime; growth remaining more resilient than expected; and debt issuance concerns because of continued expansionary fiscal policy. Whilst valuations have become more attractive with fewer cuts priced in and a greater term premium, we remain cautious of adding to bullish positions in bonds as labour markets have yet to show signs of any significant weakening despite the large amount of interest rate hikes enacted by central banks. Going into the final quarter of 2023, the outlook for global Investment Grade (IG) corporate credit appears fairly balanced. The economic outlook is weak but positive, but tight monetary policy remains a clear threat to further credit yield spread compression. Against this, we expect credit quality to remain strong, particularly in the US.

Columbia Threadneedle (Lux) III CT (Lux) Global Convertible Bond

Performance

In the twelve months to 30 September 2023, the return on the Class A EUR shares was 0.6%, while the return for the Thomson Reuters Global Focus Customised TR Index was 3.1%. Performance is net of fees and in euro terms.

The Portfolio underperformed the benchmark. Underperformance was largely attributable to strong performance from convertibles excluded from the portfolio (Safran, Posco). Detractors included underweight positions in Wayfair and Rivian (cash burning/loss-making, financing needs in higher yield environment), which exited the balanced index at high levels but subsequently fell back on outlook concerns in a higher-for-longer rate environment. Missing out on infrastructure software provider MongoDB and Royal Caribbean Cruiselines was negative, whilst the holding in troubled nursing home operator Orpea also detracted. However, these losses were offset by other convertible selections within the sector. Positioning in the communication services sector was the largest relative performance detractor, driven by Cellnex (convertible buy-back, timing of index deletion) and underweight Ubisoft (governance concerns). Positioning in IT, in which BE Semiconductor was a strong performance contributor, and financials, were the most positive drivers to relative returns. Our investment strategy continued to be cautious, as a period of 'higher for longer' interest rates seemed increasing likely. Deep-in-the-money convertibles into Siemens, Booking, BE Semiconductor, On Semiconductor, Insulet, EDF and Sika were amongst others reduced. Furthermore, higher-yielding convertibles that provided unattractive risk/rewards (after hedging costs) were switched into higher-quality alternatives, which offered a more attractive balance between yield and conversion premium. Against an uncertain economic outlook, our quality-focussed investment strategy will be retained.

Market Review

Convertibles gained support from a recovery in equity markets and corporate credit spreads even as interest rates continued to rise, as confidence in the outlook improved from very low levels in the latter part of 2022. Nonetheless, concerns about further monetary tightening from persistently high inflation and a resilient US economy weighed on markets throughout the period. The US Federal Reserve (Fed) ended its quantitative easing programme and reduced its bond holdings, raising interest rates six times to end September 2023 at 5.50%. This pushed interest rates above falling inflation rates. US consumer price inflation eased from 7.7% in October 2022 to 3.7% in September 2023 amid falling energy costs. However, the Fed dampened investors' expectations of a quick reversal of interest rates as inflation falls further, indicating that interest rates may have to be 'higher for longer' until wage pressures abate. This shift triggered a steeper yield curve, as shorter-dated bond valuations strengthened in anticipation of looser monetary policy while longer-dated bond valuations weakened to reflect concerns inflation, and the prospect of fiscal deterioration. Even as government bond yields rose, credit spreads ground tighter. This reflected the relative resilience of economic growth and healthy revenues. To the end of September convertible issuance in 2023 stands at US\$67bn, slightly below average levels seen prior to the surge seen in 2020 and 2021.

Outlook

We maintain our cautious outlook. Although inflation has trended lower, rates are expected to remain higher for longer as the US Federal Reserve has lifted its economic growth outlook and lowered its unemployment rate expectations on a resilient economy. The outlook for the Eurozone has softened, with economic indicators pointing to contraction. However, support will come from a boost in disposable incomes from falling inflation and a reversal of the manufacturing inventory correction early next year. Despite China's ongoing property market crisis, its economy has responded positively to government stimulus. Against a backdrop of uncertainty about the impact of monetary policy and geopolitical risks, we continue a cautious strategy, focussing on higher quality, balanced convertibles and seeking to benefit from favourable risk/reward dynamics that the asset class offers in volatile markets.

Anna Eljking
Portfolio Manager

Columbia Threadneedle (Lux) III CT (Lux) Global Smaller Cap Equity

Performance

Over the twelve months to 30 September 2023, the Class A USD shares returned 16.9%. By comparison, the MSCI World Small Cap NR Index, returned 14.0%. Performance is net of fees and in US dollar terms.

The Portfolio outperformed strongly over the period. Centrica contributed strongly as it continues to benefit from structural changes in the UK electricity market and has announced gas storage expansion. Melrose Industries (a UK holding company that turns around industrial businesses) benefitted from the spin-off of its auto business. Focus Financial Partners, a US wealth management business, received a takeover bid from private equity. A highlight was good stock selection in US banks in the face of the mini banking crisis that followed the collapse of SVB. The largest detractor was Direct Marketing MIX, which saw Q1 sales and profits down year-on-year due to drop off in vaccine-related work, and some weakness in its telecoms market. PRA, the debt collector, saw its estimate of remaining collections revised downwards because of an adverse selection issue in the 2021 debts and lower tax refunds. Viavi Solutions, which provides testing and monitoring equipment and services for communications networks, reported disappointing profits as customers reduced their investment intentions.

Market Review

Global small cap equity markets rose over the period but underperformed large caps, particularly in the US and Continental European stock markets. Equities generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and then recovered throughout most of the period. However, concerns over inflation and recession, though reduced, remained. 2023 began with a series of stock market rallies, supported by China's removal of Covid restrictions, a warm winter averting an energy crisis in Europe and an anticipated softening of interest rate hikes. But, despite this, the US Federal Reserve (Fed) maintained its hawkish stance towards interest rates in the face of a resilient US economy, which caused market volatility. In addition, the collapse of two US-based regional lenders and UBS's rescue of Credit Suisse caused a short-lived fear of a financial crisis in the spring. China's economic recovery after lifting Covid restrictions disappointed in the face of its troubled property market, despite modest stimulus measures, and this hit both the domestic market and China-facing stocks. Moreover, towards the end of the period, investors were recalibrating equity valuations upon realising that higher interest rates were here to stay, increasing borrowing costs.

Outlook

Global equity markets are suffering from more cautious sentiment as we enter Q4, despite inflation improving in the US and across Europe. Concerns revolve around a bearish curve steepening in the treasury markets, some loss of economic growth momentum, and a pickup in consumer headwinds globally. That said, with Q3 earnings on the horizon, investors will be hoping for confirmation that consumer and corporate balance sheets remain on solid footing. Bond market developments have highlighted potential risks to financial stability associated with the 'higher for longer' narrative, so the actions of central banks will continue to have a heavy influence into the end of 2023 and potentially beyond until the balance shifts towards the view that potential interest rate cuts will be forthcoming to stimulate global economic activity.

Columbia Threadneedle (Lux) III CT (Lux) Global Total Return Bond

Performance

Over the twelve months to 30 September 2023, the Class I Acc EUR shares returned 1.5%. By comparison, its market reference, the Bloomberg Barclays Global Aggregate TR EUR Hedged Index returned -0.4%. Performance is total return, net of fees and in euro terms.

The strategy outperformed its benchmark as bond markets recorded losses. Defensive strategies in the US interest rate market helped mitigate the impact of the rise in US Treasury yields, exposure to embedded interest rate risk in the fund's corporate bond holdings created a drag on performance. Even as government bond yields rose, credit spreads tightened on the back of the resilient economy. Exposure to rising stars – issuers making the credit rating transition from high yield to investment grade – provided another positive contributor to performance, as did a tilt to higher beta sectors of the corporate bond market. Credit hedging strategies detracted from returns. Relative value interest rate strategies saw a set back at the start of 2023, largely due to a long position in the UK and a short position in Japan, though the position in UK delivered later in the year.

Market Review

Global government bond yields rose over the period as interest rates rose. There was a surge in the last quarter of 2022, as fears over inflation and the pace of interest rate increases dominated. But yields fell back as the pace of interest rate increases eased in 2023 and investors anticipated a peak in interest rates and even cuts if economic growth faltered. The US Federal Reserve (Fed) ended its quantitative easing programme, reduced its bond holdings and raised interest rates six times to end September at 5.50%. This pushed interest rates above falling inflation rates. Consumer price inflation eased from 7.7% in October 2022 to 3.7% in September 2023 amid falling energy costs. However, the Fed dampened investors' expectations of a quick reversal of interest rates as inflation falls further, indicating that interest rates may have to be 'higher for longer' until wage pressures abate. This shift triggered a steeper yield curve, as shorter-dated bond valuations strengthened in anticipation of looser monetary policy while longer-dated bond valuations weakened to reflect concerns inflation, and the prospect of fiscal deterioration. Even as government bond yields rose, credit spreads ground tighter. This reflected the relative resilience of economic growth and healthy revenues.

Outlook

Our bias for government bond yields remains bullish, albeit with a steepening theme, as we prefer longs around the front end of curves. Yields have moved sharply higher with a large steepening driven mainly by the back end of the US curve. This can be explained by a combination of themes: a downgrade of US Federal credit ratings; hawkish central banks citing a 'higher for longer' interest rate regime; growth remaining more resilient than expected; and debt issuance concerns because of continued expansionary fiscal policy. Whilst valuations have become more attractive with fewer cuts priced in and a greater term premium, we remain cautious of adding to bullish positions in bonds as labour markets have yet to show signs of any significant weakening despite the large amount of interest rate hikes enacted by central banks. Going into the final quarter of 2023, the outlook for global Investment Grade (IG) corporate credit appears fairly balanced. The economic outlook is weak but positive, but tight monetary policy remains a clear threat to further credit yield spread compression. Against this, we expect credit quality to remain strong, particularly in the US.

Columbia Threadneedle (Lux) III CT (Lux) Responsible Euro Corporate Bond

Performance

Over the twelve months to 30 September 2023, the Class F IncEUR shares returned 3.9%. This compares to the BBI Euro Aggregate Corporate TR Index, which returned 3.6%. Performance is total return, net of fees and in euro terms.

Over the twelve months, we generally maintained a conservative position within the fund and kept the overall risk profile close to the benchmark. A small overweight in credit risk through the start of 2023 was beneficial as credit spreads tightened. While we cut this back over the summer, with the economic outlook and corporate results remaining resilient, we increased the credit risk in the portfolio, as measured by duration times spread, to 106% of the index by the end of September. This was also beneficial as credit spreads tightened over that period. We maintained a modest underweight duration position for most of the period, which was positive for performance as bond yields and interest rates rose. However, we increased duration (interest rate sensitivity) marginally as interest rates approached their expected peak. This detracted from performance as bond yields continued to rise, with the bond yield curve steepening.

Market Review

European corporate bonds delivered positive returns over the 12 months. While interest rates and government bond yields rose, for most of the period, the European Central Bank indicated that its September increase to 4.50% was the final one. However, it accompanied this with a warning that interest rates would stay 'higher for longer', which meant that while short-term bonds rallied on the back of no further interest rate increases, longer-term bonds fell as expectations for interest rate cuts were pushed back. This left corporate bonds net winners compared with government bonds as they have a shorter average duration, but individual bond returns diverged based on duration. Credit spreads narrowed modestly as corporate results continued to be resilient and the economy skirted recession. While the fourth quarter of 2022 saw credit spreads widen as recession fears increased, towards the end of 2022, investors began to return to debt markets, attracted by higher yields and hoping that central banks would start to curb aggressive interest rate hikes. After a difficult year for bond issuers in 2022, the start of 2023 saw a burst of activity and the year continued with a more normal level of new issues. Yields began to fall back as economic concerns switched from high inflation to slowing economic growth, and bond investors grew more optimistic. However, February's stubborn inflation caused a re-evaluation of the expected rate cut timings, and yields rose again. As the first quarter progressed, concerns about the banking system's health caused further volatility, which temporarily widened credit spreads between junk and investment-grade bonds. As the period ended, corporate bond risk credit spreads tightened modestly as cash flows and balance sheets remained resilient. Preliminary estimates showed that Eurozone inflation fell to 4.3% in September, and core inflation eased to 4.5%. The European Central Bank (ECB) tightened monetary policy, following the lead from the US and other countries. It also announced quantitative tightening (i.e., not reinvesting all proceeds of maturing bonds in its portfolio) in March 2023.

Outlook

The outlook for euro IG credit appears fairly balanced. The risk of recession is higher in Europe than in the US, but any such contraction would likely be mild. Core inflation is heading down, and wage growth appears to have peaked. In Europe we think the combination of low economic growth (or mild recession) and falling inflation will trigger faster interest-rate cuts than markets currently expect. In the meantime, though, restrictive monetary policy remains a headwind for spread compression. As regards corporate health, we expect credit quality to remain strong. In addition, euro IG – where spreads finished the month above their 5- and 20-year averages – remains relatively attractive in valuation terms, especially compared with its US dollar counterpart. Lastly, the yield offered by the euro IG market finished well above its 20-year mean – 'good news' for those seeking income.

CT (Lux) Responsible Global Emerging Markets Equity

Performance

Over the twelve months to 30 September 2023, the Class A USD shares returned 11.6%. By comparison, the MSCI Emerging Markets NR Index, returned 11.7%. Performance is net of fees and in US dollar terms.

The portfolio outperformed its benchmark over the twelve months. At the sector level, consumer discretionary was the main contributor, with selection proving most advantageous, especially the e-commerce companies MercadoLibre and Allegro.eu. Information technology was the main detractor due to selection. A strong contribution from FPT, the Vietnamese IT services group, was offset by the poor performance of EPAM and not owning Samsung Electronics. The overall contribution from China was positive, but this was a very volatile period for Chinese equities as it covered the reopening from the "Zero-Covid" policy at the end of 2022. There was also optimism surrounding Beijing's support to the internet and gaming sector, after Alibaba's founder, Jack Ma, returned to China for the first time in over a year. Tencent's management were also upbeat on their fintech outlook for the first time since late 2020. The largest detractor for the portfolio was Inner Mongolia Yili Industrial Group, while the underweight position in Tencent was most beneficial.

Market Review

Emerging equity market delivered positive returns over the 12-month period. Initially, many Asian markets were weighed on by high exposure to waning technology stocks. Moreover, equities generally struggled with concerns over China and their slowing economy and debt-fuelled property market. However, as 2022 ended, China loosened its strict covid-restrictions which boosted markets. The first quarter of 2023 was volatile as investors and policymakers played tug-of-war with inflation and interest rate expectations. After the collapse of two US regional banks, fears about the health of the global banking system were also exposed, in addition to predictions of high US policy rates, which deterred Asian equity investors. Markets then recovered as the contagion from the US regional banks didn't materialise, the US Federal Reserve (Fed) signalled a pausing on tightening and Beijing's vocal support for private companies as well as SOE reforms. Asian markets were further supported by a recovery in Tech stocks as Nvidia reported surging AI demand. Toward the end of the period, investors retained their pessimism as global dynamics overshadowed fundamental and country dynamics, with the US economy remaining resilient, resulting in the Fed's higher for longer narrative and thus concerns over tighter financial conditions impacted emerging markets.

Outlook

Domestic demand remains resilient across many emerging markets (EM), and this should be bolstered by signs that inflation is beginning to retreat. Given that EM central banks tightened policy ahead of the major developed economies, some are already starting to cut interest rates. However, headwinds remain from subdued external demand and higher energy prices. Improved US-China dialogue may reduce geopolitical tensions. We are monitoring the developments in Taiwan's elections with recent polls indicating a more pragmatic policy stance towards China. EM stocks are attractive from a valuation perspective, trading significantly below the long-term average and cheap relative to global equities. In our portfolios, we focus on quality companies with strong market positions, preferring those with stable earnings, low leverage and pricing power, which should fare better in this environment.

Performance

Over the twelve months to 30 September 2023, the Class A EUR shares returned 2.9%; by comparison the MSCI World NR Index returned 12.8%. Performance net of fees and in euro terms.

The fund underperformed benchmark over the six months, with relative returns hit by the painful collapse of SVB Financial, roughly a 1.2% position in the portfolio at the start of 2023, and marked down to zero in value following it being placed into FDIC receivership on 10th March. US health care company, CVS Health, was a detractor as company guidance on future earnings was lowered. The largest offsetting contributor was Linde, which has brushed aside investor concerns with strong results. Positive contributions also came from French industrial group, Schneider Electric, which saw solid end market demand despite macro headwinds and Mastercard, which gained on strong Q2 results and positive guidance from management. While there were positive contributions from not owning some of the mega cap index heavy weights, such as Tesla, there were larger impacts from not owning NVIDIA and Meta Platforms.

Market Review

Global equity markets rallied strongly over the 12 months to 30 September 2023. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and then recovered throughout most of the period. However, concerns over inflation and recession, though reduced, remained. 2023 began with a series of stock market rallies, supported by China's removal of Covid restrictions, a warm winter averting an energy crisis in Europe and an anticipated softening of interest rate hikes. But, despite this, the US Federal Reserve (Fed) maintained its hawkish stance towards interest rates in the face of a resilient US economy, which caused market volatility. In addition, the collapse of two US-based regional lenders and UBS's rescue of Credit Suisse caused a short-lived fear of a financial crisis in the spring. China's economic recovery after lifting Covid restrictions disappointed in the face of its troubled property market, despite modest stimulus measures, and this hit both the domestic market and China-facing stocks. Moreover, towards the end of the period, investors were recalibrating equity valuations upon realising that higher interest rates were here to stay, increasing borrowing costs.

Outlook

Global equity markets are suffering from more cautious sentiment as we enter Q4, despite inflation improving in the US and across Europe. Concerns revolve around a bearish curve steepening in the treasury markets, some loss of economic growth momentum, and a pickup in consumer headwinds globally. That said, with Q3 earnings on the horizon, investors will be hoping for confirmation that consumer and corporate balance sheets remain on solid footing. Bond market developments have highlighted potential risks to financial stability associated with the 'higher for longer' narrative, so the actions of central banks will continue to have a heavy influence into the end of 2023 and potentially beyond until the balance shifts towards the view that potential interest rate cuts will be forthcoming to stimulate global economic activity.

Performance

Over the twelve months to 30 September 2023, the Class A Acc USD shares returned 10.6%; by comparison the MSCI ACWI SMID Cap NR Index returned 15.5%. Performance is net of fees and in US dollar terms.

The fund underperformed the benchmark over the twelve months. Relative returns were significantly impacted by the painful collapse of SVB Financial, roughly a 2% position in the portfolio at the start of March, and marked down to zero following it being placed into FDIC receivership on 10th March. We sold the holding in IFF, the US ingredients business, after another poor operational update and some growing concerns over its financial leverage. We exited the position in Belgian cathode materials business, Umicore, as the investment case continued to erode. Positive stock contributors including Wex, the US business payments group, which reported strong revenue growth and a share buy-back. Cholamandalam Investment and Finance, announced an expected capital raise in September, capitalising on the strength of the Indian economy and market. Clinical research company, ICON, benefited from some positive messaging around the industry backdrop.

Market Review

Global equity markets rallied strongly over the 12 months to 30 September 2023. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and then recovered throughout most of the period. However, concerns over inflation and recession, though reduced, remained. 2023 began with a series of stock market rallies, supported by China's removal of Covid restrictions, a warm winter averting an energy crisis in Europe and an anticipated softening of interest rate hikes. But, despite this, the US Federal Reserve (Fed) maintained its hawkish stance towards interest rates in the face of a resilient US economy, which caused market volatility. In addition, the collapse of two US-based regional lenders and UBS's rescue of Credit Suisse caused a short-lived fear of a financial crisis in the spring. China's economic recovery after lifting Covid restrictions disappointed in the face of its troubled property market, despite modest stimulus measures, and this hit both the domestic market and China-facing stocks. Moreover, towards the end of the period, investors were recalibrating equity valuations upon realising that higher interest rates were here to stay, increasing borrowing costs.

Outlook

Global equity markets are suffering from more cautious sentiment as we enter Q4, despite inflation improving in the US and across Europe. Concerns revolve around a bearish curve steepening in the treasury markets, some loss of economic growth momentum, and a pickup in consumer headwinds globally. That said, with Q3 earnings on the horizon, investors will be hoping for confirmation that consumer and corporate balance sheets remain on solid footing. Bond market developments have highlighted potential risks to financial stability associated with the 'higher for longer' narrative, so the actions of central banks will continue to have a heavy influence into the end of 2023 and potentially beyond until the balance shifts towards the view that potential interest rate cuts will be forthcoming to stimulate global economic activity.

Columbia Threadneedle (Lux) III CT (Lux) Sustainable Global Equity Enhanced Income

Performance

The fund was launched on 2 August 2023 and this is the first annual report.

The fund has a dual sustainable and income mandate. It aims to provide income combined with capital growth over the long term (at least 5 years). The fund is actively managed and combines a core equity component with an active derivatives strategy to enhance income. The fund aims to provide long-term capital growth by investing primarily in sustainable investments, considered for this fund to be shares of companies that derive, or are on a credible short to medium-term pathway to derive, a significant amount of net revenue (50% or more) from activities that can be directly linked to one or more of the UN Sustainable Development Goals ("SDGs").

Market Review

Global equity markets fell in August and September. Equity markets initially plunged from investor concerns about further monetary tightening stemming from persistently high inflation and a resilient US economy. Weak Chinese economic data combined with persistent fears of the overindebted local property sector were also negative factors. Generally, investors were recalibrating equity valuations upon realising that higher interest rates were here to stay in the short-to-medium term. Concerns were raised that the cost of borrowing was increasing while domestic economies were flirting with recession amid rising energy prices, squeezing corporate profit margins.

The period witnessed a general rise in government bond yields as the central banks' theme of 'higher for longer' diverted fixed-income investors into shorter-term bonds at the expense of longer-term issues. Investors also focused on the consequences of increasing government debt issuance combined with a robust economy and persistent inflation. Corporate bond values declined despite an initial flurry of issuances as yields rose.

Outlook

Global markets are suffering from a lack of confidence and more cautious sentiment as we enter Q4, despite the improving inflation narrative. Concerns revolve around bearish curve steepening in the treasury markets, some loss of economic growth momentum, and a pickup in consumer headwinds globally. Most recently added to the mix is the uncertain impact from the strong oil price. That said, with Q3 earnings on the horizon, investors will be hoping for another quarter of sanguine corporate commentary confirming that consumer and corporate balance sheets remain on solid footing. Japanese equities saw some of the enthusiasm building over abating concerns around the Chinese economy overshadowed by the US as we ended the quarter. Into Q4, it feels like the push and pull between bulls and bears will continue. Bond market developments have highlighted potential risks to financial stability associated with the 'higher for longer' narrative, so actions of central banks will continue to heavily influence markets beyond 2023 potentially, or until there is greater conviction that interest rate cuts will be forthcoming to stimulate global economic activity.

Columbia Threadneedle (Lux) III CT (Lux) Sustainable Multi-Asset Income

Performance

Over the twelve months to 30 September 2023, the Class I EUR share returned -1.8%. By comparison, 1 Month Euribor returned 2.5%. Performance is net of fees and in euro terms.

Our portfolio positioning retains its bias towards higher quality, sustainable growth companies that can prosper despite near-term economic and policy-driven volatility, giving us a bias towards healthcare, information technology and industrials. Our integrated approach to Sustainable Investment prevents any allocation to companies that manufacture weapons or tobacco or that own or derive revenue from fossil fuel reserves. We continue with our strategy of adding to positions where we see strong underlying quality and where the market allows us to add at more attractive levels. Equities and credit remain our largest allocations, with a smaller position in alternatives.

Market Review

Global equity markets rallied strongly over the 12 months to 30 September 2023. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated sentiment in the autumn of 2022, and rose throughout most of the period. However, concerns over inflation and recession, though reduced, remained. 2023 began with a series of stock market rallies, supported by China's removal of Covid restrictions, a warm winter averting an energy crisis in Europe and an anticipated softening of interest rate hikes. But, despite this, the US Federal Reserve (Fed) maintained its hawkish stance towards interest rates in the face of a resilient US economy, which caused market volatility. In addition, the collapse of two US-based regional lenders and UBS's rescue of Credit Suisse caused a short-lived fear of a financial crisis in the spring. China's economic recovery after lifting Covid restrictions disappointed in the face of its troubled property market, despite modest stimulus measures, and this hit both the domestic market and China-facing stocks. Moreover, towards the end of the period, investors were recalibrating equity valuations upon realising that higher interest rates were here to stay, increasing borrowing costs. Global government bond yields rose over the period as interest rates rose. There was a surge in the last quarter of 2022, as fears over inflation and the pace of interest rate increases dominated. But yields fell back as the pace of rate increases eased in 2023 and investors anticipated a peak in interest rates and even cuts if economic growth faltered. However, they rose to fresh highs in the last few months of the period, even as the peak of interest rates approached, as central banks signalled that interest rates would be 'higher for longer'. This was accompanied by yield curve steepening, as shorter-dated bond valuations strengthened in anticipation of looser monetary policy while longer-dated bond valuations weakened to reflect inflation concerns, and the prospect of fiscal deterioration. While government bond yields rose, credit spreads tightened to reflect the relative resilience of economic growth and healthy revenues.

Outlook

Looking ahead, we still anticipate a slowdown in global growth versus the trend level, accompanied by reduced, but still above-trend inflation. Our recent research suggests that, if past tightening cycles are any guide, the peak impact on GDP growth from rate hikes already implemented in the US, Eurozone and UK is not likely to be felt until late this year or early in 2024. While the precise timing is uncertain, we are confident that, from here on, economic activity will increasingly feel the drag of prior monetary tightening. This suggests a positive fundamental outlook for core government bonds, where yield premiums are historically high compared with long-term GDP forecasts. Although we are constructive on the asset class, we would expect volatility to remain elevated. For corporate credit, where valuations look reasonable rather than compelling, the low-growth outlook should result in below-average – but still positive – excess returns over core bonds in the year ahead. The encouraging blend of disinflation and economic growth data in the US has left us more constructive on the outlook for equities than was the case a few months ago. Nevertheless, we remain somewhat cautious on the asset class as a whole. Sluggish growth presents a mild risk to company earnings and, of more concern, global equity valuations (on a price-to-earnings basis) look high on a historical basis, both in absolute terms and relative to other asset classes. The on-going conflict in Ukraine shows no signs of ending soon and the escalation of tensions in the Middle East means to say that geopolitical risk will continue to dominate the headlines for the foreseeable future.

Columbia Threadneedle (Lux) III CT (Lux) Sustainable Opportunities European Equity

Performance

In the twelve months to 30 September 2023, the Class A EUR share returned 15.5%. By comparison the benchmark returned 19.2%. Performance is net of fees and in euro terms. The benchmark for this Portfolio was changed to MSCI Europe NR on 14/10/19, previously it was the FTSE All-World Developed Europe NR.

The portfolio underperformed the very strong recovery of European equity markets over the period. The largest detractor was National Express Group, where, despite strong revenue growth, ongoing concerns on cost inflation have led to underperformance. Alfen Beheer underperformed as weak EV charging pricing led to poor results. There was also a very weak performance from sustainable viscose manufacturer Lenzing. Despite the completion of their ambitious capex plans, profits are still way below where they were forecast to be at the start of the projects and the company was forced to launch a rights issue to reinforce their balance sheet and issue a profits warning.

Market Review

European equity markets rose strongly over the period. Stock markets generally started from a low point, as high inflation, rising interest rates and fears of recession dominated markets in the autumn 2022, and then recovered throughout most of the period. European equities outperformed through the winter as the economy mostly avoided recession. However, in early 2023, falling banking stocks hit the market, resulting from the collapse of two US regional banks and the rescue of Credit Suisse, contributing to the uncertainty over the direction of monetary policy. Although the lack of contagion from the financial crisis was welcomed, the European Central Bank (ECB) continued to raise rates even as the economy struggled with weak Chinese import demand and a subdued domestic consumer base. Towards the end of the period, risk-averse investors realised that global interest rates would likely stay higher for longer, adding to the economic pessimism of a broader regional economic contraction, which weighed on equities. As energy prices eased in Europe, preliminary estimates showed eurozone inflation fell to 4.3% in September 2023, the lowest level since October 2021. Meanwhile, core inflation cooled to 5.3% from 5.5% in July. Over the twelve months, the ECB raised interest rates eight times, with a jumbo hike of 75 basis points in October and smaller rises in December, February, March, May, June, July and September 2023, taking the deposit rate to 4.00%. In addition, March saw the beginning of quantitative tightening.

Outlook

As we move into the final quarter of the year, the direction of European equity markets continues to be determined by inflation and the prospects, or not, for a peak in interest rates and the subsequent impact on the economy. While there are signs of slower economies with PMIs noticeably weaker, especially in the UK and Europe, inflation remains stubbornly high, even though it has shown some signs of weakening. Central bank comments suggest we are at peak interest rates but that they will remain high for some time. We believe the portfolio remains well positioned, with our focus on high quality companies at attractive valuations that can perform despite the economic environment.

Columbia Threadneedle (Lux) III CT (Lux) US Smaller Companies

Performance

Over the twelve months to 30 September 2023, the CT (Lux) US Smaller Companies Fund returned 15.3%. By comparison, the benchmark (Russell 2000 Index) returned -0.8%. Returns are net of fees, in sterling terms and on a total return basis. U.S. small cap equities, as measured by the Russell 2000 Index in US dollars, returned 8.93% for the period. Growth stocks outperformed value stocks over the course of the year, with the Russell 2000 Value Index up 7.84% versus a 9.59% return for the Russell 2000 Growth Index. Seven of the eleven Global Industry Classification Standard sectors within the Russell 2000 posted positive returns for the period, led by energy's 39.12% return, while health care was the biggest laggard returning -13.43% for the period. The US Smaller Companies fund outperformed the Russell 2000 Index for the one-year period ending September 30, 2023. Across the broad small cap universe, our process was in favor for the period, seeing some benefit from each of the fundamental, valuation and investor interest themes within our model. Security selection drove the bulk of the outperformance for the period, with sector allocation also a positive contributor. The portfolio's overweight within information technology and underweight in utilities made the largest positive contributions to relative performance, while a slight underweight to financials and overweight to health care detracted from relative performance. Security selection was strongest in financials and industrials, while security selection detracted most within the utilities and consumer staples sectors. Top individual security level contributors for the period included Duolingo, Inc. Class A and Helix Energy Solutions while top detractors included Axogen and CareDx.

Market Review

Volatility, geopolitical tensions, and fears of a global slowdown caused by central bank tightening of monetary policy served as complicating factors for equity market returns, although the overall path was higher after a challenging calendar 2022. The higher beta, higher risk rally which kicked off calendar year 2023, especially for U.S. large cap companies, has also impacted U.S. small caps, as the valuation disparity between small and large remains at extreme levels. So much so that U.S. small caps are already pricing in a recession, in our view. The US Federal Reserve has maintained its vigilance with regards to tightening of monetary policy since, despite cooling over the course of the year, inflation data remains well above its 2% target and the employment picture remains solid. How far will Fed tightening go in the current cycle? Fed Chair Powell and others on the FOMC remember Fed Chair Volcker's premature lifting of his foot from the tightening accelerator in the early 1980's, only to have to reverse course when inflation re-accelerated, and the committee seems determined not to repeat that mistake. Fed funds futures at the end of September 2023 currently discount a below 50/50 probability of any additional tightening, however, implying a terminal rate of around 5.4%. Further, fed funds futures are anticipating cuts of about 75 basis points in aggregate to the fed funds rate during 2024. For now, the Fed will need more evidence of slowing inflation before it decides to hit the pause button or to pivot to rate cuts, indicating "higher for longer" may be the most likely path forward. Much will depend on the jobs outlook, which to date suggest that futures traders may be too optimistic in calling for an easing cycle in 2024, as wage growth remains elevated.

Outlook

While investor sentiment has improved as the probability of a recession during 2023 has seemingly declined, there remains the threat of an economic slowdown during 2024. This environment means maintaining valuation discipline and a quality tilt to the portfolio as we begin the new fiscal year, as companies that are best able to fund their growth internally are likely to perform better. Market breadth, which started the year at very narrow levels, improved over the course of the year to more neutral levels, and any further improvement could be a positive for smaller cap stocks, in particular. Looking ahead, with interest rates likely to remain firmly positive, fundamentals such as earnings and cash flow (rather than liquidity provided by cheap money) will be the more likely drivers of returns, so our process should remain in favor.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements

as at 30 September 2023

1. Columbia Threadneedle (Lux) III, (THE "FUND")

The Fund is a "Société d'Investissement à Capital Variable" and is qualified as a Luxembourg investment company. Under the laws of the Grand Duchy of Luxembourg, the Fund is registered as an undertaking for collective investment pursuant to Part I of the amended Law of 17 December 2010 relating to undertakings for collective investment (the "Law").

Came Global Fund Managers (Luxembourg) S.A. has been designated by the directors of the Fund as management company (the "Management Company") by an agreement dated 1 October 2021. The list of the investment funds managed by the Management Company may be obtained, on request, at the registered office of the Management Company.

The Management Company is a Société Anonyme incorporated under the laws of Luxembourg with registered number B 148258 and approved to act as a Management Company for Luxembourg authorised collective investment schemes pursuant to Chapter 15 of the law of 17 December 2010. The Management Company acts as UCITS Management Company to a range of Luxembourg authorised UCITS collective investment schemes. It also acts as an Alternative Investment Fund Manager to alternative investment funds. The registered office of the Management Company is at 3, rue Jean Piret, L-2350 Luxembourg, Grand Duchy of Luxembourg.

The Fund's board of directors (the "Board" or "Directors" and each a "Director") has adopted the ALFI Code of Conduct, which sets out the principles of good governance, and considers that the Fund has been in compliance with it in all material respects throughout the financial year ended 30 September 2023.

2. SIGNIFICANT ACCOUNTING POLICIES

Presentation of financial statements

The financial statements have been presented in accordance with the reporting requirements of the Luxembourg supervisory authorities and Luxembourg generally accepted accounting principles ("GAAP").

Combined accounts

The combined financial statements have been presented in Euro, the functional currency of the Fund. Where a Portfolio is denominated in a currency other than Euro, the average exchange rate has been used for the Statement of Operations and Changes in Net Assets. The exchange rate ruling as at the reporting date has been used for the Statement of Net Assets.

Investments

As per the Prospectus and for the purpose of determining the Net Asset Value used for subscriptions and redemptions, the quoted investments and those traded in other regulated markets are valued on the basis of the last available price at 30 September 2023.

Securities which are not quoted on, or dealt, in an official or another regulated market, or securities which are so quoted or dealt in but in which the last sale price is not available, and securities for which the last sale price is not representative of the fair market value, the value of such securities will be determined based on an agreed pricing basis and the reasonably foreseeable sales price determined prudently and in good faith, upon the advice of the Investment Manager, by the Directors. Purchases and sales of investments are recognised on the trade date. Gains or losses on sales of investments are computed on the average cost basis and include transaction costs.

Investment income

Dividends are recognised in income, net of irrecoverable withholding tax, on the date upon which the relevant securities are declared "ex-dividend".

Translation of foreign currencies

Assets and liabilities denominated in currencies other than the Portfolios' reporting currencies have been translated at the rates of exchange ruling at 30 September 2023. Cost of investments and income and expenditure which are denominated in currencies other than the Portfolios' reporting currency have been translated at the exchange rates ruling on the day of transaction. The exchange gain or loss arising from the translation of these items is taken into account in the determination of the results of operations. The average USD/EUR exchange rate during the year was 0.937460. The USD/EUR exchange rate as at 30 September 2023 was 0.944510.

Cross portfolio investments

At 30 September 2023 there were no cross investments.

Futures contracts on securities and indices

Initial margin deposits are made upon entering into futures contracts and can be made either in cash or securities. During the year the futures contract is open, changes in the value of the contract are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are made or received, depending upon whether unrealised losses or gains are incurred. When the contract is closed, the Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

Columbia Threadneedle (Lux) III Notes to the Financial Statements (continued)

as at 30 September 2023

Forward foreign exchange contracts

The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realised profit or loss includes net gains or losses on forward foreign exchange contracts which have been settled or offset by other contracts with the same counterparty.

Options Purchased and Options Written

The premium paid for options purchased is recorded as an investment and is subsequently adjusted to the current market value of the option. Premiums paid for the purchase of options which expire unexercised are treated as realised losses on the expiration date. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security, foreign currency or index, in determining whether the relevant Portfolio has realised a gain or a loss. If a purchased call option is exercised, the premium increases the cost basis of the security, foreign currency or index purchased by the Portfolio.

For a written option, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio as realised gains on the expiration date. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the relevant Portfolio has realised a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security purchased by the relevant Portfolio.

Future style options

In the case of options on futures, no premium margin is required as a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting gains and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process. The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it was exercised.

Swap contracts

The Fund may enter into swap contracts in which the Fund and the counterparty agree to exchange payments (periodically throughout the life of the contract) where one or both parties pay the returns generated by a security, index commodities, or instruments on an agreed upon notional amount. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices. Swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Cash and cash equivalents

Cash and other liquid assets are valued at their face value, including interest accrued, where applicable. Interest is also accrued on bank overdrafts. All cash at bank is held either directly with a sub-depositary or by State Street Bank International GmbH, Luxembourg Branch, on overnight deposit with a third party institution which has been approved by the Board. The cash collateral in relations to the futures contracts, swaps, forward foreign exchange contracts and options are included in the statement of net assets respectively under "Cash held at brokers" and "Amounts due to brokers".

Income and receivable from securities lending

The Fund may lend its portfolio securities to specialised banks and credit institutions and other financial institutions of high standing and highly qualified registered brokers/dealers or through recognised clearing institutions such as Clearstream or Euroclear subject to complying with the provisions set forth in the CSSF Circular 08/356. Loans will be secured continuously by eligible collateral authorised from time to time by the CSSF. During the whole period of lending, collateral must be at least equal to the value of the global valuation of the securities lent. Each counterparty will possess an industry standard credit rating that is acceptable to the Investment Manager with reference to the market conditions prevailing at the relevant time.

Total amount of "Security lending income": 69,500 EUR

Total amount of "Security lending receivable": 2,112 EUR

As at 30 September, 2023, total amount of "Security lending receivable" is included in "Other assets".

Net amortization/Net accretion

Net amortization/Net accretion, includes the amortization and accretion of premiums / discounts from both, the long and short term fixed income securities. Interest income, net of irrecoverable withholding tax, is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts. All components are netted and disclosed in the Statement of Operations and Changes in Net Assets as a positive sum under the income position "Net amortization/ Net accretion" and as a negative sum under the expense position "Net amortization / Net accretion". Net amortization/Net accretion are calculated on straight line basis.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2023

3. EQUALISATION

The Fund follows the accounting practice known as "equalisation" by which a portion of the issue and redemption price representing, on a per share basis, accrued distributable investment income (excluding capital gains or losses), is credited or charged to distributable income. The amounts attributable to this income equalisation account are included in the proceeds from subscriptions to the Fund's shares or in the payment for the Fund's shares redeemed, and in the "Net equalisation", items of the Statement of Operations and Changes in Net Assets.

4. INVESTMENT MANAGEMENT FEES

The Fund entered into an agreement with the Management Company and Columbia Threadneedle Management Limited ("CTML") to act as investment manager to the following Portfolios for a monthly fee calculated on the average of the net asset value of each of the following Portfolios managed by it during the preceding month at the following rates:

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2023

Portfolio	Investment Management Fee rates per annum
CT (Lux) US Smaller Companies - Class A Shares - US\$	1.500%

*Refer to Appendix I.

CTML is a company incorporated in England and regulated by the Financial Conduct Authority ("FCA").

For the CT (Lux) Global Convertible Bond, CTML has delegated the portfolio management functions to Columbia Threadneedle Netherlands B.V.

For CT (Lux) US Smaller Companies, CTML has delegated the portfolio management functions to Columbia Management Investment Advisers, LLC.

There are no Investment Management Fees payable on Class X shares or Class L shares (if any).

The Investment Manager(s) have, at their discretion, capped expenses on some share classes. For these share classes, in instances where the expenses exceed the capped level, the Investment Manager(s) reimburses the Fund. The amounts reimbursed to the fund are disclosed in "Waiver of investment management fees" in the statement of net assets and in the statement of operations and changes in net assets.

5. ADMINISTRATION AND DEPOSITARY FEES

State Street Bank International GmbH, Luxembourg Branch ("the Depositary") is entitled to fees payable by the Fund, accruing daily and payable monthly in arrears, of up to 0.50% of the assets under custody plus a transaction charge with respect to its function as the Depositary of the Fund. The actual level of the fees and transaction charges payable for the custody services vary, depending on the different countries. In addition, for acting as Registrar, Transfer, Domiciliary, Administrative and Paying Agent to the Fund, State Street Bank International GmbH, Luxembourg Branch will be entitled to fees of up to 0.045% of the applicable Net Asset Value plus a transaction charge.

In addition State Street Bank International GmbH, Luxembourg Branch is entitled to pass on to the Fund fees charged by external price vendors where the cost of obtaining vendor prices is not contained within the standard State Street Bank International GmbH, Luxembourg Branch fund accounting fixed percentage fee.

6. DIRECTORS' FEES

Each of the Directors of the Fund is entitled to remuneration for their services at the rate determined by the Fund in general meeting from time to time. Those Directors of the Fund who are employees of Columbia Threadneedle Management Limited (parent of the Investment Managers) or any of its subsidiaries, waive their fees in carrying out their duties as Directors of the Fund. Directors' fees are paid to the remaining directors and allocated to the Portfolios based on average net assets. For the year to 30 September 2023, the Chairman Patrick Johns is entitled to a fee of EUR 27,000 per annum and directors Jacques Elvinger and Ailbhe Jennings are entitled to a fee of EUR 22,000 per annum. In addition, each Director may be paid reasonable expenses in connection with meetings of the Board or otherwise properly incurred in connection with the business of the Fund.

7. MANAGEMENT COMPANY FEE

The Fund pays to the Management Company an annual Management Company fee payable out of the assets of the Fund of up to a maximum of 0.02% of the net asset value (on a sliding scale dependant on the size of the Portfolio), with no minimum fee.

8. TAXATION

The Fund is not subject to taxation in Luxembourg on its income, profits or gains. However, the Fund is liable in Luxembourg to a subscription tax (*taxe d'abonnement*) of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the basis of the total net assets of the Fund at the end of the relevant quarter. The rate of the annual subscription tax is reduced to 0.01% per annum for the Portfolios which, in accordance with Article 174 of the Law, invest exclusively in money market instruments as defined in the Grand-Ducal Regulation of 14 April 2003 and in respect of classes of shares which are only sold to and held by Institutional Investors. No stamp duty or other tax will be payable in Luxembourg on the issue of Shares in the Fund.

Interest and dividend income received by the Fund may be subject to non-recoverable withholding tax in the source countries. The Fund may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin.

Distributions made by the Fund are not subject to withholding tax in Luxembourg.

The Fund is not subject to net wealth tax.

Dividend and interest income are recognised in the Combined Statement of Operations and Changes in Net Assets on a net basis.

Columbia Threadneedle (Lux) III
Notes to the Financial Statements (continued)
as at 30 September 2023

As from 1 April 2007, investment vehicles listed in article 44, 1, d) of the Luxembourg VAT law (SICAVs, SICAFs and management companies of FCPs) should be registered as taxable persons for VAT purposes. As taxable persons for VAT purposes these investment vehicles must comply with the standard obligations foreseen in the Luxembourg VAT law such as VAT registration, VAT compliance and payment of the VAT due on services subject to reverse charge.

Investors should be aware that a United Kingdom offshore funds regime was introduced applicable to United Kingdom investors into "offshore funds". The Board has obtained reporting fund status approval from HM Revenue & Customs for the classes of shares listed below.

*Refer to Appendix I.

The Directors intend to issue the annual investor report on or around 31 March each year via the [CT Website](#) (This information is unaudited).

9. RELATED PARTY TRANSACTIONS

For certain share classes, CTML may be entitled to a placing and/or introductory fee of not more than 5% of the subscription value of the Fund shares. Out of this fee, stockbrokers or other approved introducing agents may be paid a proportion.

Patrick Johns (Chairman) is a non-executive adviser to Columbia Threadneedle Investments.

Jacques Elvinger, a Director of the Fund, is a partner in the Luxembourg law firm Elvinger Hoss Prussen, société anonyme. Mr Elvinger has been an Avocat à la Cour, Luxembourg since 1984.

Columbia Threadneedle (Lux) III Notes to the Financial Statements (continued)

as at 30 September 2023

Ailbhe Jennings, a Director of the Fund, is non-executive adviser to Columbia Threadneedle Investments, a subsidiary of Columbia Threadneedle Management Limited.

Rogier van Harten, a Director of the Fund, is Head of Institutional Distribution for Continental Europe, Columbia Threadneedle Netherlands B.V., a subsidiary of Columbia Threadneedle Investments.

Tina Watts, a Director of the Fund, is EMEA Head of Fund Services & CASS, Columbia Threadneedle Investments.

The Fund has entered into an Agency Agreement for the lending of securities in return for a loan fee. During the year under review, State Street Bank International GmbH, London Branch earned EUR 13,900 as securities lending agent. The Investment Managers earned EUR 9,267 for monitoring and oversight of the securities lending program.

No marketing expenses or distribution fees were charged to the following Portfolios:

CT (Lux) Euro Bond

CT (Lux) Plus II*

* Refer to Appendix I.

Any costs incurred in relation to the distribution of these Portfolios/Share Classes (if any) will be borne by CTML.

CTML may pass on to the Fund certain approved expenses incurred in the marketing of the Fund. The maximum chargeable during any accounting period is 0.025% of the net asset value of the Fund as the respective Portfolio(s).

CTML may also charge a fee to the Fund to cover the costs incurred in the distribution of the Fund in the various jurisdictions in which it is registered. The amount to be charged during any accounting period may not exceed 0.05% of the net asset value of the Fund or the respective Portfolio(s).

No marketing expenses or distribution fee will be charged to the Hong Kong Share Classes of any Portfolio. Any costs incurred in relation to the distribution of the Hong Kong Share Classes (if any) will be borne by CTML.

CTML is entitled to an annual service fee of 0.015% of the equity and bond investments of the Portfolios making use of its Responsible Engagement Overlay services as described in the Prospectus. This service is not charged to the Hong Kong Share Classes for any Portfolio.

10. STATEMENT OF CHANGES IN INVESTMENTS

A list, specifying for each Portfolio the total purchases and sales which occurred during the year under review, may be obtained, upon request, at the registered office of the Fund and the Fund's Registrar/Administrative Agent, Depositary, or Paying Agent in the relevant jurisdiction.

11. PERFORMANCE FEE

No performance fees were charged to any of the Portfolios during the year.

12. SOFT COMMISSIONS ARRANGEMENTS AND OTHER SIMILAR ARRANGEMENTS

Since the implementation of MIFID II, in January 2018, all third party investment research consumed by investment teams in EMEA, were paid for directly by Columbia Threadneedle Investments. The use of Commission Sharing Agreements ceased at the end of December 2017 and since then, Client Portfolios have only incurred execution-related commission costs.

13. SECURITIES LENDING

The volume of the securities lending transactions will be kept at an appropriate level. The Fund will be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations. It will be ensured that securities lending transactions do not jeopardise the management of the Fund's assets in accordance with the investment policy.

The income earned from the securities lending program is reflected net of fees in the Statement of Operations and Changes in Net Assets.

State Street Bank International GmbH, London Branch as the securities lending agent receives a 15% fee for their services. The Investment Manager as the Fund's securities lending co-ordinator receives an administration fee of 10% to cover operational costs. There is no hidden revenue. As a result, the Fund receives 75% of the gross revenue generated from securities lending. It is the Investment Manager's policy to return all revenue to the Fund less direct and indirect operational costs.

Columbia Threadneedle (Lux) III Notes to the Financial Statements (continued)

as at 30 September 2023

The table below shows the market value of securities on loan as well as the market value of collateral held as at 30 September 2023. The collateral held at this date provided coverage of 104.00%.

Portfolio	Market Value of Securities on Loan in EUR	Market Value of Collateral held in EUR	Nature of Collateral held
CT (Lux) Diversified Growth	3,314,067	3,485,574	Government Bonds
CT (Lux) European Growth & Income	158,350	172,437	Government Bonds

CT (Lux) Sustainable Opportunities European Equity - Class A Shares - Euro	Euro	0.2723	0
CT (Lux) Sustainable Opportunities European Equity - Class ID Acc Shares - Euro	Euro	0.0000	64,550

Columbia Threadneedle (Lux) III Notes to the Financial Statements (continued)

as at 30 September 2023

During the year ended to 30 September 2023, dividends with an ex-dividend date of 20 January 2023 were paid out to shareholders on 31 January 2023 as follows:

Share class Name	Share class Currency	Dividend per Share	Amount of Dividends paid out to Shareholders
CT (Lux) Responsible Global Emerging Market Equity - Class A Shares - US\$	US\$	0.0347	171,106
CT (Lux) Responsible Global Equity - Class P Shares - GBP	GBP	0.0467	17,865
CT (Lux) Responsible Global Equity - Class R Shares - Euro	Euro	0.1004	505,315
CT (Lux) SDG Engagement Global Equity - Class R Shares - GBP	GBP	0.0314	94,143

During the year ended to 30 September 2023, dividends with an ex-dividend date of 27 June 2023 were paid out to shareholders on 29 June 2023 as follows:

Share class Name	Share class Currency	Dividend per Share	Amount of Dividends paid out to Shareholders
CT (Lux) Sustainable Multi-Asset Income - Class A Shares - Euro	Euro	12.0600	77,730
CT (Lux) Sustainable Multi-Asset Income - Class F Shares - Euro	Euro	0.1200	104
CT (Lux) Sustainable Multi-Asset Income - Class I Shares - Euro	Euro	13.7400	353
CT (Lux) Sustainable Multi-Asset Income - Class R Shares - Euro	Euro	0.1200	2,722

For all distributing classes of shares which have registered for United Kingdom Reporting Fund Status it is intended to distribute 100 percent of reportable income (computed in accordance with the definition of reportable income under the United Kingdom Offshore Funds (Tax) Regulations 2009 (as amended)) which accrues to the Portfolio or distributing class, however it should be noted that this cannot be guaranteed. It may be that the Directors consider in certain cases that the amounts available for distribution are so minimal that a distribution is not commercially viable. Where Share Classes have not been registered for UK Reporting Fund Status, the Directors will determine an alternative basis for determining the level of any dividend.

The Board may decide to make dividend payments to Shareholders once a year or more frequently provided that no payment will be made as a result of which the total net assets of the Fund would become less than the minimum required by Luxembourg law.

15. SWING PRICING

Under certain circumstances (for example, large volumes of deals), investment and/or disinvestment costs may have an adverse effect on the Shareholders' interests in a Portfolio. In order to prevent this effect, called "dilution", the Board may determine that a "swing pricing" methodology applies so as to allow for the Net Asset Value per Share to be adjusted upwards or downwards by dealing and other costs and fiscal charges which would be payable on the effective acquisition or disposal of assets in the relevant Portfolio if the net capital activity exceeds, as a consequence of the aggregate transactions in that Portfolio on a given Valuation Date (as defined in the Prospectus), a threshold (the "Threshold") set by the Board from time to time.

Description of the swing pricing methodology:

If the net capital activity on a given Valuation Date leads to a net inflow/outflow of assets in excess of the Threshold in the relevant Portfolio, the Net Asset Value used to process all subscriptions, redemptions or conversions in that Portfolio is adjusted upwards/downwards by the swing factor set by the Board from time to time.

The swing factor shall not exceed 2% of the Net Asset Value per Share of the relevant Portfolio. Further, for the purpose of calculating the expenses of a Portfolio which are based on the Net Asset Value of the relevant Portfolio (including any applicable performance fee), the Administrative Agent will continue to use the un-swing Net Asset Value.

The swing pricing mechanism was in place for all sub funds during the financial year.

16. TRANSACTION COSTS

For the year ended 30 September 2023, the following Sub-Funds of the Columbia Threadneedle (Lux) III incurred transaction costs related to purchases and sales of transferable securities as follows:

Portfolio	Portfolios Currency	Transaction Costs
CT (Lux) Diversified Growth	EUR	62,714
CT (Lux) Euro Bond	EUR	0
CT (Lux) European Growth & Income	EUR	18,802
CT (Lux) European Smaller Cap	EUR	4,008
CT (Lux) Global Absolute Return Bond	EUR	0

Columbia Threadneedle (Lux) III Notes to the Financial Statements (continued)

as at 30 September 2023

Portfolio	Portfolios Currency	Transaction Costs
CT (Lux) Global Convertible Bond	EUR	6
CT (Lux) Global Smaller Cap Equity	USD	1,363
CT (Lux) Global Total Return Bond	EUR	0
CT (Lux) Plus II	EUR	14,868
CT (Lux) Responsible Euro Corporate Bond	EUR	0
CT (Lux) Responsible Global Emerging Markets Equity	USD	626,453
CT (Lux) Responsible Global Equity	EUR	529,680
CT (Lux) SDG Engagement Global Equity	USD	638,331
CT (Lux) Sustainable Global Equity Enhanced Income *	USD	483,217
CT (Lux) Sustainable Multi-Asset Income	EUR	27,102
CT (Lux) Sustainable Opportunities European Equity	EUR	5,249
CT (Lux) US Smaller Companies	USD	11,032

* Refer to Appendix I.

These transaction costs are corresponding to broker fees and are included in the caption "Investments at cost" in the Statement of Net Assets of the report, and respectively in the captions "Net realised gain / (loss) on sales of investments" and "Net change in net unrealised appreciation / (depreciation) on investments" in the Statement of Operations and Changes in Net Assets.

17. SIGNIFICANT EVENT

Impact of Russia-Ukraine Conflict

The events which rose in Ukraine at the beginning of 2022 are still ongoing and have impacted securities related to companies domiciled in, or linked to, Russia and/or listed on exchanges located in Russia, including the Moscow Exchange ('Russian Securities').

CT (Lux) Responsible Global Emerging Markets Equity holds one investment, Moscow Exchange MICEX-RTS PJSC, with exposure to Russia. This security accounted for 0.63% of CT (Lux) Responsible Global Emerging Markets Equity prior to being written down to Nil in March 2022. This security continues to be valued at Nil as at 30 September 2023.

Sectoral financial and investment restrictions are in place in the Russia sanctions regime which restrict specified activities. These include restrictions on dealing with transferable securities or money-market instruments. The Directors have appointed State Street as Administrator to monitor the sanctions activity globally to ensure the portfolios are in adherence. The Administrator continues to monitor the investor base with respect to sanctions. If any sanctioned investors are identified, the Administrator will inform the Directors, the Company's MLRO, the Manager, and the Investment Manager and will remediate following appropriate policies and procedures.

18. SUBSEQUENT EVENTS

There are no planned subsequent events.

19. NOTICE TO INVESTORS

The SFDR disclosures are available in the appendix to the financial statements.

20. APPROVAL OF THE FINANCIAL STATEMENTS

The Board approved the financial statements on 22 January 2024.

21. REISSUANCE OF THE FINANCIAL STATEMENTS

On 30 January 2024, the Board of Directors approved the reissuance of the financial statements for the year ended 30 September 2023 in order to include the SFDR Periodic Disclosure for the sub-fund CT (Lux) Sustainable Opportunities European Equity Fund in Appendix II - SFDR Periodic Disclosure (unaudited) on pages 173-247 of this report. This new set of financial statements replaces those previously approved by Board of Directors on 22 January 2022.

Columbia Threadneedle (Lux) III

Additional Notes (Unaudited Sections)

as at 30 September 2023

1. SOCIALLY RESPONSIBLE INVESTMENT

CTML is convinced that investors increasingly care about environmental, social and corporate governance (ESG) issues and that these may have a material impact on the companies in which we invest. Therefore the Fund has appointed CTML to engage with companies held by the portfolios in order to improve the ESG performance and safeguard investor value. The Responsible Engagement Overlay service, known as reo®, aims to encourage companies to behave more responsibly with regard to social, environmental and corporate issues, in ways that are consistent with shareholder values. The objective of reo® is to encourage investee companies to enhance their business performance by adopting better corporate governance, social and environmental practices. reo® does not entail taking a view of acceptability of what investee companies do nor does it lead to exercising a significant influence over the management of such companies. reo® is about using CTML ability, as manager of the Fund's equity and bond Portfolios, to encourage investee companies, through a constructive dialogue, to behave more responsibly with regard to corporate governance, social and environmental practices. In CTML's view, reo® may contribute towards business success and therefore increase the value of the investee companies' shares and consequently the value of the Fund's investments. More information on reo® and the specific companies engaged via the reo® service is available on www.columbiathreadneedle.com.

RISK MANAGEMENT

Global exposure calculation method

The commitment approach

The following Portfolios use the commitment approach in order to monitor and measure their global exposure:

CT (Lux) European Growth & Income
 CT (Lux) European Smaller Companies
 CT (Lux) Global Convertible Bond
 CT (Lux) Global Smaller Companies Equity
 CT (Lux) Responsible Euro Corporate Bond
 CT (Lux) Responsible Global Emerging Markets Equity
 CT (Lux) Responsible Global Equity
 CT (Lux) SDG Engagement Global Equity
 CT (Lux) Sustainable Opportunities European Equity
 CT (Lux) US Smaller Companies

The VaR approach

The following portfolios use an Absolute Value-at-Risk ("VaR") approach in order to monitor and measure their global exposure:

CT (Lux) Diversified Growth
 CT (Lux) Global Absolute Return Bond
 CT (Lux) Global Total Return Bond
 CT (Lux) Sustainable Multi-Asset Income

The VaR figures have been calculated based on the following input data and confidence interval:

Confidence interval	99%
Analysis time horizon	One month (20 days)
Time series extension	1 Year
Methodology	Absolute VaR
VaR method	Historical Simulation
CSSF Limit	20%

The utilisation of the VaR from 01 October 2022 to 30 September 2023 was as follows:

CT (Lux) Diversified Growth	VaR Amounts	Utilisation of the VaR Limit
Minimum	3.02%	15.12%
Maximum	8.48%	42.40%
Average	4.60%	22.99%

The average leverage used, computed with sum of notionals, was 117.63%.

CT (Lux) Global Absolute Return Bond	VaR Amounts	Utilisation of the VaR Limit
Minimum	0.95%	4.74%
Maximum	5.09%	25.45%
Average	2.81%	14.03%

The average leverage used, computed with sum of notionals, was 288.93%.

CT (Lux) Global Total Return Bond	VaR Amounts	Utilisation of the VaR Limit
Minimum	1.04%	5.20%
Maximum	5.89%	29.45%
Average	3.33%	16.66%

The average leverage used, computed with sum of notionals, was 310.72%.

**Columbia Threadneedle (Lux) III
Risk Management, Remuneration and PEA Eligible Assets (unaudited)
(continued)**

CT (Lux) Sustainable Multi-Asset Income	VaR Amounts	Utilisation of the VaR Limit
Minimum	3.08%	15.40%
Maximum	5.13%	25.65%
Average	4.44%	22.22%

The average leverage used, computed with sum of notionals, was 89.08%.

Columbia Threadneedle (Lux) III Risk Management, Remuneration and PEA Eligible Assets (unaudited) (continued)

The following portfolio use a Relative Value-at-Risk ("VaR") approach in order to monitor and measure their global exposure:

CT (Lux) Euro Bond

CT (Lux) Sustainable Global Equity Enhanced Income

The VaR figures have been calculated based on the following input data and confidence interval:

Confidence interval	99%
Analysis time horizon	One month (20 days)
Time series extension	1 Year
Methodology	Relative VaR
VaR method	Historical Simulation
CSSF Limit	200%

The utilisation of the VaR from 01 October 2022 to 30 September 2023 was as follows:

CT (Lux) Euro Bond	VaR Amounts	Utilisation of the VaR Limit
Minimum	62.65%	31.32%
Maximum	100.57%	50.28%
Average	86.57%	43.29%

The average leverage used, computed with sum of notionals, was 22.26%

CT (Lux) Sustainable Global Equity Enhanced Income	VaR Amounts	Utilisation of the VaR Limit
Minimum	99.72%	49.86%
Maximum	155.92%	77.96%
Average	138.74%	69.37%

The average leverage used, computed with sum of notionals, was 20.80%.

Columbia Threadneedle (Lux) III Remuneration (unaudited)

REMUNERATION POLICY

Came Global Fund Managers (Luxembourg) S.A.

The Management Company has designed and implemented a remuneration policy (the "Remuneration Policy") in line with the provisions on remuneration as set out by the European Directive 2009/65/EC ("UCITS Directive"), as amended by Directive 2014/91/EU ("UCITS V Directive") as implemented into Luxembourg in the Law of 10 May 2016 (the "2016 Law").

The Management Company has developed and implemented remuneration policies and practices that are consistent with and promote sound and effective risk management of the Fund, do not encourage risk-taking which is inconsistent with the risk profiles/rules governing the Fund, and do not impair compliance with the Management Company's duty to act in the best interest of the Fund and ultimately its investors.

The Board of Directors of the Management Company is responsible for the design, implementation and regular review of the Remuneration Policy. In reviewing the Remuneration Policy, the Board of Directors of the Management Company will consider whether the remuneration framework operates as intended and ensure that the risk profile, long-term objectives and goals of the Fund are adequately reflected. No material amendments were made to the Remuneration Policy and no irregularities were uncovered during the period under review. The current version of the Remuneration Policy is available on the Management Company's website.

Proportion of the total remuneration of the staff of the UCITS attributable to COLUMBIA THREADNEEDLE (LUX) III as of December 31, 2022¹.

The proportion of the total remuneration attributable to Columbia Threadneedle (Lux) III has been calculated on a pro rata basis of assets under management and on the basis of the number of funds managed by the Management Company.

CT Group Company	Number of beneficiaries	Total remuneration (EUR) ²	Fixed remuneration (EUR)	Variable remuneration (EUR)
Total remuneration paid to Identified Staff ³ by the Management Company during the financial year	26	4,219,616	104,523	49,493

¹31 December is the financial year end of the Management Company

²Total remuneration = sum of fixed remuneration and variable remuneration paid to identified staff of the Management Company during the Management Company's financial year

³Identified Staff comprises = Chief Business Development Officer, Senior Business Development Officer, Person responsible for the Permanent Risk Function, Came's Responsable du Contrôle, Conducting Officers of the Company, Head of Legal, Directors of the Company, members of the Investment Committee and members of the Valuation Committee.

The Chief Executive Officer and Country Head of Luxembourg and the Head of Compliance are also Conducting Officers and are therefore captured in footnote 3 under the Conducting Officers.

CT Group (below note refers to CT Group only)

In accordance with the UCITS V Directive, the Investment Managers to the Fund have adopted a remuneration policy which is consistent with the remuneration principles applicable to UCITS management companies and aligned with the Columbia Threadneedle Investments (EMEA) Remuneration Policy. The size of the CT Group (the "Group") and the size of the funds it manages, the internal organisation and the nature, the scope and the complexity of their activities have been taken into consideration in this disclosure.

Report on Remuneration

This section of the annual report has been prepared in accordance with Article 14a(4) of Directive 2009/65/EC, as amended by Directive 2014/91/EU ("UCITS V Directive") and the Financial Conduct Authority's Handbook (SYSC 19E: UCITS Remuneration Code).

In accordance with the UCITS V Directive, the Investment Managers has adopted a remuneration policy which is consistent with the remuneration principles applicable to UCITS management companies and aligned with the Columbia Threadneedle Asset Management (EMEA) Remuneration Policy. The size of the CT Group (the 'Group') and the size of the funds it manages, the internal organisation and the nature, the scope and the complexity of their activities have been taken into consideration in this disclosure.

Remuneration policy

The purpose of the Group's remuneration policy is to describe the remuneration principles and practices within the Group and for such principles and practices:

- (a) to be consistent with, and promote, sound and effective risk management;
- (b) to be in line with the business strategy, objectives, values and interests of the Group;
- (c) not to encourage excessive risk-taking as compared to the investment policy of the relevant sub-funds of the Group;

Columbia Threadneedle (Lux) III Remuneration (unaudited) (continued)

(d) to provide a framework for remuneration to attract, motivate and retain staff (including directors) to which the policy applies in order to achieve the objectives of the Group; and

(e) to ensure that any relevant conflicts of interest can be managed appropriately at all times.

Decision making and governance

The board of directors (the Group's Board) is responsible for the remuneration policy of the Group and for determining the remuneration of the directors of the Group and other staff who undertake professional activities for the Group. The Group's Board has delegated to the Risk and Remuneration Committee (the "Committee") of Columbia Threadneedle Investments (formerly BMO Asset Management (Holdings) plc) responsibility for maintaining a compliant remuneration policy. The Committee solely comprises non-executive directors of Columbia Threadneedle Investments. The Group's Board has adopted the remuneration policy applicable to all members of the Group ("Columbia Threadneedle Investments (EMEA)") for this financial year as reviewed and approved by the Committee periodically (at least annually). The Committee is responsible for, and oversees, the implementation of the remuneration policy in line with the UCITS Regulations. The Group's Board considers that the members of the Committee have appropriate expertise in risk management and remuneration to perform this review.

Applicability

The remuneration policy, which incorporates compliance with UCITS V requirements, applies to staff whose professional activities have a material impact on the risk profile of the Group or of the funds it manages ("Identified Staff") and so covers:

- a) senior management;
- b) risk takers;
- c) control functions; and
- d) employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the Company.

The Identified Staff list and the selection criteria above are subject to regular review (at least annually) by the Committee as well as formally reviewed in the event of significant organisation changes and changes in remuneration regulations the Group is subject to.

Linking remuneration with performance

The Company's remuneration policy is part of the Columbia Threadneedle Investments (EMEA) framework for promoting sound remuneration management, with the objective of providing total compensation to its employees that is warranted by corporate, business unit/function and individual performance and is comparable to market competitors, whilst being consistent with and promoting sound and effective risk management and the achievement of fair outcomes for all customers. Its purpose is to facilitate achievement of the business objectives and corporate values of the Company, with the primary focus on clients, whilst ensuring that Columbia Threadneedle Investments (EMEA) is able to attract, retain and motivate the key talent required to achieve these business objectives and corporate values without incentivising excessive or inappropriate risk.

When setting remuneration levels, the following components and principles form part of the remuneration management framework:

- Fixed remuneration is determined taking into account factors including the requirements of the particular role and the staff member's experience, expertise, contribution level and the fixed pay for comparable roles. Fixed remuneration is set, with reference to market data, at a level that is sufficient to attract high calibre staff as well as to permit the operation of a fully-flexible remuneration policy (including the possibility of a staff member receiving reduced or no variable remuneration in a particular year). The Committee keeps the balance between fixed and variable remuneration under review.
- Variable remuneration is determined annually by reference to both financial and non-financial company performance considerations. External competitor practices are included in the funding review to ensure compensation opportunities in the markets within which the Group operates are given due consideration and retention risks are effectively managed. Incentive funding is developed in view of current and projected economics and risks, supported by Columbia Threadneedle Investments (EMEA) Audit and Compliance Committee inputs, ensuring risk-adjustments and qualitative and quantitative considerations, such as the cost and quantity of capital and liquidity are actively considered as funding adjustments. The Committee ensures that all incentive awards are not paid through vehicles or methods that facilitate the avoidance of the requirements with regard to remuneration imposed by applicable law and/or regulations.
- Variable remuneration is allocated to respective business functions by reference to:
 - contribution of the respective business function or unit to corporate performance;
 - business function performance relative to pre-determined targets and objectives, including adherence to risk management obligations; and
 - competitive market pay data.

Individual award allocations are referenced to the individual achievement during the performance year relative to pre-agreed objectives and assessment of market comparability. Performance is assessed in relation to pre-agreed objectives, which include financial and non-financial goals (including the achievement of fair customer outcomes), compliance with the CT Group's policies and procedures, adherence to risk management and compliance requirements and the CT Code of Conduct. The assessment of performance for Identified Staff reflects multi-year performance in a manner appropriate to the life-cycle of the funds that are managed by the Group.

Columbia Threadneedle (Lux) III Remuneration (unaudited) (continued)

- Application of Financial Conduct Authority's Handbook (SYSC 19E: UCITS Remuneration Code) pay-out process rules, save for disapplication at individual or Group level, which is determined by an annual proportionality assessment.

Quantitative remuneration disclosure

The total remuneration paid by Columbia Threadneedle Management Limited to its staff is zero, as all UCITS staff are employed by other companies in Columbia Threadneedle Investments (EMEA).

The table below provides an overview of aggregate total remuneration paid to UCITS Identified Staff in respect of the proportion of their pay aligned to their UCITS responsibilities. It is not possible to apportion remuneration by individual Identified Staff working a specific UCITS fund, therefore figures are provided in aggregate on a UCITS management company basis.

Columbia Threadneedle Fund Management Limited	Headcount	Fixed Remuneration (£m)	Variable Remuneration (£m)	Total Remuneration (£m)
Remuneration of UCITS Identified Staff of which:	35	0.49	1.15	1.64
Senior Management	12	0.17	0.37	0.54
Other Code Staff	23	0.32	0.78	1.10

Notes on the quantitative remuneration disclosure

Total remuneration reported is the sum of salary, cash bonus, any deferred annual bonus, value of any long-term incentive awards granted in respect of performance in the reportable financial year, plus the value of any applicable cash allowances.

"Senior Management" are defined in this table as the UCITS Directors, Executive and Non-Executive Directors and Group Management Team members of Columbia Threadneedle Investments. "Other Code Staff" includes all other identified Code staff in business areas, internal control functions and corporate functions.

The Identified Staff disclosure represents total compensation of those staff who are fully or partly involved in the activities of the UCITS funds, apportioned to the estimated time relevant to the UCITS or to the amount attributable to the UCITS allocated on an AUM basis.

Columbia Threadneedle (Lux) III Portfolio Turnover Ratio (unaudited)

The Portfolio Turnover Ratio have been calculated for the year ended 30 September 2023 based on the following formula:

$$\text{PTR} = \frac{(\text{Total purchases} + \text{Total sales}) - (\text{Total subscriptions} + \text{Total redemptions})}{\text{Average net assets of the Portfolio}} \times 100$$

Portfolio	Portfolio Currency	Total Net Assets, average during the year	Portfolio Turnover Ratio as of 30 September 2023 (annualised) %
CT (Lux) Diversified Growth	Euro	106,929,117	126.59%
CT (Lux) Euro Bond	Euro	150,424,234	171.08%
CT (Lux) European Growth & Income	Euro	36,847,190	33.79%
CT (Lux) European Smaller Cap	Euro	7,793,929	40.62%
CT (Lux) Global Absolute Return Bond	Euro	156,904,259	4.07%

Additional Information:

Investors in Switzerland can obtain the documents of the Fund, such as the Prospectus, the KIIDS, the Articles of Incorporation and the semi-annual and annual reports, the list of purchases and sales during the accounting period, and further information free of charge from the Swiss representative.

The Total Expense Ratio and Portfolio Turnover Ratio have been calculated in accordance with Swiss Funds & Asset Management Association's guidelines 16 May 2008.

Columbia Threadneedle (Lux) III Performance Data (unaudited)

The performance data is calculated based on the movement of the net asset value per share during the period. Performance figures shown in the Investment Managers reports are based on total return figures, inclusive of distributions, and may differ from the below.

Columbia Threadneedle (Lux) III Securities Financing Transactions (unaudited)

Global data

The following table details the market value of securities lent as a proportion of the relevant Portfolio's total lendable assets and Net Assets, and the value of Total Return Swaps ("TRS") as a proportion of the Portfolio's Net Assets, as at 30 September 2023. Total lendable assets represents the total market value of the securities portfolio excluding derivatives as at the reporting date. The value of TRS is based on the Unrealised Gain/(Loss) on an absolute basis.

Portfolio	Portfolio currency	Securities lent			TRS	
		Market value of securities lent	% of lendable assets	% of Net Assets	Unrealised profit/loss	% of Net Assets
CT (Lux) Diversified Growth	EUR	3,314,067	3.23%	3.09%	1,123,970	1.05%
CT (Lux) European Growth & Income	EUR	158,350	0.43%	0.43%	-	-

The above maturity tenor analysis has been based on the contractual maturity date of the securities lent, and of the relevant TRS transaction.

Columbia Threadneedle (Lux) III Securities Financing Transactions (unaudited) (continued)

The following table provides an analysis of the non cash collateral received for the securities lending transactions and OTC by clearing mechanism indicating as well the triparty agent and the bilateral, as at 30 September 2023:

	Security lent non cash collateral received	OTC non cash collateral received
Triparty		
JP Morgan Chase Bank	2,461,547	-
Bank of New York	11,998,515	-
Total	14,460,062	-
bilateral	940,647	2,158,440

Data on reuse of collateral

As at 30 September 2023, none of the cash collateral received in respect of OTC derivative transactions (including TRS) was re-invested. In respect of securities lending transactions, the Fund does not accept cash collateral in the securities lending program.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC derivative transactions, cannot be sold, re-invested or pledged.

Safekeeping of collateral

The following table provides an analysis of the amounts of non-cash collateral received by the Portfolios in respect of securities lending transactions and OTC derivatives transactions (including TRS) and held by the Funds' Depository (or through its delegates) or through a third party Depository, as at 30 September 2023:

Total	USD	6,051,888	-

Data on return and cost

For the securities lending transactions the breakdown of return and cost by portfolio is disclosed in the Notes. Please refer to the note "Securities lending".

All returns from OTC derivative transactions (including TRS) will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

For TRS transactions costs are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio. Returns are identified as the realised gains and change in unrealised appreciations on swaps contract during the reporting period.

Appendix II - SFDR Periodic Disclosure (unaudited)

Portfolios under Art.6

The following Portfolios are considered not to fall within the scope of either Article 8 or Article 9 of SFDR. The investments underlying these Portfolios do not take into account the EU criteria for environmentally sustainable economic activities:

- CT (Lux) Diversified Growth
- CT (Lux) Euro Bond
- CT (Lux) European Growth & Income
- CT (Lux) European Smaller Cap
- CT (Lux) Global Absolute Return Bond
- CT (Lux) Global Convertible Bond
- CT (Lux) Global Smaller Cap Equity
- CT (Lux) Global Total Return Bond
- CT (Lux) US Smaller Companies

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Responsible Euro Corporate Bond Legal entity identifier: 2138007PU8621E722925

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: ___%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 83.06% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The overarching philosophy of the Portfolio is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices
- Additionally invest in companies that make a positive contribution to society and/or the environment
- Improve management of ESG issues, using the Investment Manager's influence as an investor to encourage best practice through engagement.

The fund, while it does not have a sustainable objective, aims to hold a minimum of 25% of the fund in sustainable investments. As at 30/09/2023 the fund held 83.06% in sustainable investments.

Over the period, screens were applied to all fund assets other than Cash, Forward FX, Exchange Traded Futures, OTC Derivatives with the result that companies who fail to meet minimum environmental, or social standards were excluded from the fund. In 2022 one company was re-rated from Acceptable to Unacceptable under the IM's screening criteria and consequently sold from the Portfolio. Holcim Ltd was re-rated as "Unacceptable" on 02/12/2022 because the IM concluded that it breaches the Responsible Funds conduct based criteria.

The fund invests in companies providing sustainability solutions and/or companies making a positive contribution to society and/or the environment. This investment is primarily achieved through investment in green, sustainable or sustainability-linked bonds issued by companies (so called "Labelled bonds"). All Labelled bonds must be individually assessed by the Investment Manager's Responsible Investment team, which considers the impact to society and/or the environment or the materiality of the sustainability target before they are approved for investment. Over the period, the fund increased the percentage it holds in Labelled bonds from 35% of NAV to 40% of NAV.

The fund continued to engage with investee companies over the period. A breakdown of engagement activity is presented as a sustainability indicator below.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● *How did the sustainability indicators perform?*

The Investment Manager uses the following indicators to measure the attainment of the environmental and social characteristics promoted by the Portfolio:

1. The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms

The fund did not invest in bonds which breached its standards. Pre-investment each holding was screened by the Responsible Investment team and approved for purchase with ongoing monitoring.

2. Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs)

As at 30/09/2023, 83.06% of the portfolio was invested in companies with greater than 50% of net revenues positively aligned with the Sustainable Development Goals.

3. The percentage of the Portfolio which constitutes labelled bonds, including Sustainability-Linked Bonds and Green Bonds. As at 30/09/2023, 39.74% of the portfolio was invested in labelled bonds.
4. The number of environmental- and social-linked engagement objectives and/or milestones that are achieved

During the year 70 engagements were undertaken with 31 companies. This resulted in 16 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with our engagement objective(s).

● *...and compared to previous periods*

Indicator	2023	2022
The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms	0	0
Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs) ¹	83.06%	48.51%
The percentage of the Portfolio which constitutes labelled bonds, including Sustainability-Linked Bonds and Green Bonds	39.74%	35.27%
The number of environmental- and social-linked engagement objectives and/or milestones achieved	16	16
Number of Engagements	70	144
Number of Companies Engaged	31	53
Number of Countries covered by engagement	8	11
Number of Milestones	16	16

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

As at 30/09/2023 83.06% of the portfolio was in bond's issued by companies which generate greater than net 50% of their revenue positively aligned to the Sustainable Development Goals.

Of this the fund had 39.74% of holdings invested in labelled bonds that substantially contributes to sustainable objectives. The Investment Manager require the proceeds to be used in key environmental project categories such as:

1. Renewable energy and transmission
2. Alternative fuels
3. Energy efficiency
4. Clean transport
5. Biodiversity conservation
6. Sustainable waste management

7. Water
8. Green buildings
9. Sustainable land use (forestry and agriculture)

The bond should also comply with IMCA's Green Bond Principles (GBP), Social Bond Principles (SBP), Sustainability Bond Guidelines (SBG) or Sustainability-Linked Bond Principles.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in the following ways:

- The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. These criteria are product- and conduct-based, covering topics such as fossil fuels and weapons, and United Nations Global Compact breaches.
- Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist but are not considered significantly harmful.
- For labelled bonds, each bond is reviewed and approved by the responsible investment team to ensure it does not significantly harm sustainability objectives such as with respect to governance or principal adverse impacts.

The Investment Manager exclude labelled bonds with:

- Very poor overall ESG management that presents a serious risk to the integrity of the Portfolio
- Severe environmental or financial management issues that undermine our confidence in the issuer's ability to fulfil its Green Bond commitments (e.g. major controversies related to the management of environmental projects such as renewables; major controversies in environmental lending means the Investment Manager is not confident in their green projects abilities).

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence. The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS).

Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

data is not available, the investment teams endeavour to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement. Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action

During 2023 the investment team reviewed all portfolio holdings against the model and discussed the outcomes with the responsible investment team. It was agreed that no significant adverse impacts were identified for the fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes, all holdings were aligned. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines to identify any significant harmful practices.

(Include a statement for the financial products referred to in Article 6, first paragraph, of Regulation (EU) 2020/852)

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered PAIs in several ways:

- 1) Through alignment with the fund exclusion policy and screening criteria which relate to the PAIs, including: fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons. The fund adhered to this exclusion policy during the period under review.
- 2) Utilising the PAI framework to review issuers against PAIs. This allows us to monitor harmful practices which may arise. No instances of significant harmful practices were identified for the positions held in the portfolio.

- 3) PAIs align with stewardship activities undertaken by the fund. For example more than a quarter of engagements related to climate change during the year. Details of PAI engagement are detailed later in this report.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

The fund held 83.06% of sustainability-related investments

What was the asset allocation?

In which economic sectors were the investments made?

Sector	% of net assets
Financials	46.1%
Utilities	10.2%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Consumer Discretionary	7.9%
Consumer Staples	6.1%
Real Estate	6.0%
Communication Services	6.0%

Information Technology	2.1%
Cash	2.0%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sustainable investments with an environmental objective made by the fund do not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has made available to date, the fund is reporting 2.79% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy²?

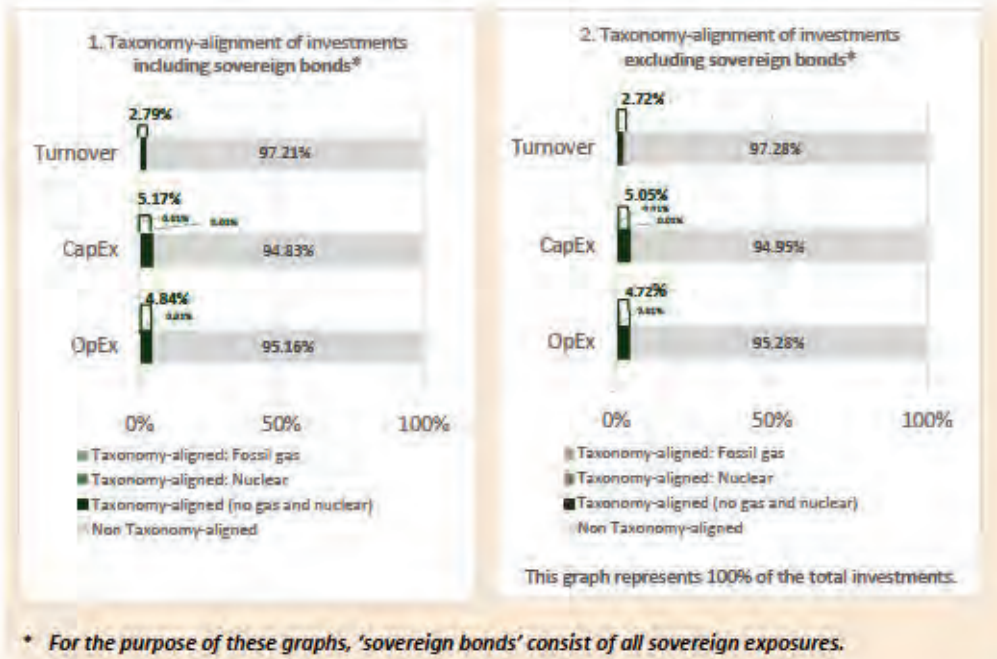

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds², the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of investments made in transitional and enabling activities?

Enabling Activities were at 2.27% whilst transitional Activities were at 0.08%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The fund had not previously reported the alignment of its investments with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation. Based on reliable data that has made available to date, the fund is reporting 2.79% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

39.26% of the portfolio was invested in sustainable investments which predominantly contribute to an environmental objective. These holdings have not been assessed for taxonomy alignment.

What was the share of socially sustainable investments?

41.01% of the portfolio was invested in sustainable investments which predominantly contribute to a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

“Other” investments include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and social characteristics of the Portfolio.

Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 70 engagements with companies held in the portfolio. These covered 31 companies across 8 countries across a range of themes.

Climate change has been identified as a systemic risk affecting issuers, and in 2021 the Investment Grade Fundamental Credit Analyst team proactively engaged with over 50 banks to understand their climate strategy and climate risk management approach. They then followed up with a series of meetings which were designed to establish progress on 1) Targets 2) Measurement 3) Reporting and 4) Underwriting. They took the information gathered from the banks responses and from their meetings, and conducted bottom-up analysis on climate disclosure within the sector. As a result of this analysis, they ranked their names 1-10 based on climate risk.

For banks, their fundamental rankings related almost exclusively to governance and culture. They compared their fundamental ranks to their climate scores above to evaluate what changes needed to be made. As a result, they made changes to 14 issuers fundamental ranking, moving issuers between three and five ranks.

In continuation of this work, in 2023 they engaged with 47 banks to assess their alignment with a net zero future. They worked with the RI team to formulate questions aimed at 9 areas of assessment; interim targets, financed emissions performance, disclosure, operational preparedness, incorporating climate into the financing decision, residential mortgage lending, preparedness for regulatory change, governance and opportunities. They assigned 1-10 scores in each of the 9 areas and made an overall assessment if the bank is aligned, aligning, committed or not aligned. They incorporated the new information and net zero alignment status into their overall fundamental view and adjusted their fundamental ranking, ratings and thesis statements.

Engagements are structured in line with the firm’s engagement themes which align with the PAIs. Below is provided a breakdown of the engagements undertaken and which PAI categories these typically address. The Investment Manager is updating the engagement tracking approach and reporting to enable PAI reporting at indicator level. It is noted that an engagement may correlate with a number of PAI indicators.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Engagements by Theme	Alignment with PAIs ³	Proportion of engagements	Milestones Achieved by Theme
Climate Change	GHG Emissions and Energy Performance	27.50%	50.00%
Environmental Stewardship	Biodiversity, Water, Waste	11.67%	0.00%
Business Conduct	Social and Employee Matters	0.83%	0.00%
Human Rights		11.67%	6.25%
Labour Standards		21.67%	12.50%
Public Health		9.17%	6.25%
Corporate Governance		17.50%	25.00%

How did this financial product perform compared to the reference benchmark?

The fund does not use a reference benchmark to measure whether it attains the environmental or social characteristics that it promotes.

- *How does the reference benchmark differ from a broad market index?*
Not applicable
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*
Not applicable
- *How did this financial product perform compared with the reference benchmark?*
Not applicable
- *How did this financial product perform compared with the broad market index?*
Not applicable

³ Note that themes may align with multiple PAIs.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Responsible Global Emerging Markets Equity

Legal entity Identifier: 213800BICB11V5TYV92Z

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: ___%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 76.99% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The overarching philosophy of the Portfolio is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices
- Invest in companies that make a positive contribution to society and/or the environment
- Improve management of ESG issues, using the Investment Manager's influence as an

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

investor to encourage best practice through engagement and voting

The fund, while it does not have a sustainable objective, aims to hold a minimum of 67.5% of companies as sustainable investments. As at 30/09/2023 the fund held 76.99% classified as sustainable investments.

How did the sustainability indicators perform?

The Investment Manager uses the following indicators to measure the attainment of the environmental and social characteristics promoted by the Portfolio:

1. *The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms.*

Pre-investment each holding was screened by the Responsible Investment team and approved for purchase with ongoing monitoring. In addition holdings were monitored to ensure they continue to adhere to the fund requirements. One holding, Tencent, was divested as it no longer adhered to the fund exclusion requirements.

2. *The percentage of the Portfolio which aligns to its key sustainability themes*

Theme:	Portfolio Weight as at 30/09/23:
Food and nutrition	13.56%
Health and well-being	24.86%
Responsible finance	20.33%
Sustainable infrastructure	6.77%
Technological innovation	33.89%
Total:	99.42%

3. *Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs)*

76.99% of the portfolio as at 30/09/2023 was invested in companies with greater than 50% of net revenues positively aligned with the Sustainable Development Goals.

4. *The number of environmental- and social-linked engagement objectives and/or milestones achieved*

During the year 55 engagements were undertaken with 20 companies. This resulted in 7 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager's engagement objective.

...and compared to previous periods

Indicator	2023	2022
The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms	1	0
The percentage of the Portfolio which aligns to its key sustainability themes	99.42%	97.24%
Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs) ¹	76.99%	77.03%
The number of environmental- and social-linked engagement objectives and/or milestones achieved	7	12
Number of Engagements	55	58
Number of Companies Engaged	20	20
Number of Countries covered by engagement	11	11

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives

As at 30/09/2023, the fund had 76.99% of holdings invested in companies which align to the Sustainable Development Goals, and are considered sustainable investments.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, most notably:

1. Health and well-being – Supporting the provision of services to improve personal long-term well-being, e.g. education, health and sanitation
2. Food and nutrition – Helping advance sustainable production and consumption patterns
3. Technological innovation – Delivering technological and connectivity solutions to advance sustainable development
4. Energy transition – Fueling the economy with efficient and affordable energy from both conventional and alternative sources
5. Sustainable infrastructure – Helping build resilient infrastructure in transport, energy, water, communications and other sectors

¹ Measured as holdings where revenue is greater than 50% net positively aligned to the SDGs

6. Responsible finance – Providing financial services to advance financial inclusion, small and medium-sized enterprise (SME) development, green finance and sustainable financial markets

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in the following ways:

- The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. These criteria are product- and conduct-based, covering topics such as fossil fuels and weapons, and United Nations Global Compact breaches.
- Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist but are not considered significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence.

The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS)². Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the investment teams endeavor to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement.

Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action

During 2023 the investment team reviewed all portfolio holdings classified as sustainable against the model and discussed the outcomes with the Responsible

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

² The Regulatory Technical Standards set out three tables detailing principal adverse indicators which have been defined by the European Commission. The tables cover a range of harmful activities across environmental, social and governance areas.

Investment team. It was agreed that no significant adverse impacts were identified for the fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines to identify any significant harmful practices. No breaches were identified during the reported period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered PAIs in three ways:

- 1) Through alignment with the fund’s exclusion policy and screening criteria which relate to the PAIs, including: fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons.
- 2) Utilising the PAI framework to review issuers against PAIs as per Table 1 in the RTS. This allows the Investment Manager to monitor harmful practices which may arise. No instances of significant harmful practices were identified for the positions held in the portfolio.
- 3) PAIs align with stewardship activities undertaken by the fund.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at 01 October 2022 to 30 September 2023

Cash and Derivatives	0.58

³ Due to rounding reported figures may appear not sum to 100%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sustainable investments with an environmental objective made by the fund do not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁴?

Yes:

In fossil gas

In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

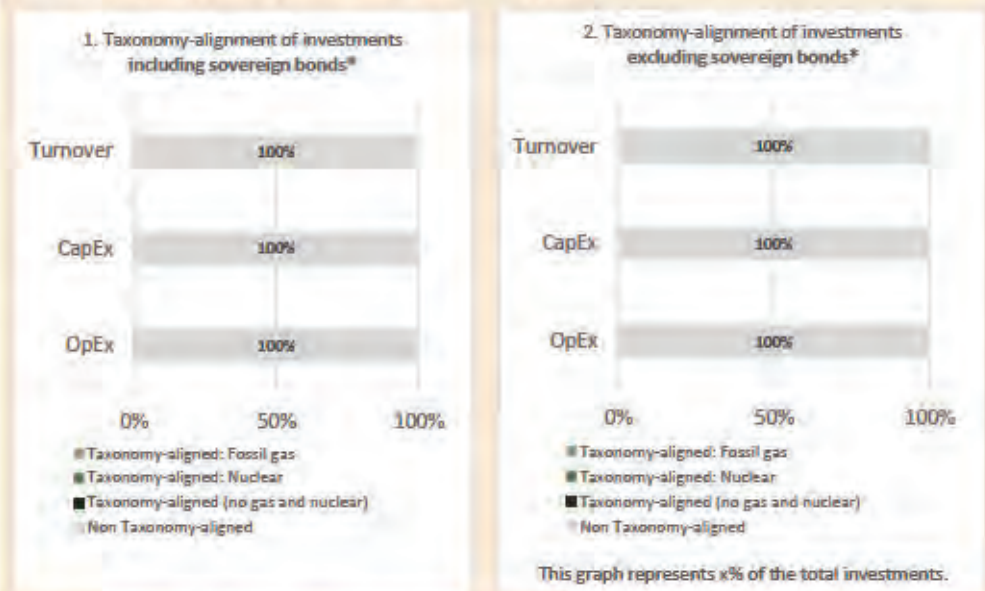

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

⁴ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The fund has not reported there being any alignment of its investments with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation to date.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

2.12% of the portfolio was invested in sustainable investments which predominantly contribute to an environmental objective not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments? [

74.87% of the portfolio was invested in sustainable investments which predominantly contribute to a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

This category includes ancillary liquid assets, money market instruments, money market funds and eligible deposits as well as hedging assets used for treasury management, defensive or hedging purposes. Derivatives are permitted within the Portfolio in order to assist with efficient management of overall asset class positions such as mitigating interest rate fluctuations, hedging against price falls in equity markets, or managing currency exposure.

Currency exposure may arise from unhedged equity positions or a currency strategy and are limited to developed markets or major emerging markets.

Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 55 engagements with companies held in the portfolio. These covered 20 companies in 11 countries across a range of themes.

Engagements are structured in line with the firm’s engagement themes which align with the PAIs. Below is provided a breakdown of the engagements undertaken and which PAI categories are typically addressed. The Investment Manager is updating its engagement tracking and reporting to enable PAI reporting at the indicator-level. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements by Theme	Alignment with PAIs	Proportion of engagements	Milestones Achieved by Theme
Climate Change	GHG Emissions and Energy Performance	23.28%	28.57%
Environmental Stewardship	Biodiversity, Water, Waste	12.93%	28.57%
Business Conduct	Social and Employee Matters	5.17%	0.00%
Human Rights		8.62%	0.00%

Labour Standards		18.10%	14.29%
Public Health		1.72%	0.00%
Corporate Governance		30.17%	28.57%

How did this financial product perform compared to the reference benchmark?

The Fund has not designated a benchmark for the purpose of attaining the environmental or social characteristics promoted.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Responsible Global Equity

Legal entity identifier: 213800QUBFOSM6S1V262

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 93.97% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It **promoted E/S characteristics, but did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The overarching philosophy of the Portfolio is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices
- Invest in companies that make a positive contribution to society and/or the environment

- Improve management of ESG issues, using the Investment Manager's influence as an investor to encourage best practice through engagement and voting

The fund, while it does not have a sustainable objective, aims to hold a minimum of 67.5% of the fund in sustainable investments.

The CT (Lux) Responsible Global Equity Fund allocated to companies in line with its investment policy during the period. The Fund focuses on 7 sustainability themes, which in turn link well to the UN's Sustainable Development Goals. As at 30/09/2023 93.97% was held in sustainable investments.

How did the sustainability indicators perform?

The Investment Manager uses the following indicators to measure the attainment of the environmental and social characteristics promoted by the Portfolio:

- 1) *The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms.*

The fund did not invest in companies which breached its standards. Pre-investment each holding was screened by the Responsible Investment team and approved for purchase with ongoing monitoring.

- 2) *The percentage of the Portfolio which aligns to its key sustainability themes*

97.1% of the portfolio was aligned to its key sustainability themes as at 30/09/2023:

Sustainability theme	% of portfolio aligned ¹
Energy Transition	11.5%
Resource Efficiency	10.2%
Sustainable Cities	6.9%
Health & Wellbeing	22.4%
Connect & Protect	16.3%
Digital Empowerment	20.1%
Sustainable Finance	9.8%
No Theme / Cash	2.9%
Total	100.0%

- 3) *Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs)*

¹ Due to rounding reported figures may appear not sum to 100%

93.97%, as at 30/09/2023, of the Portfolio was invested in companies with greater than 50% of net revenues positively aligned with the Sustainable Development Goals.

4) The number of environmental- and social-linked engagement objectives and/or milestones achieved

During the year 51 engagements were undertaken with 29 companies. This resulted in 11 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager's engagement objective.

...and compared to previous periods?

Indicator	2023	2022
The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms	0	0
The percentage of the Portfolio which aligns to its key sustainability themes	97.1%	97.8%
Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs)	93.97%	92.54%
The number of environmental- and social-linked engagement objectives and/or milestones achieved	11	16

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

As a result of the Portfolio's sustainability philosophy, the Portfolio will invest a minimum proportion of 67.5% (excluding cash, cash equivalents or hedging instruments) in sustainable investments. As at 30/09/2023, the fund had 93.97% of holdings invested in companies with greater than 50% net revenue positively contributing to the Sustainable Development Goals, and which are considered sustainable investments. These investments also align with the fund's sustainable themes as described below.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, including: energy transition, health and well-being and resource efficiency.

The Investment Manager uses a proprietary framework to assess the extent to which companies prioritise sustainability:

- **Additionality:** Is the company a leader in its industry, making a real difference to the positive direction of the industry? Here the Investment Manager focuses on and evidences the Portfolio's exposure through the Investment Manager's view of high quality, wide most businesses.
- **Intentionality:** How core is sustainability to the company's strategy and overall raison d'être? Here the Investment Manager leverages its extensive engagement capability to assess the company's transparency and communication around strategic goals, which will evidence the management team's and Board's intentions in prioritising these issues/opportunities.
- **Materiality:** How material are sustainability opportunities for the company? In addition to assessing revenue alignment to the Sustainable Development Goals, the Investment Manager makes an assessment of the company's revenue alignment to seven sustainability themes: Environmental Stewardship, Climate Change, Human Rights, Labour Standards, Public Health, Business Ethics and Corporate Governance.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in the following ways:

- The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society through the fund's exclusion policy. These criteria are product- and conduct-based, covering topics such as fossil fuels and weapons, and United Nations Global Compact breaches.
- Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist but are not considered significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence.

The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators

from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS)².

Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the investment teams endeavour to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement.

Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action

During 2023 the investment team reviewed all portfolio holdings and discussed the outcomes with the responsible investment team. It was agreed that no significant adverse impacts were identified for the fund, both on a qualitative and quantitative basis. Details of PAI engagement are detailed later in this report.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines to identify any significant harmful practices. There were no breaches during the period under review.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

² The Regulatory Technical Standards set out three tables detailing principal adverse indicators which have been defined by the European Commission. The tables cover a range of harmful activities across environmental, social and governance areas.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered PAIs in several ways:

- Through alignment with the fund's exclusion policy and screening criteria which relate to the PAIs, including: fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons. The fund adhered to the exclusion policy during the period under review.
- Utilising the PAI framework to review issuers against PAIs as per Table 1 in the RTS. This allows the Investment Manager to monitor harmful practices which may arise. No instances of harmful practice were identified in the portfolio in the portion of the fund reported as sustainable.
- PAIs align with stewardship activities undertaken by the fund. Details of PAI engagement are detailed later in this report.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01 October 2022 to 30 September 2023

Company	Sector	% of portfolio	Country
Apple Inc	Information Technology	7.34	US
Mastercard Inc	Financials	4.27	US
Linde Plc	Materials	3.98	GB
Accenture Plc	Information Technology	3.21	IE

Aptiv Plc	Consumer Discretionary	2.19	IE

What was the proportion of sustainability-related investments?

Sustainable investments comprised 93.97% of the portfolio as at 30/09/2023.

What was the asset allocation?³

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?³

Sector	% of Net Assets
Information Technology	31.05

³ Note rounding may indicate a 0.01% difference in the sum of figures

Health Care	20.73
Industrials	14.48
Financials	14.06
Consumer Discretionary	8.56
Materials	5.37
Consumer Staples	1.67
Real Estate	1.64
Utilities	1.40
Cash and Derivatives	1.03

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Of the sustainable investments held, 3.48% is in taxonomy aligned activities.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁴?

Yes:

In fossil gas In nuclear energy

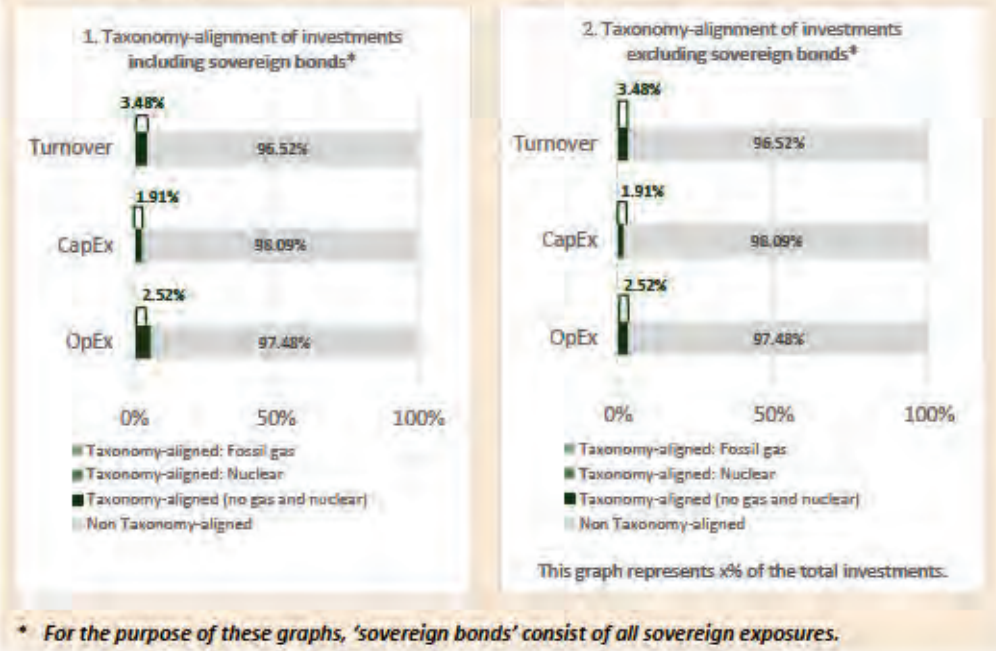

No

⁴ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

Of the investments made by the fund that are in transitional and enabling activities as defined by the EU Taxonomy Regulation, these are broken down as:

Enabling Activities: 1.70%

Transitional Activities: 0%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Previously the fund reported 0% alignment of its investments with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.37% of the portfolio was invested in sustainable investments which predominantly contribute to an environmental objective and not aligned with the taxonomy.

What was the share of socially sustainable investments?

72.11% of the portfolio was invested in sustainable investments which predominantly contribute to a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as ‘other E/S characteristics’ refer to investments which do not constitute sustainable investments but contribute to E/S characteristics by adhering to the fund requirements. These investments must contribute to the E/S characteristics of the fund and comply with the fund-level exclusions and screening criteria, including good governance.

Holdings classified as ‘other’ refers to cash positions or derivatives. Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment. This accounted for 1.03% of the fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 51 engagements with companies held in the portfolio. These covered 29 companies in 10 countries across a range of themes.

Engagements are structured in line with the firm’s engagement themes which align with the PAIs. Below is provided a breakdown of the engagements undertaken and which PAI categories are typically addressed. The Investment Manager is updating its engagement tracking and reporting to enable PAI reporting at the indicator-level. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements by Theme	Alignment with PMs	Proportion of engagements	Milestones Achieved by Theme
Climate Change	GHG Emissions and Energy Performance	20.00%	36.36%
Environmental Stewardship	Biodiversity, Water, Waste	13.64%	9.09%
Business Conduct	Social and Employee Matters	1.82%	0.00%
Human Rights		15.45%	9.09%
Labour Standards		26.36%	36.36%
Public Health		6.36%	9.09%
Corporate Governance		16.36%	0.00%

How did this financial product perform compared to the reference benchmark?

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) SDG Engagement Global Equity Legal entity identifier: 213800TVDYDJ002JBG48

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: ___%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 87.37% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The CT (Lux) SDG Engagement Global Equity Fund allocated to companies in line with its investment policy, over the period. The Fund looks to demonstrate positive progress towards achieving the underlying targets of the UN's Sustainable Development Goals.

The overarching philosophy of the Portfolio is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices

- Invest in companies that make a positive contribution to society and/or the environment
- Improve management of ESG issues, using the Investment Manager's influence as an investor to encourage best practice through engagement and voting

The fund aims to hold a minimum of 67.5% of the fund in sustainable investments. As at 30/09/2023 87.37% of the fund was invested in sustainable investments.

How did the sustainability indicators perform?

The Portfolio invests using the investment manager's 'avoid, invest, improve' framework. The Portfolio adheres to a set of exclusions, and makes investments in sustainable investment. The fund aims to undertake targeted, impact-focused, active engagement with companies, using the Sustainable Development Goals ("SDGs") framework.

The Portfolio utilises several indicators to assess performance against this framework. During the period under review the Portfolio;

- Invested in Sustainable Investments with 87.37% of holdings demonstrating a positive revenue contribution to SDG objectives
- During the reported year the Portfolio had 73 investee company engagements, representing 35 companies engaged.
- 33 milestones achieved, meaning the company made a tangible improvement in their policies and practices in alignment with the Investment Manager's SDG engagement objective

...and compared to previous periods?

Indicator	2023	2022
Proportion of the fund with >50% net revenue positively aligned with Sustainable Development Goals (SDGs ¹)	87.37%	87.58%
The number of SDG-linked engagements conducted	73	125
The number of SDG-linked engagement milestones achieved	33	19
Numer of Companies Engaged	35	-
Number of Countries covered by engagement	15	-

¹ Calculated as the Proportion of fund held in issuers which have greater than 50% of their Net Revenue aligned with the SDGs

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

As a result of the Portfolio's sustainability philosophy, the Portfolio will invest a minimum proportion of 67.5% (excluding cash, cash equivalents or hedging instruments) in sustainable investments. As at 30/09/2023, the fund had 87.37% of holdings invested in companies with greater than 50% net revenue positively contributing to the Sustainable Development Goals, and which are considered sustainable investments. These investments also align with the fund's sustainable themes as described below.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, including: energy transition, health and well-being and resource efficiency.

The Investment Manager uses a proprietary framework to assess the extent to which companies prioritise sustainability:

- **Additionality:** Is the company a leader in its industry, making a real difference to the positive direction of the industry? Here the Investment Manager focuses on and evidences the Portfolio's exposure through the Investment Manager's view of high quality, wide most businesses.
- **Intentionality:** How core is sustainability to the company's strategy and overall raison d'être? Here the Investment Manager leverages its extensive engagement capability to assess the company's transparency and communication around strategic goals, which will evidence the management team's and Board's intentions in prioritising these issues/opportunities.
- **Materiality:** How material are sustainability opportunities for the company? In addition to assessing revenue alignment to the Sustainable Development Goals, the Investment Manager makes an assessment of the company's revenue alignment to seven sustainability themes: Environmental Stewardship, Climate Change, Human Rights, Labour Standards, Public Health, Business Ethics and Corporate Governance.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in the following ways:

The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society through the fund's exclusion policy. These criteria are product- and conduct-based, covering topics such as fossil fuels and weapons, and United Nations Global Compact breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist but are not considered significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence.

The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS)⁴.

Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the investment teams endeavour to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement.

Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action

During 2023 the investment team reviewed portfolio holdings reported as sustainable investments against the model and discussed the outcomes with the responsible investment team. It was agreed that no significant adverse impacts were identified for the fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines to identify any significant harmful practices. No breaches of the Principles were identified during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered PAIs in three ways:

- 1) Through alignment with the fund exclusion policy which covers four of the

PAIs:

- i. Exposure to companies active in the fossil fuel sector

The fund during the reference period did not invest in companies:

- With ownership of geological reserves of coal/oil/gas. In line with the Net Zero Investment Framework, the Investment Manager avoid mining companies which are planning or constructing new thermal coal projects.
- That derive >0% of their revenue from exploration or production in areas of high environmental sensitivity, including the Arctic.
- That derive >5% of their revenue from:
 - Coal-related activities, including exploration, extraction, transportation, distribution and refining*².
 - Activities related to the exploration or extraction of unconventional oil & gas.
 - Conventional oil & gas-related activities, including exploration, extraction, refining and transportation
- That derive >50% of their revenue from equipment or services for coal- and/or conventional/ unconventional oil & gas-related activities.

- ii. Share of non-renewable energy consumption and production

- Electricity utilities with coal in their electricity generation mix must commit to the objective of phasing out unabated coal-fired power by 2030 for OECD countries and 2040 for non-OECD countries. Electricity utilities that are structurally increasing coal-based power generation are excluded.
- In addition, the fund excluded electricity utilities*:
 - With a carbon intensity >374 gCO₂/kWh.
 - Where >30% of the power production is based on oil & gas.
- Excluded electricity utilities where >5% of the power production is based on nuclear sources.
- Exclude electricity utilities constructing new nuclear power stations.
- Exclude companies that derive >5% of their revenue from selling products or services to the nuclear power industry, except those that provide standard, non-customised or safety-related products/services.
- Exclude companies that own or operate active uranium mines.

- iii. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for

*Unless they have a [Science Based Targets Initiative](#) (SBTi) target set at well-below 2°C or have a SBTi "Business Ambition or 1.5°C" commitment. NB. Companies' involvement in coal-related and/or oil & gas-related activities should not be increasing.

Multinational Enterprises

The fund did not invest in companies which are actively breaching the UN Global Compact Principles

iv. Exposure to controversial weapons

The fund did not make investments in companies that generate revenues from developing, manufacturing, or trading controversial weapons, including cluster munitions and anti-personnel landmines.

- 2) Utilising the PAI framework to review issuers against PAIs as per Table 1 in the RTS. This allows us to monitor harmful practices which may arise. No instances of significant harmful practices were identified for the positions held in the portfolio.
- 3) PAIs align with stewardship activities undertaken by the fund. For example, the fund took voting action at eight AGMs during the year due to issues related to diversity, more than a quarter of engagements related to employee matters, and more than 20% related to climate change topics. Further details of engagement activity are described in this report.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01 October 2022 to 30 September 2023

Company	Sector	% of portfolio	Country
Bank Mandiri Persero Tbk Pt	Financials	3.85	ID

Americold Realty Trust Inc	Real Estate	2.71	US
Halma Plc	Information Technology	2.56	GB

What was the proportion of sustainability-related investments?

As at 30/09/2023, the fund held 87.37% in investments which are deemed to be sustainable investments.

What was the asset allocation?³

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

³ Note rounding may indicate a 0.01% difference in the sum of figures

Sector	% of Net Assets ⁴
Industrials	24.33
Information Technology	15.91
Financials	15.88
Health Care	14.67
Consumer Discretionary	11.18
Consumer Staples	8.63
Utilities	2.86
Real Estate	2.71
Materials	2.52
Cash and Derivatives	1.32

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sustainable investments with an environmental objective made by the fund do not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has made available to date, the fund is reporting 3.77% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁵?

Yes:

In fossil gas In nuclear energy

No

⁴ Due to rounding reported figures may appear not sum to 100%

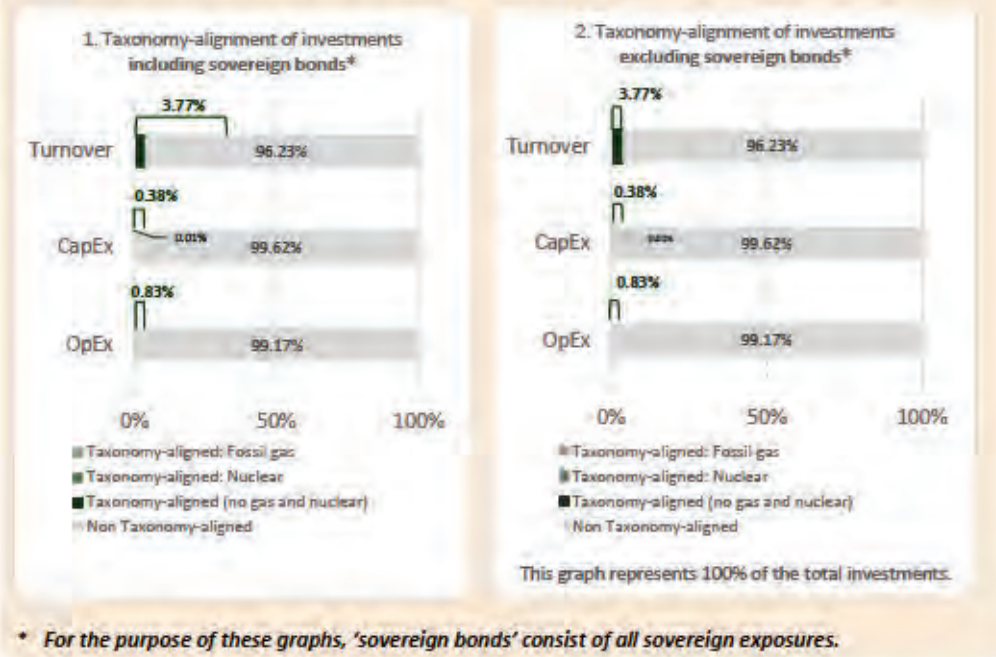

⁵ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

Of the investments made by the fund that are in transitional and enabling activities as defined by the EU Taxonomy Regulation, these are broken down as:

Enabling Activities: 0.23%

Transitional Activities: 0.00%

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Previously the fund reported 0% alignment of its investments with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation. This year 3.77% of investments were aligned with the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

21.91% of the portfolio was invested in sustainable investments which predominantly contribute to an environmental objective but are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

61.68% of the portfolio was invested in sustainable investments which predominantly contribute to a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as not “other” refer to cash positions only. Cash positions comprised 1.32% of the fund.

Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

While the fund does not invest in companies which have significant adverse impacts, the Investment Manager believes in engagement with companies to further support the fund's sustainable objective.

During the year, there were 73 engagements with 35 companies held in the portfolio that covered across a range of themes.

Given the explicit engagement mandate of this Fund, where a company has resisted engagement for two years and/or where engagement has not led to any momentum towards tangible positive change, the Global Equities team and Responsible Investment team would consider divesting.

Engagements are structured in line with the firm's engagement themes which align with the PAIs. Below is provided a breakdown of the engagements undertaken and which PAI categories these typically address. The Investment Manager is updating the engagement tracking and reporting to enable PAI reporting at indicator level. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements by Theme	Alignment with PAIs	Proportion of engagements	Milestones Achieved by Theme
Climate Change	GHG Emissions and Energy Performance	26.23%	51.52%
Environmental Stewardship	Biodiversity, Water, Waste	18.58%	0.00%
Business Conduct	Social and Employee Matters	3.83%	0.00%
Human Rights		10.38%	6.06%
Labour Standards		22.95%	33.33%
Public Health		3.83%	6.06%
Corporate Governance		14.21%	3.03%

How did this financial product perform compared to the reference benchmark?

The Fund does not use a reference benchmark in respect of the environmental and social characteristics promoted.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- *How does the reference benchmark differ from a broad market index?*

Not applicable.
- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.
- *How did this financial product perform compared with the reference benchmark?*

Not applicable.
- *How did this financial product perform compared with the broad market index?*

Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Sustainable Global Equity Enhanced Income Legal entity identifier: 2138000AO17355A61IW44

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 94.85% of sustainable investments</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The CT (Lux) Sustainable Global Equity Enhanced Income Fund has allocated to companies in line with its investment policy since its launch in August 2023. The Fund focuses on 7 sustainability themes, which in turn link well to the UN's Sustainable Development Goals. Since inception, the Fund comfortably held more than the minimum 90% in sustainable investments, according to the Investment Manager's definition of sustainable investment (see question 4 for further details), as at 30/09/2023, 94.85% was held in sustainable investments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The overarching philosophy of the Portfolio is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices
- Invest in companies that make a positive contribution to society and/or the environment
- Improve management of ESG issues, using the Investment Manager's influence as an investor to encourage best practice through engagement and voting

How did the sustainability indicators perform?

The Investment Manager uses the following indicators to measure the attainment of the environmental and social characteristics promoted by the Portfolio:

- 1) The number of companies determined to be in breach of the Portfolio's exclusion criteria and/or global norms.

The fund did not invest in companies which breached its standards. Pre-investment each holding was screened by the Responsible Investment team and approved for purchase with ongoing monitoring.

- 2) The percentage of the Portfolio which aligns to its key sustainability themes

Key sustainability themes	%
Connect & Protect	9.65
Digital Empowerment	18.34
Energy Transition	17.24
Health & Wellbeing	21.33
Resource Efficiency	9.19
Sustainable Cities	11.18
Sustainable Finance	12.44

- 3) Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs)

94.86%, as at 30/09/2023, of the portfolio was invested in companies with greater than 50% of net revenues positively aligned with the Sustainable Development Goals.

- 4) The number of environmental- and social-linked engagement objectives and/or milestones achieved

Since Inception, 20 engagements were undertaken with 7 companies. This resulted in 2 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager's engagement objective.

...and compared to previous periods?

Not applicable, this is the first reporting period of this fund.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

As a result of the Portfolio's sustainability philosophy, the Portfolio is committed to investing a minimum proportion of 90% (excluding cash, cash equivalents or hedging instruments) in sustainable investments. As at 30/09/2023, the fund had 94.86% of holdings invested in companies with greater than 50% net revenue positively contributing to the Sustainable Development Goals, and which are considered sustainable investments. These investments also align with the fund's sustainable themes as described below.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, including: energy transition, health and well-being and resource efficiency.

The Investment Manager uses a proprietary framework to assess the extent to which companies prioritise sustainability:

- **Additionality:** Is the company a leader in its industry, making a real difference to the positive direction of the industry? Here the Investment Manager focuses on and evidences the Portfolio's exposure through the Investment Manager's view of high quality, wide most businesses.
- **Intentionality:** How core is sustainability to the company's strategy and overall raison d'être? Here the Investment Manager leverages its extensive engagement capability to assess the company's transparency and communication around strategic goals, which will evidence the management team's and Board's intentions in prioritising these issues/opportunities.
- **Materiality:** How material are sustainability opportunities for the company? In addition to assessing revenue alignment to the Sustainable Development Goals, the Investment Manager makes an assessment of the company's revenue alignment to seven sustainability themes: Environmental Stewardship, Climate Change, Human Rights, Labour Standards, Public Health, Business Ethics and Corporate Governance.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in the following ways:

The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society through the fund's exclusion policy. These

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

criteria are product- and conduct-based, covering topics such as fossil fuels and weapons, and United Nations Global Compact breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist but are not considered significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence.

The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS).

Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the investment teams endeavour to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement.

Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action.

Since the launch of the fund, the investment team reviewed all portfolio holdings against the model and discussed the outcomes with the responsible investment team. It was agreed that no significant adverse impacts were identified for the fund. Details of PAI engagement are detailed later in this report.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines to identify any significant harmful practices. No breaches were identified during the period.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered PAIs in several ways:

- Through alignment with the fund's exclusion policy and screening criteria which relate to the PAIs, including: fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons. During the period under review the Fund adhered to the exclusion requirements.
- Utilising the PAI framework to review issuers against PAIs as per Table 1 in the RTS. This allows us to monitor harmful practices which may arise. No instances of harmful practice were identified in the portfolio.
- PAIs align with stewardship activities undertaken by the fund. Further details of the Investment Manager engagement is detailed further in the disclosure.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01 October 2022 to 30 September 2023

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sustainable investments with an environmental objective made by the fund do not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has made available to date, the fund is reporting 2.68% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy²?

Yes:

In fossil gas

In nuclear energy

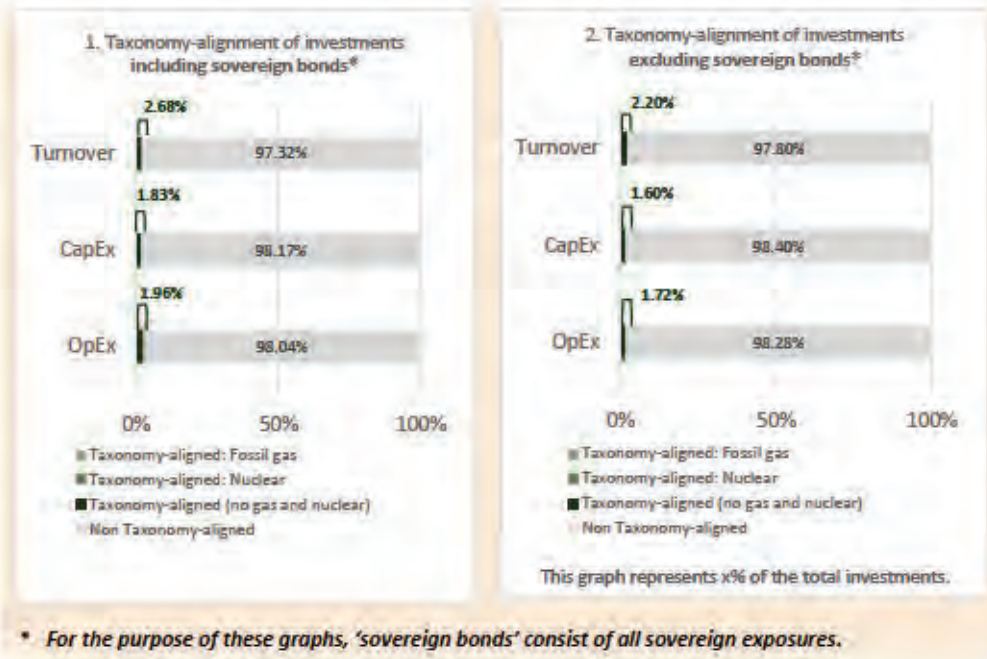

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

0% of the investments made by the fund are in transitional activities and 1.14% were in enabling activities as defined by the EU Taxonomy Regulation.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The fund has not previously reported there being any alignment of its investments with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

28.14% was the share of sustainable investments with an environmental objective which were not aligned with EU Taxonomy

What was the share of socially sustainable investments?

64.04% of the portfolio was invested in socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as other refer to investments which do not constitute sustainable investments but contribute to E/S characteristics, cash or cash equivalents. These are held for liquidity, hedging and income generation. As at 30/09/2023 this comprised 5.15% of the fund.

Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager has committed to align the fund with net zero emissions by 2050 or sooner. This builds on the existing climate change commitments for the fund, which include the exclusion of companies with fossil fuel reserves and engagement on climate opportunities and risks reinforced by the Investment Manager's voting policy.

Since inception, 20 engagements were undertaken with 7 companies. This resulted in 2 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager's engagement objective. Engagements are structured in line with the firm's engagement themes which align with the PAIs.

Engagements by Theme	Alignment with PAIs	Proportion of engagements	Milestones Achieved by Theme
Climate Change	GHG Emissions and Energy Performance	22.92%	50.00%

'Appendix II - SFDR Periodic Disclosure (unaudited)

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Sustainable Multi-Asset Income Legal entity identifier: 213800VPOORXSZ9R2T24

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<p><input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 47.75%</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input checked="" type="checkbox"/> It made sustainable investments with a social objective: 51.17%</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent was the sustainable investment objective of this financial product met?

The CT (Lux) Sustainable Multi-Asset Income Fund allocated across sustainable equity, sustainable credit, sustainable government bonds and sustainable alternatives, in line with its investment policy, over the period. The Fund invests around a number of themes, which in turn link well to the UN Sustainable Development Goals. These themes include Health and Well-being, linking to SDG 2 and SDG 3, and Energy Transition, linking to SDG 7 and SDG 13, among others. Every investment made by the Fund was deemed sustainable, as per the Investment Manager's definition of sustainable investment. In the event an investment subsequently became non-

sustainable, for reasons such as changes in data or Fund investment policy, then the Fund would divest from the name.

The Portfolio aims for a minimum of 90% of investments to be classified as sustainable investments. As at 30/09/2023 it held 98.92% of the fund in sustainable investments.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● *How did the sustainability indicators perform?*

The Portfolio exclusively invests in sustainable investments using the Investment Manager's 'Avoid, Invest, Improve' framework. The Portfolio adheres to a set of exclusions and targets investment exclusively in sustainable investments. The Fund aims to undertake targeted, impact-focused, active engagement with companies, using the UN Sustainable Development Goals ("SDGs") framework.

The Portfolio utilises several indicators to assess performance against this framework. During the period under review the Portfolio:

1. Did not invest in companies which breached the portfolio's exclusion criteria and/or global norms
2. Invested exclusively in Sustainable Investments with 98.92% of holdings (as at 30/09/2023) demonstrating a positive revenue alignment with or dedicated use of proceeds that contributes to the SDGs
3. As at 30/09/2023 held 33.57% of the portfolio in Green, Sustainability Linked or Labelled Bonds
4. During the year under review the Portfolio had 150 investee company engagements, representing 80 companies engaged across 16 countries. 25 milestones linked to environmental or social objectives were reported, of the total 28 milestones recorded.

● *...and compared to previous periods?*

Indicator	2023	2022
Divestment due to breach of fund criteria	0	0
Proportion of the fund aligned with Sustainable Development Goal (SDGs ¹) including Labelled Bonds	98.92%	93.67%
Labelled Bonds (e.g. Green, Social, Sustainable)	33.57%	17.9%
Engagement:		
Companies Engaged	80	91
Engagement Milestones (Environmental and Social Linked)	25	33

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How did the sustainable investments not cause significant harm to any sustainable investment objective?*

¹ Calculated as the proportion of Fund held in issuers which have greater than 50% of their net revenue aligned with the UN SDGs

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in several ways:

The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. These criteria are product- and conduct-based, covering topics such as fossil fuels and weapons, and United Nations Global Compact breaches.

Through the Investment Manager's investment research, Sustainability Risks and ESG factors (including PAIs and good governance) are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist, but are not considered significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence.

The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS)². Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the investment teams endeavour to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement.

Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action

During 2023, the investment team reviewed all portfolio holdings against the model and discussed the outcomes with the responsible investment team. It was agreed that no significant adverse impacts were identified for the fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines, to identify any significant harmful practices. No breaches were identified during the period.

² The Regulatory Technical Standards set out three tables detailing principal adverse indicators which have been defined by the European Commission. The tables cover a range of harmful activities across environmental, social and governance areas.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered PAIs in three ways:

1. Through alignment with the fund exclusion policy which covers four of the PAIs. No breaches were identified during the period:
 - i. Exposure to companies active in the fossil fuel sector. The Fund did not invest in companies:
 - With ownership of geological reserves of coal/oil/gas. In line with the Net Zero Investment Framework, the Investment Manager avoids mining companies which are planning or constructing new thermal coals projects.
 - That derive >0% of their revenue from:
 - The mining of thermal coal and its sale to external parties
 - The extraction and production of oil / gas
 - That derive >5% of their revenue from:
 - The distribution and retailing of oil / gas and related products³
 - Coal / oil / gas transportation and / or oil / gas pipelines
 - Refining coal / oil / gas
 - That derive >50% of their revenue from equipment or services for coal- / oil- / gas-related activities⁴
 - ii. Share of non-renewable energy consumption and production
 - The Fund excludes electricity utilities:
 - That derive >10% of their revenue from:
 - Coal-based power production⁵
 - Oil & gas-based power production⁶
 - That derive >5% of their revenue from power production based on nuclear sources⁷

³ The Fund is permitted to hold issuers that exceed the 5% revenue threshold if they have robust Net Zero transition plans which cover their product emissions, and / or are substantially benefitting customers in remote / rural areas.

⁴ Issuers deriving >5% of their revenue from the use and / or production of hydraulic fracking technologies are excluded.

⁵ Electricity utilities with coal-based power production must have a Science Based Targets initiative (SBTi) target set at 1.5 degrees Celsius/well-below 2 degrees Celsius. NB. This criteria point may include companies in other sectors which have power generation activities. Overall, the Investment Manager expects companies to be structurally decreasing their coal-based power generation.

⁶ Unless they have a Science Based Targets initiative (SBTi) target set at 1.5 degrees Celsius/well-below 2 degrees Celsius.

⁷ Electricity utilities with nuclear-based power generation capacity must have a SBTi target set at 1.5 degrees Celsius/well-below 2 degrees Celsius.

- The Fund excludes issuers that derive >5% of their revenue from:
 - Supplying key products or services to the nuclear power industry, except those that provide standard, non-customised or safety-related products / services
 - Uranium mining
- iii. Violations of UN Global Compact principles

The Fund did not invest in companies which are actively breaching the UN Global Compact Principles or that demonstrate poor ESG performance.
- iv. Exposure to controversial weapons

The Fund did not make investments in companies that generate revenues from developing, manufacturing, or trading controversial weapons, including cluster munitions and anti-personell landmines.
- v. Sovereign Bonds

The Fund did not make investment in the sovereign debt of countries which:

Scored <40/100 on the Transparency International Corruption Perceptions Index

Qualified as "Not Free" by the Freedom House "Freedom in the World" survey
- 2. Utilising the PAI framework to structure the DNSH model to assess issuers against all PAIs. This allows us to identify issuers who may be engaging in practices which are not conducive to a sustainable investment and would therefore preclude investment.

Where issues were identified during the year, the investments were reviewed and determined not to be causing significant harm.

PAIs align with stewardship activities undertaken by the Fund. For example, the Fund had 28% of engagements related to climate change topics. Further details of engagements are described in this report in the section entitled "What actions have been taken to attain the sustainable investment objective during the reference period?"

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01 October 2022 to 30 September 2023

Largest Investments	Sector	% Assets	Country
United Kingdom Of Great Britain and Northern Ireland	Financials	7.65	GB
United Kingdom Of Great Britain and Northern Ireland	Financials	4.84	GB

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

As at 30/09/2023 the Fund held 98.92% in investments which are deemed to be sustainable investments.

What was the asset allocation?

As at 30/09/2023 the Fund held 98.92% in investments which are deemed to be sustainable investments. The remaining 1.08% is in cash, derivatives and currency positions.

The Investment Manager considers a sustainable investment to be a specific use of proceeds bonds such as green bonds, or bonds which the Investment Manager believes fund a sustainable objective. The Investment Manager also considers sustainable investments to be an issuer which has greater than 50% of its net revenue positively aligned to the SDGs, or is contributing to a sustainable objective by embedding sustainability into the economic purpose of the business (e.g. growing the proportion of revenue aligned with sustainability objectives, or delivering the business in a way which contributes to a sustainable outcome.

investments must also demonstrate good governance and not significantly cause harmful principal adverse impacts.

Note an investment may contribute to one of more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure and with additional context provided from the investment and responsible investment teams.

In which economic sectors were the investments made?

Sector (GICS)	% of Net Assets
Financials	33.45
Sovereigns	15.90
Information Technology	11.65
Health Care	10.94
Industrials	6.88
Utilities	6.30
Communication Services	4.31
Materials	3.38
Real Estate	2.51
Consumer Discretionary	2.39
Consumer Staples	1.21
Cash, FX and Derivatives	1.08

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sustainable investments with an environmental objective made by the Fund do not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has made available to date, the Fund is reporting 1.92% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁸?

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds⁸, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures. Please note, rounding may mean alignment sums to less than 100%

What was the share of investments made in transitional and enabling activities?

The Fund (as at 30/09/2023) had 1.01% in Enabling Activities and 0.01% in Transitional Activities.

⁸ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

This is the first year the Fund is reporting the percentage of investments aligned with the EU Taxonomy hence comparison to previous periods is not possible.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The Fund had 45.83% (as at 30/09/2023) in sustainable investments with an environmental objective which have not been assessed with respect to the EU Taxonomy.

What was the share of socially sustainable investments?

The Fund had 51.17% (as at 30/09/2023) in sustainable investments with a social objective.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as not sustainable refer to cash, derivatives and currency positions only. These are held for the purposes of liquidity and hedging. This comprised 1.08% of the fund. When investing in cash and derivatives the Investment Manager considers ESG factors as part of counterparty selection.

What actions have been taken to attain the sustainable investment objective during the reference period?

In 2021, the Fund committed to aligning the Sustainable Multi-Asset Income Fund with net zero emissions by 2050 or sooner. This builds on the existing climate change commitments for the Fund, which include the exclusions of companies with fossil fuel reserves, engagement on climate opportunities and risks reinforced by the Investment Manager’s voting policy, and investment in solution providers.

Whilst the fund does not invest in companies which have significant adverse impacts, the Investment Manager believes it should still engage with companies to further support the fund’s sustainable objective. During the year there were 150 engagements with companies held in the portfolio. These covered 80 companies across 16 countries across a range of themes.

Engagements are structured in line with the firm’s engagement themes, which align with the PAIs. Below is provided a breakdown of the engagements undertaken and which PAI categories these typically address. The Investment Manager is updating its engagement tracking and reporting to enable PAI reporting at indicator level. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements by Theme	Alignment with PAIs	Proportion of engagements	Milestones Achieved by Theme
Climate Change	GHG Emissions and Energy Performance	28.43%	57.14%
Environmental Stewardship	Biodiversity, Water, Waste	15.38%	7.14%
Business Conduct	Social and Employee Matters	3.01%	0.00%
Human Rights		11.71%	3.57%
Labour Standards		17.06%	14.29%
Public Health		8.70%	7.14%
Corporate Governance		15.72%	10.71%

How did this financial product perform compared to the reference sustainable benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

The Investment Manager does not use a reference benchmark in respect of the sustainable investment objective applied to the Portfolio.

How did the reference benchmark differ from a broad market index?

Not applicable

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

Not applicable

How did this financial product perform compared with the reference benchmark?

Not applicable

How did this financial product perform compared with the broad market index?

Not applicable

'Appendix II - SFDR Periodic Disclosure (unaudited)

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Sustainable Opportunities European Equity Legal entity identifier: 21380012XH3WOKJOYQ92

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

It made sustainable investments with an environmental objective: 27.20%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: 70.74%

No

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

The product invests in European Equities where the Investment Manager has identified seven key themes that the Investment Manager believes are integral to greater sustainability such as Health and Well-being or Sustainable cities. The Investment Manager link these themes to the Sustainable Development Goals (SDGs) and every investment is expected to contribute positively to the SDGs as per the Investment Manager's definition of a Sustainable investment.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

The Portfolio aims for a minimum of 90% of investments to be classified as sustainable investments. As at 30/09/2023 it held 97.94% of the fund in sustainable investments.

How did the sustainability indicators perform?

The Portfolio exclusively invests in sustainable investments using the investment manager's 'avoid, invest, improve' framework. The Portfolio adheres to a set of exclusions, targets investment exclusively in sustainable investment aligned with the Portfolio's themes and engages with issuers on ESG factors.

The Portfolio utilises several indicators to assess performance against this framework. During the period under review the Portfolio;

1. Did not invest in companies which breached the Portfolio exclusions
2. Invested as below against the Portfolio's key sustainability investment themes:

Connect & Protect	5.33%
Digital Empowerment	17.04%
Energy Transition	9.41%
Health & Well-being	23.63%
Resource efficiency	11.85%
Sustainable Cities	10.16%
Sustainable Finance	20.52%

3. Invested 90.25%¹ of the portfolio in companies with a net positive revenue alignment >50% to the targets of the Sustainable Development Goals.²
4. Held 40 investee company environmental- and social-linked engagements during the year, representing:
 - 20 companies engaged across 9 countries
 - 8 milestones achieved, meaning the company made a tangible improvement in their policies and practices in alignment with the Investment Manager's engagement objective

...and compared to previous periods?

¹ Measured as of 30th September 2023

² Note additional investments classes as sustainable investments may be on a trajectory to grow revenue to be greater than 50%, or demonstrate an economic contribution to a sustainable objective not based on SDG revenue alignment.

Indicator	2023	2022
Exclusions breached	0	0
Sustainable Investments held (excluding cash or liquidity positions)	100%	100%
Sustainable Theme Breakdown		
Connect & protect	5.33%	5.75%
Digital empowerment	17.04%	14.53%
Energy transition	9.41%	6.50%
Health and well-being	23.63%	31.88%
Resource efficiency	11.85%	12.68%
Sustainable cities	10.16%	11.17%
Sustainable finance	20.52%	14.85%
Proportion of the fund aligned with Sustainable Development Goals (SDGs ³)	90.25%	94.03%
Engagement		
Companies Engaged	20	19
Engagement Milestones	8	4

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Portfolio's investment approach assesses that the sustainable investments made by the Portfolio do not significantly harm other sustainable investment objectives in several ways:

The Portfolio screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. These criteria are product- and conduct-based, covering topics such as tobacco and weapons, and United Nations Global Compact breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm. Companies are identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues which exist but are not considered significantly harmful.

The Investment Manager will divest from holdings which no longer qualify for investment on the basis of the fund's investment policy. During the year no divestment on this basis was made.

³ Calculated as the Proportion of fund held in issuers which have greater than 50% of their Net Revenue Positively aligned with the SDGs

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment team due diligence.

The Investment Manager identifies harm by using quantitative thresholds against a selection of principal adverse impact indicators, including all mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards (RTS). Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the investment teams endeavour to satisfy that no significant harm has taken place through desk-based qualitative research or issuer engagement.

Depending on the materiality of the principal adverse impact indicator, the investment manager will either exclude the issuer or, in limited cases, seek to engage with the issuer to address the harmful practices by taking appropriate action.

During 2023 the investment team reviewed all portfolio holdings against the model and discussed the outcomes with the responsible investment team. It was agreed that no significant adverse impacts were identified for the fund, both quantitatively and qualitatively.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. The Fund explicitly prohibits investment in companies which breach UN Global Compact (UNGC) principles. In addition, the sustainable investments are assessed under the DNSH due diligence against factors which align with UNGC and OECD guidelines to identify any significant harmful practices. No exclusions were breached over the reporting period.

How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered PAIs in three ways:

- 1) Through alignment with the fund exclusion policy which covers four of the PAIs:
 - i. Exposure to companies active in the fossil fuel sector

The fund did not invest in companies:

- With ownership of geological reserves of coal/oil/gas
- That derive >0% of their revenue from Arctic oil and/or gas production

- That derive >50% of their revenue from oil and gas refining
- That derive >50% of their revenue from other oil and gas-related activities, including distribution / retail
- That derive >50% of their revenue from fossil fuel equipment and services, and transportation

ii. Share of non-renewable energy consumption and production

The fund did not invest in electricity utilities:

- Where >10% of the power production is based on coal
- Where >30% of the power production is based on oil and gas
- Where >5% of the power production is based on nuclear sources
- Exclude companies that derive >5% of their revenue from the supply of essential products/services to the nuclear power industry
- Exclude companies operating active uranium mines

iii. Violations of UN Global Compact Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

The fund did not invest in companies which are actively breaching the UN Global Compact Principles or the Organisation for Economic Cooperation and Development (OECD) guidelines.

iv. Exposure to controversial weapons

The fund did not make investments in companies that generate revenues from developing, manufacturing, or trading controversial weapons, including cluster munitions and anti-personnel landmines.

- 2) Utilising the PAI framework to review issuers against PAIs as per Table 1 in the RTS. This allows us to monitor harmful practices which may arise. No instances of significant harmful practices were identified for the positions held in the portfolio.
- 3) PAIs align with stewardship activities undertaken by the fund. Further details of engagement activity are described in this report.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Novo Nordisk A/S	Health Care	5.98	DK
ASML Holding Nv	Information Technology	4.83	NL

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01 October 2022 to 30 September 2023

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Of the sustainable investments held, 4.07% is in taxonomy aligned activities.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁴?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

⁴ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Of the investments made by the fund that are in transitional and enabling activities as defined by the EU Taxonomy Regulation, these are broken down as:

Enabling Activities: 3.94%

Transitional Activities: 0.03%

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

Previously, 0% of investments made were aligned to the EU taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The Fund had 23.13% (as at 30/09/2023) in sustainable investments with an environmental objective which are not aligned with respect to the EU Taxonomy.

What was the share of socially sustainable investments?

The Fund had 70.74% (as at 30/09/2023) in sustainable investments with a social objective.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as not sustainable refer to cash positions only. Cash comprised 2.06% of the fund as at 30/09/2023.

Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to attain the sustainable investment objective during the reference period?

While the fund does not invest in companies which have significant adverse impacts, the Investment Manager believes it should still engage with companies to further support the fund’s sustainable objective.

During the year there were 40 engagements with companies held in the portfolio. These covered 20 companies across 9 countries across a range of themes.

Engagements are structured in line with the firm’s engagement themes which align with the PAIs. Below is provided a breakdown of the engagements undertaken and which PAI categories these typically address. The Investment Manager is updating the engagement tracking and reporting to enable PAI reporting at indicator level. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements by Theme	Alignment with PAIs	Proportion of engagements	Milestones achieved by theme
Climate Change	GHG Emissions and Energy Performance	21.84%	25.00%
Environmental Stewardship	Biodiversity, Water, Waste	17.24%	0.00%
Business Conduct	Social and Employee Matters	1.15%	0.00%
Human Rights		13.79%	12.50%
Labour Standards		13.79%	25.00%
Public Health		12.64%	12.50%
Corporate Governance		19.54%	25.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

How did this financial product perform compared to the reference sustainable benchmark?

The fund does not reference a sustainable benchmark.

Directors' Report

Financial markets experienced a volatile 12 months. Even before Russia's invasion of Ukraine at the end of February 2022, inflationary pressures had been building due to pandemic-related disruptions to global supply chains. A further rise in energy prices due to the war continued to push up inflation across the globe.

Having downplayed inflation risks as 'transitory' through much of 2021, central banks in the US, UK and Europe raised interest rates aggressively during 2022 and the first quarter of 2023. In the US, the Federal Reserve (Fed) raised rates from a target range of 0.25%-0.50% at the end of March 2022 to 4.75%-5.0%. In the UK, the Bank of England (BoE) raised the base rate from 0.75% to 4.25%, while the European Central Bank (ECB) also increased rates. By contrast, the Bank of Japan kept rates at -0.1% throughout the year, but raised its cap on 10-year government bond yields at the end of 2022. This was widely interpreted as the first step away from its ultra-loose monetary policy.

As 2022 progressed, the prospect of recession weighed further on investor sentiment. Supply-chain problems, higher interest rates and China's zero-Covid policy all contributed to slowing global growth. In addition, the war in Ukraine pushed elevated energy prices sharply higher in Europe, squeezing consumer budgets and causing companies' operating costs to balloon. Towards the end of the period, weaker global economic data and cooling inflation fuelled hopes that key central banks were close to ending their current cycle of rate hikes.

Market volatility spiked in March following news of the collapse of Silicon Valley Bank (SVB) and the problems at two other smaller US lenders. Government bond yields (which move inversely to price) saw some of the biggest falls in decades, particularly on shorter-dated bonds as investors anticipated fewer interest-rate hikes. Credit spreads (the yield premiums over 'risk-free' government bonds) widened in March after narrowing over the first two months of the year, particularly in high-yield (HY) credit.

The run on SVB and its subsequent closure and takeover by the Federal Deposit Insurance Corporation sent shivers through the entire banking sector and focused attention on losses on banks' bond portfolios due to higher interest rates. Bank shares fell, particularly those of weaker lenders, and, in Switzerland, the regulators facilitated a takeover of troubled Credit Suisse by its larger rival UBS. Towards the end of March, bank shares stabilised and, at the time of writing, there are signs that initial fears of contagion have been contained.

The most immediate impact of the crisis was to lower expectations for the path of interest rates, partly on the assumption that central banks would be reluctant to risk further distress in the banking sector. The banking turmoil, particularly in the US, should also lead to a tightening of credit conditions and therefore constrain growth and inflation at the margin. Fed Chairman Jerome Powell commented that it is likely to have the same impact as a rate increase.

In the UK, concerns over the country's finances came to a head in September, when former Chancellor Kwasi Kwarteng delivered a tax-cutting mini-budget. Investors were unnerved by the lack of detail on funding or the usual independent projections from the Office for Budget Responsibility. Consequently, equities fell, gilt yields soared and the pound almost touched parity with the dollar. The sudden rise in gilt yields posed a serious risk for a number of UK pension funds and the BoE stepped in to calm markets by pledging to buy up to £65 billion of long-dated gilts. In October, the pound rallied and gilt yields fell as Prime Minister Liz Truss sacked Kwasi Kwarteng as chancellor before she herself was swiftly replaced by Rishi Sunak. The new chancellor, Jeremy Hunt, reversed most of his predecessor's pledges and announced tax rises and spending cuts. Hunt's budget the following spring contained few surprises. The chancellor stated that the UK was likely to avoid a recession in 2023 and reiterated the government's pledge to halve inflation, strengthen public finances and boost economic growth.

Against this challenging backdrop, the MSCI ACWI returned -5.1% in local-currency terms over the 12-month period under review.

Among the major equity regions, Europe ex UK and Japan fared best in local currencies and posted positive returns. These export-heavy markets were boosted by weakness in their respective currencies against the US dollar. Towards the end of the period, equities in Europe ex UK also benefited from the improved economic outlook for the region. UK equities also advanced over the year, supported by weakness in the pound against the dollar. The market's sizeable exposure to energy and mining stocks also proved advantageous given the sharp spikes in prices of the underlying commodities in the wake of the Russian invasion.

Emerging markets (EM) underperformed, initially dragged down by weakness in Chinese shares as Beijing's zero-Covid policy weighed heavily on economic activity. Sentiment was also dented by a burgeoning crisis in the real-estate sector and continuing regulatory crackdowns. Later in the period, Chinese shares bounced back strongly as Beijing lifted most of its Covid restrictions and appeared to relax its clampdown on big business. The US fared worst, hurt by bouts of weakness in growth stocks and a slew of disappointing corporate earnings for the final quarter of 2022.

In fixed income, core government bond yields rose sharply over the period as investors responded to the large increases in interest rates by the Fed, BoE and ECB. The yield on US 10-year Treasury bonds rose by 113 basis points (bps) to finish March 2023 at 3.47%. The UK and German equivalents respectively increased by 188 bps to 3.49% and by 174 bps to 2.29%. Corporate bond markets were also weak over much of the period, with the negative impact of higher bond yields compounded by wider credit spreads. However, spreads narrowed from the fourth quarter of 2022 amid easing concerns about monetary tightening, with global IG spreads finishing the year under review almost 30 bps wider. Euro HY spreads also widened over the period.

Directors' Report

(continued)

In the Threadneedle (Lux) - Asia Contrarian Equity Fund, new holdings during the period included Singapore Telecommunications Singtel, BYD and Parade Technologies. Singtel is the largest telecom service provider in Singapore and the second largest in Australia through its ownership of Optus. The company also has stakes in several other telcos in the region. The valuation looked attractive and earnings appear resilient, while the shares offer a good dividend yield. BYD is a leading auto manufacturer in China and the largest electric vehicle (EV) brand in terms of sales. The company is also a major supplier of batteries and handset components. We are positive on BYD's growing EV sales volumes and there is potential for higher margins, thanks to the firm's improving product mix. The prospects for Taiwanese fabless semiconductor company Parade Technologies look encouraging, with inventory destocking coming to an end. Elsewhere, we bought Kasikornbank, one of Thailand's top four banking groups. The bank is expected to benefit from the recovery in the Thai economy as key sectors such as tourism and retail rebound strongly post-Covid. We exited Chinese company Baidu as we felt the firm might be impacted by the US semiconductor export restrictions. Apart from Baidu, other sales included OCBC and Sea in Singapore and Lotte Chilsung Beverage in Korea. These stocks were sold to increase positions in China, such as Alibaba and China Construction Bank, where valuations offered scope for further re-rating given the improved outlook following the post-pandemic reopening.

In the Threadneedle (Lux) - Global Select Fund, new positions during the period included TotalEnergies, PepsiCo and Elevance Health. We favour TotalEnergies for its diverse product line, strong international presence and robust market position. Alongside this, the company has a head start over its peers in building a renewables business. PepsiCo is one of the world's leading suppliers of food, beverages and snacks. We expect its high-quality brand portfolio to underpin solid top-line revenue growth with low volatility. PepsiCo also enjoys high market share, customer loyalty and pricing power. Elevance Health is a leading provider of healthcare insurance in the US. The firm has one of the most recognisable national brands and boasts significant scale in the industry, which helps generate cost advantages and ensure customer loyalty. It also stands to benefit from the growth in demand for health insurance. We held positions in SVB Financial and First Republic. As a leader in providing finance to the private equity and venture capital industry, SVB boasted a broad range of competitive advantages and provided a differentiated banking exposure for the portfolio. However, with challenges in the technology sector and new funding rounds drying up, the bank had seen an outflow of deposits, causing a potential liquidity risk in the balance sheet and leading to the events in March. SVB's failure and the resulting loss of confidence in regional US banks also impacted First Republic. We sold our position in the latter in the middle of March ahead of its near-collapse and subsequent forced takeover by JPMorgan in April. We also sold Samsung Electronics following the stock's strong performance and used the proceeds to establish a holding in Micron Technology, which has a superior risk-return profile.

In the Threadneedle (Lux) - Global Focus Fund, we opened a number of positions in the period, including HDFC Bank, Legrand and Waste Connections. We bought leading Indian private-sector bank HDFC after selling ICICI Bank because we wanted to concentrate our exposure to the sector in a single holding, and we believe that HDFC has a better long-term lending track record. Legrand is a leader in low-voltage electrical equipment and benefits from very high market share, especially in low-growth markets like Italy and France. We favour Legrand for its international presence, which we believe will build up over time, particularly in the US and EMs. Waste Connections is a North American integrated waste services company that provides waste collection, transfer, disposal and recycling services. It boasts a leading market position in the US and has the best long-term track record among its peers. The firm also has a sound operating strategy targeting communities in suburbs and rural communities instead of cities, which gives it increased negotiating power alongside scale and cost advantages. Sales included Amazon, Adobe and Tryg.

New holdings in the Threadneedle (Lux) - Global Equity Income Fund included AbbVie, PNC and SMC. AbbVie researches and develops pharmaceutical products. The company boasts strong new product growth, led by two top-tier drugs: psoriasis medication Skyrizi and inflammation medication Rinvoq. AbbVie also has a dominant position in the aesthetic market, providing another engine for growth and diversification. PNC is a well-managed, diversified financial services business with a strong and growing presence in the US. The company benefits from its broad product range, robust technology and longstanding reputation. The stock also carries a high dividend yield. SMC is the world's largest pneumatic equipment maker. Demand for its products is growing, especially in the automation industry. SMC also benefits from a large market position, a broad product range, distribution reach and rapid turnaround times. Sales included Valero Energy as we wanted to reduce our cyclical exposure. We also exited Crown Castle because we believe it will be challenging for the company to sustain its dividend growth in a more inflationary environment. Other sales included Disco Corporation and Manulife Financial.

In the Threadneedle (Lux) - Global Smaller Companies Fund, we opened new positions in Nemetschek and Rémy Cointreau. Nemetschek is a global market leader across multiple regions and segments in the construction sector. The firm boasts a well-diversified revenue base, a strong, experienced management team and a well-established market position. We also favour Nemetschek for its leadership on the innovation front. Rémy Cointreau manufactures and distributes premium wines and spirits worldwide. Rémy's excellent portfolio of brands gives it a competitive advantage and strong pricing power. We feel the firm is well positioned to benefit from the shift in consumer preferences towards upmarket brands. We also opened a position in Acushnet, a company that makes and distributes golf products. Acushnet is likely to benefit from increased demand for golf balls, plus it boasts a healthy order backlog, lean channel inventories and output levels that are growing gradually. We profitably sold Evoqua Water Technologies after the firm received a takeover bid at a premium from Xylem. Other sales included Ritchie Bros Auctioneers and Inter Parfums.

In the Threadneedle (Lux) - UK Equities Fund, new holdings included SSE, Ashtead and Spectris. SSE is a leading developer and operator of renewable energy and low-carbon infrastructure in electricity transmission and distribution. The firm operates a balanced portfolio of assets including electricity networks as well as renewables, enabling it to perform well in volatile market conditions. Equipment rental business Ashtead was trading at an attractive valuation; the company also has strong fundamentals and is enjoying revenue growth, enhanced by bolt-on acquisitions. We reopened a position in Spectris (having

Directors' Report

(continued)

previously sold the stock at a profit at the end of 2021) after the company sold its Omega division for a higher-than-expected price. The firm's remaining business is of excellent quality, with a net-cash balance sheet. We also opened a position in software business Aveva early on in the period. The shares later surged after a bid from Schneider Electric, and we subsequently sold the stock at a profit. Other sales included Smiths Group, Imperial Brands, BAE and Hunting.

In the Threadneedle (Lux) - UK Equity Income Fund, we initiated positions in Smith & Nephew, Hikma Pharmaceuticals and Travis Perkins. Shares in medical device manufacturer Smith & Nephew were undervalued compared to its peers and the potential value of its aggregate divisions. With the company launching new products, we are optimistic for the firm's medium- to long-term prospects. Hikma is the leading player in the injectable and branded segments, which have high barriers to entry and strong growth potential, as well as offering good returns. The firm is also expanding its focus to areas such as specialty pharma, contract manufacturing and biosimilars. Building supplies retailer Travis Perkins has a solid balance sheet and no financial debt. The dividend yield is attractive and is cushioned by comfortable earnings cover. We exited JD Wetherspoon due to concerns over the company's balance sheet and the independence of directors. We also sold United Utilities to fund a new position in SSE, a leading developer and operator of renewable energy and low-carbon infrastructure.

In the Threadneedle (Lux) - American Fund and Threadneedle (Lux) - American Select Fund, new holdings included Intuitive Surgical and Procter & Gamble. Intuitive Surgical manufactures robotic equipment for minimally invasive surgery and offers a more compelling opportunity relative to its large-cap peers in the medical devices category due to the company's huge potential addressable market within soft-tissue surgery. Procter & Gamble offers a defensive earnings profile over the shorter term and has historically been a best-in-class earnings compounder. The firm's improving growth profile is delivering enhanced operating leverage, which should support earnings growth alongside the potential for shareholder returns if transitory costs and FX headwinds subside. Sales included CVS Health, Cisco Systems and Mirati Therapeutics.

In the Threadneedle (Lux) - American Smaller Companies Fund, new positions included Applied Industrial Technologies, Cable One and Stanley Black & Decker. Applied Industrial Technologies is an industrial distributor focused on motion and automation. It has a meaningful opportunity to grow revenue, margins and free cashflow on account of its continued market share gains, operational efficiencies and the trend towards the reshoring of manufacturing. Cable One has differentiated itself from its large cap peers by focusing mostly on broadband provision in rural areas and de-emphasising video/cable TV. The company also has strong responsible investment credentials. Stanley Black & Decker has worked hard to slim its portfolio in recent years to focus on power tools and fasteners as well as brands that are well known and have good retailer support. The company also has strong responsible investment credentials, including a well-defined strategy and disclosures. Sales included Lamb Weston, Natus Medical and EVO Payments.

Looking ahead, inflation already looks to be past its peak in the US. Recent market pricing for interest-rate cuts in the US later this year appears justified, and we think there is scope for further cuts to be discounted. Risks to this view include continued tightness in the US labour market. If wage growth does not slow significantly, the Fed may continue to raise rates. In Europe and the UK, meanwhile, lower energy prices are resulting in greater consumer confidence, which should in turn feed through to increased corporate confidence. Savings built up over the pandemic have not been drawn down to the same extent as they have in the US, further improving the relative strength of UK and European consumers. If inflation continues to slow, and the focus on rate hikes recedes, the economic outlook for both regions should continue to improve over 2023.

Globally, China's zero-Covid policy was a persistent headwind in 2022. Now that it has been abandoned, the supply-chain issues that have been a key source of inflation and margin compression around the world should continue to ease. The relaxation of restrictions should also provide a boost for global corporate earnings. Certain companies within Asia and Europe are likely to be the biggest beneficiaries given the significant Chinese demand for semiconductors and luxury goods.

A steady stream of brighter economic data is increasingly pointing to a 'soft landing' in the US, eurozone and UK, implying a milder earnings contraction than previously feared. Recessions in major economies remain possible this year, with downside risks stemming from the danger that wage inflation keeps central banks overly hawkish. Upside risks include the possibility that prior monetary tightening and lower energy prices, respectively, have a greater effect on bringing down inflation and lifting consumer confidence than currently envisaged.

Overall, we feel there is still value in select risk assets, especially the shares and bonds of those companies with relatively defensive cashflows.

The Board of Directors

June 20, 2023

Past performance is not a guide to future performance. The value of investments and any income from them may go down as well as up.

Audit report

To the Shareholders of
Threadneedle (Lux)

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Threadneedle (Lux) (the “Fund”) and of each of its sub-funds as at 31 March 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the aggregated statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 March 2023;
- the aggregated statement of operations and changes in net assets for the Fund and the statement of operations and changes in net assets for each of the sub-funds for the year then ended;
- the portfolio statement as at 31 March 2023; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the financial statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;

- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Threadneedle (Lux) - Euro Dynamic Real Return Portfolio, Threadneedle (Lux) - Emerging Market ESG Equities Portfolio and Threadneedle (Lux) - American Absolute Alpha Portfolio where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

1 GENERAL

Threadneedle (Lux) (the "SICAV") is an investment company with variable capital (*Société d'Investissement à Capital Variable*) governed by Part I of the law of December 17, 2010, relating to Undertakings for Collective Investment, as amended.

The SICAV offers investors the opportunity to invest in separate Portfolios (the "Portfolios"). Each Portfolio has a different investment objective and is a separate portfolio of assets represented by separate Shares. Each Portfolio may have one or more Classes of Shares (the "Share Classes") related to it. The SICAV as a whole, including all of the existing Portfolios and all future Portfolios, is one legal entity. However, with regard to third parties and, in particular, with regard to the SICAV's creditors and as between Shareholders, each Portfolio shall be exclusively responsible for all liabilities attributable to it.

Significant events during the year:

New Prospectuses

New Prospectuses have been issued in July 2022 and January 2023.

Reduction in Fees and Expenses

As from August 1, 2022 the Asset Management fees and the Operating Expenses fees have been reduced on some Share Classes of several Portfolios as disclosed in Note 5.

Closing of Portfolio

With effect from May 21, 2021 the Threadneedle (Lux) – STANLIB Africa Equity Portfolio was in liquidation and the final redemption has been paid on January 23, 2023.

Launching of Share Classes

The following Share Classes were launched during the year ended March 31, 2023:

Share Class	Portfolio	Effective Date
ASH	Threadneedle (Lux) - Global Focus	April 27, 2022
ASH	Threadneedle (Lux) - American Smaller Companies	April 27, 2022

The following Share Classes were closed during the year ended March 31, 2023:

AEP	Threadneedle (Lux) - Euro Dynamic Real Return	March 23, 2023
IE	Threadneedle (Lux) - Euro Dynamic Real Return	March 27, 2023
IEP	Threadneedle (Lux) - Euro Dynamic Real Return	March 23, 2023
LE	Threadneedle (Lux) - Euro Dynamic Real Return	March 28, 2023
LEP	Threadneedle (Lux) - Euro Dynamic Real Return	March 23, 2023
ZE	Threadneedle (Lux) - Euro Dynamic Real Return	March 23, 2023
ZEP	Threadneedle (Lux) - Euro Dynamic Real Return	March 23, 2023

As at March 31, 2023 the active Portfolios of the SICAV are as follows:

The Bond Portfolios:

- Threadneedle (Lux) - Global Corporate Bond
- Threadneedle (Lux) - European Corporate Bond
- Threadneedle (Lux) - European High Yield Bond
- Threadneedle (Lux) - European Short-Term High Yield Bond
- Threadneedle (Lux) - European Social Bond

- Threadneedle (Lux) - Enhanced Commodities

¹As at March 31, 2023, these Portfolios have been authorised by the Securities and Futures Commission in Hong Kong and are available to the public of Hong Kong.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared and presented in accordance with generally accepted accounting principles applicable to UCITS (Undertakings for Collective Investments in Transferable Securities) investment funds in Luxembourg and require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The financial statements are presented on the basis of the Net Asset Value of the Portfolios which are calculated as of March 31, 2023. The last official trading Net Asset Value of the corresponding Portfolios has been calculated as of March 31, 2023.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting except for the Threadneedle (Lux) - STANLIB Africa Equity Portfolio, which was put into liquidation on May 21, 2021 and for which the final redemption occurred on January 23, 2023, for the Threadneedle (Lux) - Euro Dynamic Real Return Portfolio, which was put into liquidation on April 28, 2023 and for Threadneedle (Lux) - Emerging Market ESG Equities Portfolio and the Threadneedle (Lux) - American Absolute Alpha Portfolio which were put into liquidation on July 13, 2023. As such, the financial statements for those Portfolios have been prepared on a non-going concern basis and any additional costs in respect of the termination of those Portfolios will be borne by the Management Company.

Notes to the Financial Statements

(continued)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

I) Valuation of securities

Transferable securities, money market instruments and any financial assets listed or dealt in on a regulated market are valued at their last exchange price in the relevant market at the time of closure of the market. If such prices are not representative of their fair market value, such securities are stated at the fair value at which it is expected they may be resold, as determined in good faith by or under the direction of the Board of Directors.

Fixed income securities not traded on such markets are valued at the last available price or yield equivalents obtained from one or more dealers or pricing services approved by the Board of Directors, or any other price deemed appropriate by the Board of Directors.

Money Market Instruments (or other instruments in line with market convention in the jurisdiction in which the instrument is held) with a remaining maturity of 90 days or less will be valued by the amortised cost method, which approximates market value. Under this valuation method, the relevant Portfolio's investments are valued at their acquisition cost or the last market value prior to the 90 day period commencing (where an instrument at purchase date originally had more than 90 days to maturity) and adjusted for amortisation of premium or accretion of discount rather than at market value.

Units or shares of open-ended undertakings for collective investments ("UCIs") are valued at their last determined and available net asset value (the "Net Asset Value") or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the SICAV, on a fair and equitable basis. Units or shares of closed-ended UCIs are valued at their last available stock market value.

The directors of the SICAV (the "Directors"), in their discretion, may permit some other method of valuation to be used if they consider that such valuation better reflects the fair value of any asset of the SICAV.

II) Forward Currency Exchange Contracts

For the purpose of hedging against specific currency risk or investing in other currencies, the SICAV may enter into forward currency exchange contracts. At the year-end, open forward currency exchange contracts are valued at the forward rates applicable for the remaining period until maturity. The net movement in the unrealised gain/(loss) arising on forward currency exchange contracts is recorded in the Statement of Operations and Changes in Net Assets. The contracts outstanding as at March 31, 2023 are disclosed in Note 9.

III) Futures Contracts

The SICAV may enter into futures exchange contracts. Open futures contracts are valued at the prices on the exchange for which the contracts are traded on. The net movement in the unrealised gain/(loss) arising on futures contracts is recorded in the Statement of Operations and Changes in Net Assets. The contracts outstanding as at March 31, 2023 are disclosed in Note 11.

IV) Swaps

The SICAV may enter into Interest Rate Swaps ("IRS"), Credit Default Swaps ("CDS") and Total Return Swaps ("TRS"). IRS are valued on the basis of their market value established by reference to the applicable interest rate curve. CDS are valued by reference to the net present value of the expected future cash flows based on the market interest rates and the markets expected default and recovery rate of the underlying asset. An upfront payment, if any, made by the SICAV is recorded as an asset in the Statement of Net Assets. An upfront payment, if any, received by the SICAV is recorded as a liability in the Statement of Net Assets. TRS are valued by reference to the mark to market value based on the market value of the underlying asset. The net movement in the unrealised gain or loss arising on swaps is recorded in the Statement of Operations and Changes in Net Assets. The contracts outstanding as at March 31, 2023 are disclosed in Note 10. Dividends payable on swaps short positions, if any, are recorded as a liability in the Statement of Net Assets.

V) Options

Options traded on a regulated market are valued at the market price on the valuation date. Such options open as at March 31, 2023 are shown in the Schedule of Investments. Over-the-counter ("OTC") options are valued based on prices received from third party pricing agents/models. Such options open as at March 31, 2023 are shown in Note 12. Unrealised gains or losses arising at the time of reporting from the valuation of options trades are taken into account in the Statement of Operations and Changes in Net Assets.

VI) Translation of currencies

The accounts of each Portfolio are kept in the currency in which its net assets are expressed. The relevant Statement of Net Assets, Statement of Operations and Changes in Net Assets and the Schedule of Investments are expressed in this currency (the "base currency").

During the year, transactions, income and expenses denominated in a currency other than the base currency are recorded on the basis of exchange rates prevailing on the date they occur or accrue to the Portfolio.

At the date of the Statement of Net Assets, monetary assets and liabilities denominated in a currency other than the base currency are translated into the base currency on the basis of exchange rates prevailing on that date. Exchange differences are included in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements

(continued)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(continued)

The aggregated Statement of Net Assets and Statement of Operations and Changes in Net Assets are presented in USD based on the exchange rates ruling at the date of the Statement of Net Assets. Exchange rates used as at March 31, 2023 are: 1 USD = 1.493094 AUD, 1 USD = 0.920429 EUR, 1 USD = 0.808767 GBP, 1 USD = 0.913550 CHF, 1 USD = 10.369572 SEK, 1 USD = 6.856547 DKK, 1 USD = 10.473069 NOK, 1 USD = 7.849971 HKD, 1 USD = 1.329550 SGD.

The difference between the opening net assets stated at exchange rates ruling at the beginning of the year and their value at the end of the year is shown as a currency translation adjustment in the Aggregated Statement of Operations and Changes in Net Assets under the heading Exchange differences.

VII) Cash at bank

The cash at bank reflected in the Statements of Net Assets includes also the margins on futures contracts and cash collateral paid by the Portfolios for swaps transactions and forward currency exchange contracts.

Cash and margins on futures contracts are valued at cost, which approximates the market value.

VIII) Term deposits

Term deposits are valued at cost, which approximates the market value.

IX) Investment transactions and investment income

Securities are recorded at cost, and where applicable on the basis of exchange rates prevailing on the date they are purchased.

Results on sales of securities are determined on the basis of the average cost method. Investment transactions are accounted for on the trade date. Dividends are accounted for on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts/Premium on zero coupon bonds are accreted as adjustments to interest income.

Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

X) Distribution policy

The policy of the SICAV in respect of all Share Classes of Portfolios, with the exception of Classes whose denomination ends in 'C', 'M', 'P' or 'T', is to make no distributions, to accumulate in such Portfolios all net earnings and to reinvest these within the same Portfolio and Class. In respect of Classes whose denomination ends in 'C', 'M', 'P' or 'T', the SICAV intends to make distributions, with a frequency, at least annually, and in an amount to be determined by the Directors. The Shareholders of these Share Classes have the option to receive the dividend or to reinvest it in the same Share Class.

XI) Asset management fee rebates

Cross investments and investments in other Columbia Threadneedle funds are either made in non-fee paying Share Classes or any management fee paid is fully rebated. Please also refer to note 18 for details on cross investments.

3 TAXATION

Under current laws and practice, the SICAV is not liable to any Luxembourg income tax, or any Luxembourg capital gains on the realised capital appreciation of the assets of the SICAV nor are dividends paid by the SICAV liable to any Luxembourg withholding tax.

Under the prevailing law and regulations, the SICAV is subject, in the Grand Duchy of Luxembourg, to an annual subscription tax ("*taxe d'abonnement*") of 0.05%, payable on a quarterly basis and assessed on its Net Asset Value at the end of each quarter. No tax is due on the assets held by the SICAV in other UCITS already subject to that tax in Luxembourg.

In respect of the Institutional Share Classes, a reduced annual subscription tax of 0.01% is levied on the Net Asset Value at the last day of each calendar quarter in accordance with the law of December 17, 2010, as amended.

In addition, those portfolios whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions are also subject to a reduced tax of 0.01%. Again, no such tax is due on the portion of the assets of the SICAV invested in other Luxembourg UCITS, if any.

For the avoidance of doubt, this *taxe d'abonnement* forms part of the SICAVs Operating Expenses.

Although the SICAV's realised capital gains are not taxable in Luxembourg, whether short-or-long term, these realised capital gains may be subject to tax in the countries of origin.

4 MISCELLANEOUS FEES

The miscellaneous fees are mainly composed of penalties due under the Central Securities Depositories Regulation and compensation to investors negatively impacted by a NAV error.

Notes to the Financial Statements

(continued)

5 RELATED PARTY TRANSACTIONS

The SICAV may, on behalf of the different Portfolios, enter into borrowing arrangements (subject to the restrictions set out under “Investment Restrictions” in Appendix A of the Prospectus) with, and buy from or sell transferable securities, foreign exchange or other financial instruments through Threadneedle Asset Management Limited (“TAML”), a related entity and its affiliates, provided that such transactions are carried out at normal commercial terms and are in the best interests of the relevant Portfolio and its Shareholders.

For the year ending March 31, 2023, the SICAV did not enter into transactions with connected persons.

The SICAV has appointed Threadneedle Management Luxembourg S.A. (the “Management Company”) to serve as its designated Management Company in accordance with Chapter 15 of the law of December 17, 2010, as amended. Under the Management Company Services Agreement, the Management Company provides investment management, administrative and marketing services to the SICAV, subject to the overall supervision and control of the Board of Directors.

Neither the Management Company nor TAML earned commissions related to brokerage transactions.

Certain officers and/or directors of the Management Company, the SICAV and other Columbia Threadneedle Group entities are also officers and/or directors of TAML.

The Management Company (on behalf of the SICAV) has delegated certain marketing and/or distribution functions to other Columbia Threadneedle Group entities. The Management Company receives a monthly fee for asset management services at an annual rate detailed in this note, expressed as a percentage of the average daily net assets for each of the Portfolios. The Management Company is responsible for paying sub-distribution fees out of this fee. Some of the sub-advisors are related entities.

As described in Note 8, the Management Company may also receive performance fees with respect to all A, D, I and Z Shares of the Threadneedle (Lux) - American Absolute Alpha Portfolio, with respect to all J and Y Shares of the Threadneedle (Lux) - Global Investment Grade Credit Opportunities Portfolio and with respect to all A, D, I, L and Z Shares of the Threadneedle (Lux) - Pan European Absolute Alpha Portfolio.

All expenses incurred in the operation of the SICAV and defined below (hereafter the “Operating Expenses”, “Asset Management Fee” or “Portfolio Charges”, together, the “Expenses”) are fixed at the rates shown in the tables from page 233 onwards. All expenses are accrued daily based on the Net Asset Value of the relevant Share Class in the relevant Portfolio.

The Operating Expenses include, among other things, taxes, expenses for legal and auditing services, costs of printing proxies, stock certificates, Shareholders’ reports and notices, Prospectuses and Key Investor Information and other promotional expenses, fees and charges of the Depositary and its correspondents, and of the Domiciliary Agent, Administrative Agent, Registrar and Transfer Agent and of any paying agent, expenses of the issue and redemption of Shares, registration fees and expenses in various jurisdictions, listing fees, fees of unaffiliated Directors of the SICAV, expenses of the Directors and officers of the SICAV and the Sub-Advisors relating to attendance at meetings of the Directors and of the Shareholders of the SICAV, translation costs, accounting and pricing costs (including the calculation of Net Asset Value per Share), insurance, litigation and other extraordinary or non-recurring expenses, and all other expenses properly payable by the SICAV. The Operating Expenses also include the service fee payable to the Management Company. The Management Company will bear the excess of any Operating Expenses above the annual rate. Conversely the Management Company will be entitled to retain any amount by which the annual rate of Operating Expenses exceeds the actual expenses incurred by the SICAV.

Furthermore, the Management Company is entitled to receive an asset management fee (the “Asset Management Fee”) as more fully described in the tables from page 233 onwards which are accrued daily and paid monthly. An Asset Management Fee is not payable for X Shares and 4 Shares. For the avoidance of doubt, Operating Expenses do not include either Asset Management Fees or performance fees which are separate and distinct.

The SICAV offers B Shares on the Threadneedle (Lux) - Global Technology Portfolio.

Those B Shares are a legacy Share Class available only for further subscription by existing Shareholders and bear no initial sales charge.

A SHARES:

Portfolio (s)	Initial Sales Charge as a % of the amount invested	Exchange Fee
Bond Portfolios	Maximum 3.0%	Maximum 0.75%
Equity Portfolios and Asset Allocation Portfolios	Maximum 5.0%	Maximum 0.75%
Absolute Return Portfolios	Maximum 5.0%	Maximum 0.75%
Extended Alpha Portfolios	Maximum 5.0%	Maximum 0.75%
Specialist Portfolio	Maximum 5.0%	Maximum 0.75%

Sales charges are maximums, which distributors or sub-distributors are allowed to waive in whole or in part, depending on the size of the subscription or upon local market considerations.

6 COMMISSION SHARING ARRANGEMENTS

The Management Company and certain Sub-Advisors may enter into commission sharing arrangements with broker-dealers under which certain business services are obtained from such broker-dealers directly or from third parties and are paid for by the broker-dealers out of the commissions they receive on transactions for the SICAV. Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the SICAV may be specifically allocated by the Management Company or each relevant Sub-Advisor to broker-dealers in consideration of any research services rendered as well as for services rendered in the execution of orders by such broker-dealers. Additional information on each Sub-Advisor's practices with respect to commission sharing arrangements is detailed in the section of the Prospectus with the heading "Investment Advisory Arrangements".

Any commission sharing arrangement entered into by the Management company or a Sub-Advisor will operate under the following conditions: (i) the Management Company or the Sub-Advisor will act at all times in the best interest of the SICAV and of its Shareholders when entering into commission sharing arrangements; (ii) the services provided will be in direct relationship to the activities of the Management Company or Sub-Advisor; (iii) brokerage commissions on portfolio transactions for the SICAV will be allocated by the Management Company or the Sub-Advisor to broker-dealers that are entities and not to individuals; (iv) commission sharing arrangements are not a determining factor in the selection of the broker-dealers; (v) the Management Company or the Sub-Advisor will provide reports to the Directors with respect to commission sharing arrangements including the nature of the services it receives; (vi) neither the Management Company, the Sub-Advisor nor any of their connected persons may retain cash or other rebates from broker-dealers; (vii) the goods or services received are of demonstrable benefit to the Shareholders.; and (viii) periodic disclosure will be made in the SICAV's annual report in the form of statement describing any such commission sharing arrangements, including a description of the goods and services received. The goods and services received may include: research that can add value to a Sub-Advisor's decision making process and execution services that enhance the Sub-Advisor's ability to execute transactions.

Only the Sub-Advisor Columbia Management Investment Advisors, LLC may enter into commission sharing arrangements.

7 DIVIDENDS

The SICAV declared the following dividends during the year ended March 31, 2023:

8 PERFORMANCE FEES

The Management Company shall receive a performance fee as set forth below with respect to the Share Classes of the Portfolios listed in the table below. Daily provisions shall be set up for the accrual of the performance fee in respect of the performance fee balance (as described below), whereby the amount accrued shall be paid to the Management Company at the end of each calendar year (i.e. December 31). The Management Company is responsible for paying all or part of the performance fee to the Sub-Advisors in accordance with their Sub-Advisory agreement. The amount of this performance fee depends on the performance of the Net Asset Value of the relevant Share Class within the relevant Portfolio compared to the performance of the relevant performance index (the "Performance Index", as per the table below). The Performance Index is subject to a minimum rate of return, to ensure that the Portfolios must deliver a minimum positive rate of return for a performance fee to be paid, in the event that the underlying benchmark return is negative. Accruals will only be made when the performance fee balance is positive and the NAV High Water Mark (defined below) is exceeded.

The performance reference period for each Share Class is the whole life of the Share Class, i.e. from launch until termination.

For the avoidance of doubt, performance of Share Classes includes dividends paid.

Portfolio	Share Classes	Performance Index	Performance Rate
Threadneedle (Lux) - American Absolute Alpha	A Shares D Shares I Shares Z Shares	Higher of 90-day Average Secured Overnight Financing Rate (SOFR) plus 1.75%, subject to a minimum of 1.50%	20%
Threadneedle (Lux) - Global Investment Grade Credit Opportunities	J Shares Y Shares	Higher of Compounded euro short-term rate (€STR) average rate, 1 month tenor plus 1.00%, subject to a minimum of 1.00%	10%
Threadneedle (Lux) - Pan European Absolute Alpha	A Shares D Shares I Shares L Shares Z Shares	Higher of 3 month Euro Interbank Offered Rate (EURIBOR) ¹ plus 1.50%, subject to a minimum of 1.50%	20%

¹ The benchmark is provided by the European Money Markets Institute, an administrator included in the ESMA register of benchmark administrators. The Management Company maintains a written plan setting out the actions that will be taken in the event of the benchmark materially changing or ceasing to be provided.

The performance of the Threadneedle (Lux) - American Absolute Alpha Portfolio, the Threadneedle (Lux) - Global Investment Grade Credit Opportunities Portfolio and the Threadneedle (Lux) - Pan European Absolute Alpha Portfolio, including the impact of all applicable fees, is compared to the Performance Index.

NAV High Water Mark: in respect of each Share Class, is the Net Asset Value of a Share of such Share Class as at the last Valuation Date of the last relevant calendar year in which any accrued performance fee was paid. If a performance fee has never been paid, the NAV High Water Mark is the inception price of the relevant Share Class. The NAV High Water Mark can only be increased, and cannot be decreased under any circumstances.

The performance fee balance shall be calculated on the difference between the performance of the Performance Index and the performance of the Share Class concerned (the "Daily Difference"):

- (i) in the event the Daily Difference is positive, the performance fee balance will increase by an amount in respect of the Daily Difference, at the relevant performance rate;
- (ii) if the Daily Difference is negative, the performance fee balance will be reduced by an amount in respect of the Daily Difference, at the relevant performance rate.

If the performance fee balance is positive at the end of the calendar year, i.e. December 31, and the NAV High Water Mark has been exceeded, the accrued amount of the performance fee will be paid to the Management Company within the first quarter of the subsequent calendar year. A performance fee shall only be paid to the Management Company if the Net Asset Value of the relevant Share Class exceeds the NAV High Water Mark and the performance fee balance is positive.

If at the end of the calendar year the performance fee balance is negative and the NAV High Water Mark has not been exceeded, such negative amount will be carried forward and the Management Company shall not receive the payment of a performance fee until the amount of the accrued performance fee balance is positive and the NAV High Water Mark has been exceeded, at any subsequent calendar year's end.

If at the end of the calendar year the performance fee balance is negative and the NAV High Water Mark has been exceeded, such negative amount will be carried forward and the Management Company shall not receive the payment of a performance fee until the amount of the accrued performance fee balance is positive and the NAV High Water Mark has been exceeded, at any subsequent calendar year's end.

Notes to the Financial Statements

(continued)

8 PERFORMANCE FEES

(continued)

In the event that a Portfolio or a Share Class is liquidated or a Portfolio or Share Class becomes dormant, any outstanding performance fee accrual shall be realised and payable to the Management Company. Thereafter, when new Shareholders have invested in such a Portfolio or Share Class, the performance fee balance will be reset.

There is no maximum value on the performance fee that could be taken.

For the year ended on March 31, 2023, no performance fees have been paid.

9 NET UNREALISED GAIN/(LOSS) ON FORWARD CURRENCY EXCHANGE CONTRACTS

As at March 31, 2023, the SICAV has the following forward currency exchange contracts outstanding:

							USD (377,061)	(0.35)

*The commitment on short call positions is unlimited.

13 POOLING

The SICAV may invest and manage all or any part of the assets established for two or more Portfolios ("Participating Portfolios") on a pooled basis. Any such asset pool shall be formed by transferring to it cash or other assets (subject to such assets being appropriate in respect of the investment policy of the pool concerned) from each of the Participating Portfolios.

The share of a Participating Portfolio in an asset pool shall be measured by reference to notional units of equal value in the asset pool.

As at March 31, 2023 the SICAV had no pooling of assets, however the Threadneedle (Lux) - Global Dynamic Real Return Portfolio, for investment management purposes, is split by asset class into multiple baskets solely held by itself.

Notes to the Financial Statements

(continued)

14 CHANGES IN PORTFOLIO STATEMENTS COMPOSITION

Changes in the Portfolio Statements are available to Shareholders upon request and free of charge at the registered office of the SICAV.

15 DILUTION ADJUSTMENT

The Portfolios may suffer reduction of the Net Asset Value per Share due to dealing spreads, transaction costs and tax charges that arise when purchases and sales of underlying investments are undertaken by the Sub-Advisor to accommodate cash inflows and outflows; this is known as “dilution”. A dilution adjustment may be applied to protect the Shareholders of the Portfolios by countering the impact of dilution (the “Dilution Adjustment”). If the net capital activity (including subscriptions, redemptions and conversions into a given Portfolio) on a given Valuation Date exceeds the threshold set by the Management Company from time to time for that Portfolio, the Net Asset Value of the Portfolio may be adjusted upwards or downwards to reflect the net inflows and net outflows respectively.

The Net Asset Value per Share of each Share Class in the Portfolio is calculated separately but any Dilution Adjustment will have an identical effect on the Net Asset Value per Share of each Share Class of the Portfolio. The amount of Dilution Adjustment will be set by the Management Company to reflect the estimated dealing spreads, transaction costs and tax charges that may be incurred by the Portfolio; these costs can vary with market conditions and the portfolio composition. The Dilution Adjustment may therefore be amended from time to time. Such Dilution Adjustments may vary from Portfolio to Portfolio and between daily net inflows and outflows but will not exceed 2% of the original Net Asset Value per Share). A periodic review is undertaken in order to verify the appropriateness of the Dilution Adjustments being applied. In the usual course of business the application of Dilution Adjustment will be triggered mechanically and on a consistent basis, however the Management Company reserves the right to make a discretionary Dilution Adjustment if, in its opinion, it is in the interests of existing Shareholders to do so, including in the event of exceptional circumstances. Such exceptional circumstances include, but are not limited to, periods of elevated market volatility, and periods of depressed market liquidity.

The Dilution Adjustment may be applied across all Portfolios with the exception of the Threadneedle (Lux) - Enhanced Commodities Portfolio.

Estimates of the amount of Dilution Adjustment based on securities held in each Portfolio and market conditions at the time of the Prospectus dated January 2023 is published on the website www.columbiathreadneedle.com.

As at March 31, 2023, the following Dilution Adjustment has been applied:

Portfolio	NAV before Dilution	Dilution Adjustment	NAV after Dilution
Threadneedle (Lux) - American Absolute Alpha	19,637,404	(7,855)	19,629,549
Threadneedle (Lux) - Credit Opportunities	431,287,517	(2,673,983)	428,613,534

16 TRANSACTION COSTS

For the reporting year, the SICAV incurred transaction costs relating to purchase or sale of transferable securities or money market instruments as follows:

Portfolios	Currency	Transaction Costs
Threadneedle (Lux) - Global Corporate Bond ¹	USD	n/a
Threadneedle (Lux) - European Corporate Bond ¹	EUR	n/a

Threadneedle (Lux) - UK Equity Income	GBP	308,630
Threadneedle (Lux) - STANLIB Africa Equity ²	USD	n/a
Threadneedle (Lux) - American Absolute Alpha	USD	23,713
Threadneedle (Lux) - Credit Opportunities ¹	EUR	n/a
Threadneedle (Lux) - Global Investment Grade Credit Opportunities ¹	EUR	n/a
Threadneedle (Lux) - Pan European Absolute Alpha	EUR	322,208
Threadneedle (Lux) - American Extended Alpha	USD	43,830
Threadneedle (Lux) - Global Extended Alpha	USD	76,183
Threadneedle (Lux) - Enhanced Commodities	USD	2,726

Transaction costs are included in the total cost of investment disclosed in the Portfolio Statements. The amount of transaction costs supported by the SICAV during the reporting year is included in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on sales of investments" and "Change in net unrealised gain/(loss) on investments".

¹For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

²See note 1.

18 CROSS INVESTMENT IN PORTFOLIOS

(continued)

As at March 31, 2023, the Threadneedle (Lux) - Global Dynamic Real Return Portfolio invests in shares of the following Portfolios:

Cross Investment Portfolio	Currency	Market Value	% of Net Assets in Base Currency of the Cross Investment Portfolio
Threadneedle (Lux) - Enhanced Commodities Portfolio	USD	1,885,062	0.95

The impact of the cross investment transactions has been eliminated from the aggregated Statement of Net Assets and the Statement of Changes in Net Assets.

Please also refer to note 2 xi) on asset management fee rebates.

19 TERM DEPOSITS

The table below provides the term deposits amounts held by the SICAV as at March 31, 2023:

Portfolios	Counterparty	Currency	Term deposit amount (in the portfolio base currency)
Threadneedle (Lux) - Flexible Asian Bond	Sumitomo Bank Ltd London	USD	1,817,561
	Mitsubishi UFJ Securities	USD	1,829,249
	Total	USD	3,646,810
Threadneedle (Lux) - Global Dynamic Real Return	Rabobank Nederland	USD	642,605
	Mitsubishi UFJ Securities	USD	768,696
	Total	USD	1,411,301
Threadneedle (Lux) - American Select	Mitsubishi UFJ Securities	USD	5,001,325
	Total	USD	5,001,325
Threadneedle (Lux) - Global Extended Alpha	Mitsubishi UFJ Securities	USD	2,337,322
	ANZ Banking Group Ltd	USD	2,577,998
	Total	USD	4,915,320

20 OTHER ASSETS

Other assets might include any fair value adjustment applied when certain markets were closed at year-end to avoid market timing, based on the fund level pricing procedure in place.

Other assets might also include any withholding tax and/or foreign taxes.

Notes to the Financial Statements

(continued)

21 TOTAL EXPENSE RATIO (TER)

The Total Expense Ratio is calculated following the Asset Management Association Switzerland (AMAS) guideline.

The formula applied is the following:

The TER expresses the sum of all costs and commissions charged on an ongoing basis to each class of shares (Operating Expenses) taken retrospectively as a percentage of their net assets, and is calculated using the following formula:

$$\text{TER \%} = \frac{\text{Total Operating Expenses}}{\text{Average net assets}} \times 100$$

Where a fund invests more than 10% in other collective investment schemes (target funds), the calculation includes the fund's share of the expenses of the target funds less any rebates received.

The Total Expense Ratios for the year ended March 31, 2023 are as follows:

Portfolio	Class	TER	Comments
Threadneedle (Lux) - Global Corporate Bond	AEC	0.80%	
	AEH	0.80%	
	AKH	0.71%	The current TER differs from the full year expected TER due to the small size of the class.

22 SUBSEQUENT EVENT

With effect from April 28, 2023 the Threadneedle (Lux) - Euro Dynamic Real Return Portfolio was put into liquidation.

With effect from July 13, 2023 the Threadneedle (Lux) - Emerging Market ESG Equities Portfolio and the Threadneedle (Lux) - American Absolute Alpha Portfolio were put into liquidation.

23 OTHER INFORMATION

The large-scale invasion of Ukraine by Russia in February 2022 has resulted in sanctions and market disruptions, including declines in regional and global stock markets, unusual volatility in global commodity markets and significant devaluations of Russian currency. The extent and duration of the military action are impossible to predict but could be significant. Market disruption caused by the Russian military action, and any counter measures or responses thereto (including international sanctions, a downgrade in a country's credit rating, purchasing and financing restrictions, boycotts, tariffs, changes in consumer or purchaser preferences, cyberattacks and espionage) could have severe adverse impacts on regional and/or global securities and commodities markets, including markets for oil and natural gas. These impacts may include reduced market liquidity, distress in credit markets, further disruption of global supply chains, increased risk of inflation, and limited access to investments in certain international markets and/or issuers. These developments and other related events could negatively impact Portfolios' performance.

The SFDR periodic disclosures for financial products referred to in Article 8(1) of Regulation (EU) 2019/2088 and Article 6 of Regulation (EU) 2020/852 is in the unaudited Annex attached.

Global Risk Exposure (unaudited)

Global Exposure and Leverage

The UCITS global exposure is managed under a commitment approach, an absolute Value at Risk (absolute VaR) approach or a relative Value at Risk (relative VaR) approach.

The global market risk exposure information for the year ended March 31, 2023 is as follows:

Commitment approach

In order to monitor and measure the global exposure, all the portfolios which are not under in the VaR approach use the commitment approach.

The global exposure of the sub-funds is calculated based on the commitment approach in accordance with the methodology described in the ESMA's guidelines 10-788.

Using the period April 2022 - March 2023:

Sub Funds Using VaR Basis	Calculation Method*	VaR Model*	Reference Portfolio	VaR Internal Guidelines (%)	VaR Legal and Contractual Limit (%)	1-year Rolling				
						Lowest Utilisation of VaR Limit	Highest Utilisation of VaR Limit	Average Utilisation of VaR Limit	Average Commitment Exposure	Average Sum of notionals

*Calculation method. The VaR model is based on a 99% Confidence interval over a 1-month holding period. The covariance model uses 2 years of data, weighted with a 6 month half-life, and is updated daily. The historical method uses 1 year of daily data.

Shareholders' Information (unaudited)

The SICAV is an investment company organised as a “*Société d'Investissement à Capital Variable*” in the Grand Duchy of Luxembourg under the Law of August 10, 1915, as amended, and qualifies as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) under Part I of the law of December 17, 2010, as amended.

The SICAV was incorporated on February 10, 1995 for an unlimited period. The SICAV's articles of incorporation were first published in the *Recueil des Sociétés et Associations* of the Grand Duchy of Luxembourg on March 31, 1995 and were last amended effective on September 14, 2018.

The SICAV is registered under the Number R.C.S. Luxembourg B-50216.

The annual general meeting of Shareholders of the SICAV is held in Luxembourg as may be specified in the notice of meeting, within six months of the accounting year end. The annual general meeting may be held abroad if, in the absolute and final judgment of the Board, exceptional circumstances so require. Other meetings of Shareholders may be held at such place and period of notice as may be specified in the respective notices of meeting. Notices of general meetings are given in accordance with Luxembourg law and in accordance with applicable rules in the relevant countries where Shares are publicly offered for sale. Notices will specify the place and time of the meeting, the conditions of admission, the agenda, the quorum and voting requirements.

The accounting year of the SICAV terminates on March 31 in each year.

The annual report and audited financial statements and the unaudited semi-annual report are available at the registered office of the SICAV and at the principal office of each paying agent and distributor. The combined accounts of the SICAV are expressed in U.S. Dollars.

The Net Asset Value and the offer and redemption prices of the shares of the SICAV are made public at the registered office of the SICAV.

This report does not constitute an offer or a solicitation of an offer to buy shares in the SICAV. Subscriptions are accepted on the basis of the Prospectus and of the latest available annual report containing the audited financial statements as at March 31 and of the latest available semi-annual report as at September 30, if published thereafter.

Certain Portfolios and/or Share Classes contained within this report may not be authorised or offered for sale in every jurisdiction at this time.

Key Investor Information Document (“KIID”) / Key Information Document (“KID”) - Subscription requirements

The KIID / KID is a pre-contractual document and investors will have to confirm that they have read the latest KIID / KID before making a subscription. The Management Company has the right to reject a subscription if the investor does not confirm that they have read the latest KIID / KID at the time of application. The latest KIID / KID may be obtained from www.columbiathreadneedle.com.

Remuneration Disclosures

This disclosure is made in respect of the Group's Remuneration Policy as it applies to Threadneedle Management Luxembourg S.A. (“the Manager”) in respect of the Undertakings for Collective Investment in Transferable Securities (“UCITS”) Directive and other applicable rules and guidance.

The Remuneration Policy applies to all of the Company's subsidiary entities to which the UCITS Directives requirements apply, and was last approved by the Remuneration Committee in June 2022.

1. The Remuneration Committee

The Remuneration Committee of the UK HoldCo (“the Committee”) is a sub-committee of the UK HoldCo Board with the responsibility to establish the philosophy and objectives that will govern the Group's compensation and benefit programmes; review and approve compensation and benefit plans, policies, and practices; and oversee and approve the Group's remuneration. It has been determined to be independent of the day-to-day executive management of the Group, its Members being Directors of the Group who are nominated by Ameriprise Financial, the Group's parent company.

Current Committee Members are Mr Walter Berman and Mr William Turner. Meetings are normally held in January, March, June, September and December. The Global Head of Reward acts as Secretary to the Committee. The Committee may invite the attendance of any Group employee or functional expert from the parent company as deemed appropriate, to allow it to fulfil its responsibilities including ensuring remuneration is consistent with effective risk management and does not encourage excessive risk taking.

2. Determining Incentive Remuneration Pools

The Manager made its annual Total Incentive Award decisions from separate pools covering the Real Estate business, Distribution unit, Investments business and Support functions, ultimately aggregated for governance and oversight at the EMEA regional level. Those pools are determined at the Company's discretion, subject to final oversight and approval from the Remuneration Committee. The pools for Real Estate, Distribution and Investments Special Incentive Plans (the “SIPs”) are determined with reference to four un-weighted factors being a ‘Top-Down’ assessment of market practice, legal and regulatory requirements and any other internal or external contextual factors; a ‘Bottom-Up’ calculation based on business performance against Plan and Target

Shareholders' Information (unaudited)

(continued)

Incentive level for the firm (see 'Pay for Performance' below); the overall financial and strategic performance of the Group; and the financial and strategic performance of Ameriprise Financial as the Group's parent company and shareholder. The funding for support roles forms part of the global 'AIA' plan, with funding to each region and business determined by a comprehensive balanced Business Unit Assessment in context of the overall Ameriprise Financial group's performance. All pools are set in context of the risk and control environment maintained during the year and may be adjusted top-down to reflect any material issues in that regard. The Committee also receives ongoing reports through the year from the Risk function regarding risk assessments and any themes or areas of note related to risk control or risk-related behavioural concerns.

The Committee takes all of these factors into account in order to make a balanced decision on its oversight and approval of the Total Incentive pools for the year in question.

3. Determining Individual Total Incentive Awards

Individual reward decisions under all incentive plans are wholly discretionary, although strongly informed by the annual performance appraisal and by known market remuneration levels for equivalent jobs as well as by the pool funding available. Risk and Compliance provide a critical input to final performance rating setting, ensuring that any risk and relevant behavioural concerns are reflected in performance appraisals and subsequently in remuneration recommendations. The EMEA Heads of Risk and Compliance also report directly to the Remuneration Committee of the award process to ensure that the Committee receives a direct report on which to base its final risk adjustment decisions.

Base salaries are maintained at a market-competitive level in order to ensure that, if required, it is possible to award zero incentive.

Pay for Performance

The bottom-up element of the SIP pool determination process measures team and wider business performance against key business targets for each area of the Group, including longer-term investment performance for the Investments and Real Estate divisions and a mix of gross and net sales for Distribution. Investment performance is assessed against each fund's benchmarks and its risk profile. All such assessments' impacts on the bottom-up calculation are capped, and weighted more heavily to longer time periods, so as not to incentivise managers to take excessive risk in order to deliver higher incentive pools. While the Group and parent company financial and strategic results are important factors in pool determination, the model is set up to ensure that delivery of the business' core goals, including delivering investment performance to its customers, is an explicit and significant driver in pool determination for those divisions.

Individual discretionary awards from the available funding, in context of market-competitive reward levels for the job in question, are driven strongly by each individual's ratings against Goals (objectives) and the Group's behavioural Leadership expectations (our Values), each of which is separately rated on a 5-point scale to ensure the behavioural assessment is given due prominence. Goals focus on the key deliverables for the role that year, in particular on the delivery of investment performance for Investments employees and for the Property division: all employees are also managed against a mandatory Risk Management Goal. Investment performance, where relevant to the role, is assessed against each fund's benchmark and its risk profile.

Ratings are consistency-checked across the business with the input of the EMEA Heads of Risk and Compliance providing input as required to ensure balance and due reflection of risk management. For Sales, Real Estate and Investment incentives there is no pre-determined grid or formula driving awards, which are discretionary in order to be able to account for and reflect all relevant factors.

Delivery of Total Incentives

The Group believes that deferred awards for higher earners and risk takers are a matter of good practice and an important part of aligning key staff's interests with the long-term interests of customers and shareholders. To that end, Total Incentive awards for all employees in the Group may be delivered partly in deferred awards through the Ameriprise Financial Long-Term Incentive Award ("LTIA") programme and, for Code Staff/Identified Staff and those in the Investments division, through a fund deferral programme. Deferrals, and delivery of awards in instruments, will comply with relevant regulatory requirements in force from time to time.

Staff qualifying as Code Staff/Identified Staff and those of a comparable level of seniority are subject to a higher rate of deferral. 50% of the overall incentive award is delivered in fund-linked units subject to a holding period after delivery. The fund linked units are designed to reflect the performance of a cross section of products and asset classes within the region.

4. Identified Staff

Code Staff/Identified Staff are classified as Senior Management, individuals with a material impact on the risk profile of UCITS, individuals within control functions and other employees whose total remuneration takes them in to the same bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages. In practice, this will include the named Fund Managers of the Manager's funds.

Shareholders' Information (unaudited)

(continued)

5. Remuneration Payment Disclosure

The performance period for remuneration operates on a calendar year basis.

Total remuneration paid by the Group to 27 UCITS V Remuneration Code Staff Senior Managers in respect of its UCITS activities in the 2022 performance year was £2.06m, of which £0.85m was fixed and £1.21m was variable. Total remuneration paid to other members of the UCITS Remuneration Code Staff whose actions had a material impact on the risk profile of the Manager was £6.27m, of which £2.66m was fixed and £3.61m was variable. Total Remuneration paid to delegated managers of UCITS regulated funds was £0.99m, of which £0.29m was fixed and £0.70m was variable.

Information for Investors in Switzerland (unaudited)

The annual report and audited financial statements, the unaudited semi-annual report, the report on changes in the Portfolio holdings for the year, the articles of incorporation, the Prospectus (Swiss version) and the KIID / KID can be obtained upon simple request and free of charge at the offices of the Swiss Representative and paying agent of the SICAV, RBC Investor Services Bank S.A., Esch-sur-Alzette, Zurich Branch, Bleicherweg 7, 8027 Zurich, Switzerland, or at the registered office of the SICAV.

Past performance is no indication of current or future performance, and the performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Note: Total performance is historical and is not a guarantee of future results. The net asset value of shares classes may go up or down. Performance is net of all applicable fees as well as distributions made during the calendar year ended December 31, 2022 (but does not reflect a sales charge as stated in the note 5 to the financial statements). The performance is different across share classes depending on applicable asset management and shareholder servicing fees as disclosed in the note 5 to the financial statements. In addition, currency fluctuations may also affect performance depending on the currency of denomination of the share class and the base currency of the Portfolio. The returns are stated in the currency in which the portfolios are denominated.

Securities Financing Transaction Regulation (unaudited)

The Securities Financing Transaction Regulation (“SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and total return swaps. A SFT is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at March 31, 2023, the SICAV held total return swaps (“TRS”) as type of instruments in scope of the SFTR.

Global data

Name of Portfolio	Type of asset	Unrealised gain and loss in the portfolio base currency and in absolute value	% of Net Assets
Threadneedle (Lux) - American Absolute Alpha	TRS	263,301	1.34
Threadneedle (Lux) - Pan European Absolute Alpha	TRS	1,838,347	2.36
Threadneedle (Lux) - American Extended Alpha	TRS	570,509	0.64
Threadneedle (Lux) - Global Extended Alpha	TRS	1,632,152	2.01
Threadneedle (Lux) - Enhanced Commodities	TRS	2,142,039	1.07

Data on collateral reuse

There was no collateral reuse during the year ended March 31, 2023.

Concentration data

All collateral received in respect of TRS as of March 31, 2023 is cash collateral. The ten largest issuers disclosure is therefore not applicable.

The following table provides details of the top ten counterparties (based on gross volume of outstanding transactions) in respect of TRS held per Portfolio as at March 31, 2023:

Name of Portfolio	Type of asset	Counterparty	Unrealised gain and loss in the portfolio base currency and in absolute value
Threadneedle (Lux) - American Absolute Alpha	TRS	UBS	221,525
		Bank of America Merrill Lynch	41,776
Threadneedle (Lux) - Pan European Absolute Alpha	TRS	UBS	1,817,025
		Goldman Sachs	21,322
Threadneedle (Lux) - American Extended Alpha	TRS	UBS	549,776
		Bank of America Merrill Lynch	20,733
Threadneedle (Lux) - Global Extended Alpha	TRS	UBS	1,632,152
		Goldman Sachs	1,086,000
Threadneedle (Lux) - Enhanced Commodities	TRS	Macquarie	532,045
		JPMorgan	523,994

Safekeeping of collateral received

Cash collateral is received on each Portfolio’s cash account at Citibank Europe plc, Luxembourg Branch.

The table below provides the term deposits amounts held by the SICAV as at March 31, 2023:

Name of Portfolio	Type of collateral	Counterparty	Currency of collateral	Amount of collateral
Threadneedle (Lux) - Pan European Absolute Alpha	Cash	UBS	EUR	530,000
		Total	EUR	530,000
Threadneedle (Lux) - American Extended Alpha	Cash	Bank of America Merrill Lynch	USD	50,000
		Total	USD	50,000
Threadneedle (Lux) - Global Extended Alpha	Cash	UBS	USD	830,000
		Total	USD	830,000

Securities Financing Transaction Regulation (unaudited)

(continued)

Name of Portfolio	Type of collateral	Counterparty	Currency of collateral	Amount of collateral
Threadneedle (Lux) - Enhanced Commodities	Cash	Goldman Sachs	USD	1,920,000
		Macquarie	USD	1,070,000
		JPMorgan	USD	2,750,000*
		Total	USD	5,740,000

*This collateral amount may be related to transactions other than TRS which are not covered by SFTR disclosure.

Aggregate transaction data

Name of Portfolio	Type of collateral	Maturity tenor (collateral)	Currency of collateral	Maturity tenor (SFT/TRS)	Country of establishment (counterparty)	Settlement and clearing	Quality of collateral
Threadneedle (Lux) - American Absolute Alpha	Cash	Open maturity	USD	1 day to 1 month / 1 month to 3 months	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - Pan European Absolute Alpha	Cash	Open maturity	EUR	3 months to 1 year / more than 1 year	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - American Extended Alpha	Cash	Open maturity	USD	1 day to 1 month / 1 month to 3 months	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - Global Extended Alpha	Cash	Open maturity	USD	more than 1 year	UK	Bilateral	N/A - Cash
Threadneedle (Lux) - Enhanced Commodities	Cash	Open maturity	USD	1 day to 1 month	UK	Bilateral	N/A - Cash

Safekeeping of collateral granted

Cash and security collateral paid to the counterparties is delivered to segregated accounts at the counterparty.

The amount of collateral granted for TRS as at March 31, 2023 is as follows:

Name of Portfolio	Type of collateral	Counterparty	Currency of collateral	Amount of collateral	% of collateral held at year-end by category
Threadneedle (Lux) - American Absolute Alpha	Cash	UBS	USD	170,000	0.87
		Total	USD	170,000	0.87
Threadneedle (Lux) - American Extended Alpha	Cash	UBS	USD	450,000	0.51
		Total	USD	450,000	0.51

Return/Costs

Return and costs of TRS transactions as at March 31, 2023 are disclosed in the Statement of Operations and Changes in Net Assets of the relevant Portfolio under the headings "Interest expense on swaps", "Net realised gain/(loss) on swaps" and "Change in net unrealised gain/(loss) on swaps".

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) European High Yield Bond Fund

Legal entity identifier: 54930067E3IWWEY1X181

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p style="margin: 0;">●● <input type="checkbox"/> Yes</p> <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p style="margin: 0;">● ● <input checked="" type="checkbox"/> No</p> <p style="margin: 0;"><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p style="margin: 0;"><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding issuers in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding issuers with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and issuers with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● **How did the sustainability indicators perform?**

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the ICE BofA European Currency High Yield Excluding Subordinated Financials Constrained Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.51 and the benchmark rating was 2.74 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in issuers rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principals. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded issuers with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

Issuer Name	Average weight	sector	country
Ford	2.87%	autos	United States
Electricite de France	2.64%	utility	France
Telefonica	2.36%	telecoms	Spain
Telecom Italia	2.08%	telecoms	Italy
Cellnex	1.99%	telecoms	Spain
Virgin Media	1.88%	telecoms	United Kingdom
SFR	1.86%	telecoms	France
Vodafone	1.85%	telecoms	United Kingdom
Iliad	1.83%	telecoms	France
Faurecia	1.77%	autos	France
Deutsche Lufthansa	1.75%	transportation	Germany
Repsol	1.50%	energy	Spain
Iqvia	1.46%	healthcare	United States
Teva	1.40%	pharmaceuticals	Israel
Autostrade per L'Italia	1.33%	transportation	Italy

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

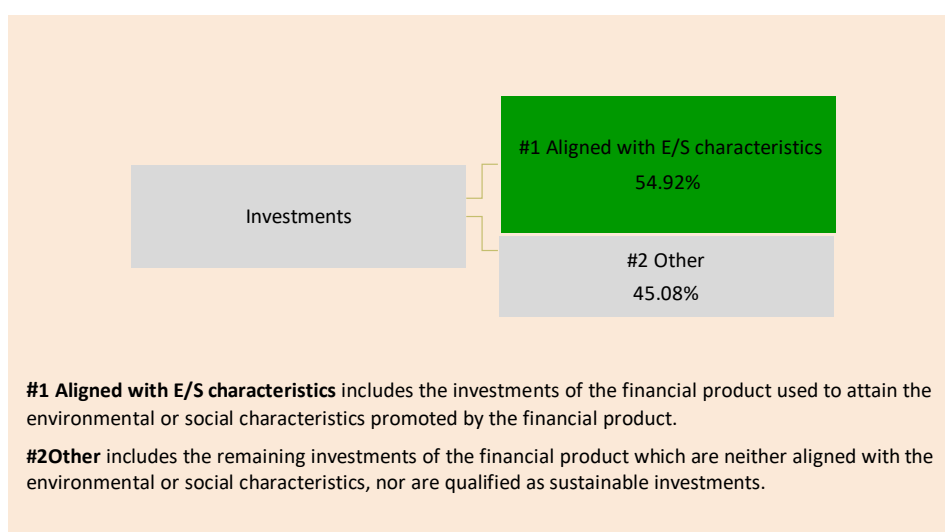

What was the proportion of sustainability-related investments?

- *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

54.92% of the financial product was invested in issuers with an ESG Materiality rating of 1-3 and so were aligned with E/S characteristics.

45.08% of the financial product was invested in: (1) issuers with an ESG Materiality rating of 4 or 5 and so were not aligned with E/S characteristics, (2) issuers not covered by the ESG Materiality model, and (3) cash and derivatives.

● In which economic sectors were the investments made?

Sector	Average weight
Telecommunications	16.05%
Automotive	11.21%
Services	7.94%
Healthcare	7.90%
Basic Industry	6.56%
Leisure	5.91%
Utility	5.14%
Transportation	4.81%
Financial Services	4.42%
Media	3.91%
Retail	3.59%
Banking	3.48%
Capital Goods	3.45%
Energy	3.34%
Real Estate	2.84%
Technology & Electronics	2.43%
Consumer Goods	1.98%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, over the period we engaged with automotive company, Ford, where we discussed the topics of climate strategy, supply chains, and raw material sourcing. The Company was open to our feedback and we encouraged more ambitious scope 3 carbon reduction targets and EU Taxonomy reporting as key areas for improvement as well as emphasising the importance of striving for improved third party ESG ratings.

How did this financial product perform compared to the reference benchmark?

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the ICE BofA European Currency High Yield Excluding Subordinated Financials Constrained index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) European Social Bond

Legal entity identifier: 549300071NVI9LFDKW96

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p>●● <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p>● ● <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The financial product promoted social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Investing in debt securities that are considered to support or fund socially beneficial activities and development.
- Excluding issuers which we determine are in breach of accepted international standards and principles of governance.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Excluding issuers which derive revenue from industries or activities above particular thresholds (such as, but not limited to, tobacco, alcohol, adult entertainment and gambling, thermal coal and nuclear or conventional weapons).

All bonds held within the portfolio met the above criteria over the period under review.

● **How did the sustainability indicators perform?**

The Portfolio has the following sustainability indicators:

- Investment in debt securities supporting or funding socially beneficial activities and development, assessed according to our Social Rating Methodology. Under the methodology, each investment will be analysed under a two-stream process that:
 - assesses the social intentionality associated with the use of a bond's proceeds, to categorise it as either an impact investment, an investment with impact or as development finance; otherwise the investment is assessed as general financing and lies outside the social universe eligible for investment;
 - assesses the broad social intensity by applying a three-stage model. This model examines nine characteristics of the social outcomes attributable to a bond to derive a numerical score out of 31. A minimum score of 5 is required for a bond to be deemed eligible. Bonds with an eligible numerical score are split into social intensity quartiles of minor, moderate, good or strong (1 to 4). Whilst no formal targets are set for the fund, the objective is to maximise the social impact and this can be observed through the average social rating of the Portfolio over time.

Overall, the process generates a discrete social score (A1 to C4), which is used to compare bonds meeting different social needs and monitors the degree of the portfolio's social intensity over time.

Social Rating Scores, % Portfolio

	1 - Strong	2 - Good	3 - Moderate	4 - Minor
A	37.0%	1.9%	-	-
B	6.3%	17.6%	13.8%	0.7%
C	7.0%	4.0%	5.5%	5.1%

The fund's social partner produces an annual social impact report that provides its assessment of social characteristics promoted by the fund.

In supporting the funds positive promotion of social outcome and impact characteristics, the fund maintained and adhered to:

- The exclusion of issuers which derive revenue from industries or activities above particular thresholds where those industries, activities or issuers offer minimal social or sustainability benefits or which represent a high risk of adverse impacts. Exclusions based on revenue thresholds are monitored on an ongoing basis to ensure that the Portfolio remains in compliance.

- The exclusion of issuers in breach of accepted international standards and principles, for example the UN Global Compact Principles.

Over the period, the exclusion policy was adhered to with the application of strict pre-trade restrictions and ongoing monitoring. We also adhered to our Controversial Weapons Policy, and did not invest in issuers with direct involvement in nuclear weapons.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – for the purposes of SFDR the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

Largest investments	Sector	Average weight	Country
Credit Agricole	Banking	2.84%	France
Council of Europe	Supranational	2.75%	Supranational
Wellcome Trust	Financial Services	2.29%	UK
European Union	Supranational	1.99%	Supranational
UNEDIC	Sovereign Agency	1.88%	France
BPCE	Banking	1.65%	France
Vonovia	Real Estate	1.64%	Germany
NatWest	Banking	1.62%	UK
Instituto De Credito Oficial	Sovereign Agency	1.56%	Spain
International Finance Facility	Supranational	1.52%	Supranational
Cassa Depositi E Prestiti	Sovereign Agency	1.51%	Italy
E.ON	Utilities	1.51%	Germany
Caisse Amortissement De La Dette	Sovereign Agency	1.49%	France
ING	Banking	1.40%	Netherlands
Orange	Telecommunications	1.40%	France

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

98.8% of the financial product was invested in debt securities, all of which are subject to the application of the Social Rating Methodology and the exclusion criteria.

1.2% of the financial product was invested in cash, or cash equivalents.

Asset allocation describes the share of investments in specific assets.

● In which economic sectors were the investments made?

Sector	Average weight
Sub-Sovereigns	26.66%
Banks	24.81%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

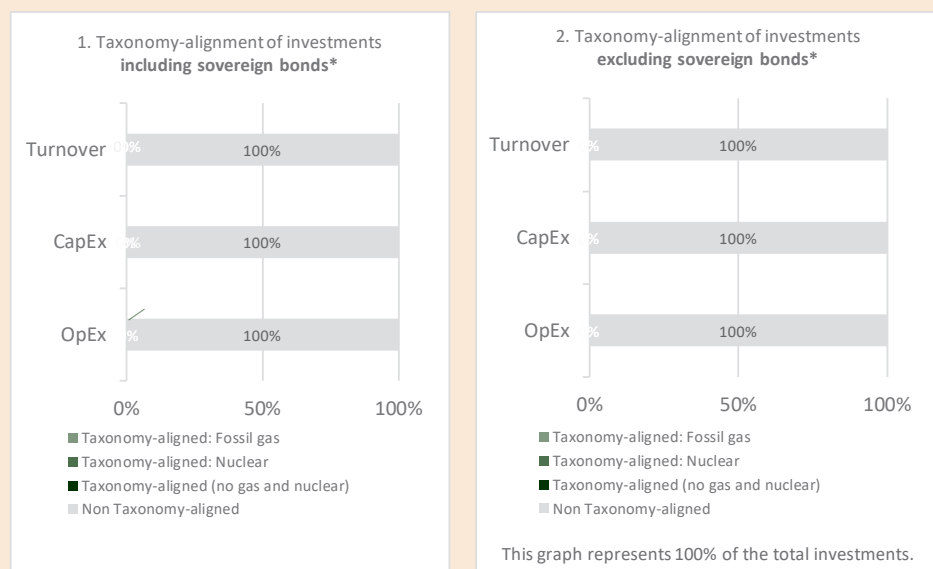

In fossil gas In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

“Other” investments include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and social characteristics of the Portfolio.

Minimum environmental or social safeguards are ensured for cash positions and derivatives by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As a bondholder, we actively seek opportunities to engage with issuers to better understand and positively influence their social value. In addition, we engage with issuers to develop the market for specific use of proceeds issuance includes exhibiting best practice, bond structure and impact reporting.

We are keen to ensure that the negative social impacts of transition are minimised, and aim to confront these challenges by actively engaging with issuers on this topic to promote inclusive growth.

In promoting the social characteristics the product is targeting, engagement topics over the reporting period have also included climate change, environmental standards, human

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

rights, labour standards and corporate governance. An example of issuer engagement includes Portuguese utility company EDP. We engaged with EDP in May 2022 regarding their current Green Bond issuance and how they were considering the just transition. We discussed future issuance and likely structures. EDP was considering a sustainability linked bond (SLB). We stated our preference was specific use of proceeds over an SLB due to greater additionality and intentionality, and typically unchallenging KPI targets. We suggested that they embed the KPIs into a Sustainability/Green Bond structure and consider using social KPIs. EDP were persuaded to continue with their specific use of proceeds issuance and since that meeting, we have purchased their new issue Green Bond.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not use a designated reference benchmark to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Not applicable – the market index is only used for the purposes of comparing financial returns.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) Emerging Market ESG Equities

<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p style="margin: 0;"><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p style="margin: 0;"><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.
- We invested at least 80% of the portfolio in companies with strong or improving ESG characteristics, measured by a combination of the ESG Materiality rating and fundamental

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

research of portfolio companies. The Portfolio will tend to favour companies which score strongly on the Columbia Threadneedle ESG Materiality Rating, therefore giving the Portfolio a positive tilt in favour of ESG characteristics when compared with those of the MSCI Europe Index on a rolling 12-month basis. All strongly rated companies are considered as aligned with the E/S characteristics promoted by the Portfolio. However, the Portfolio may invest in companies with a poorer rating and these companies are also considered as aligned with the E/S characteristics promoted by the Portfolio on the basis that these securities, notwithstanding such rating, are (i) determined by the Sub-Advisor through fundamental research to already demonstrate strong ESG practices or (ii) have scope for improvement in their ESG practices. The Sub-Advisor seeks to encourage such improvements through the implementation of its engagement policy.

- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the MSCI Emerging Markets Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.00 and the benchmark rating was 2.34 (on a scale of 1-5, where lower is better).
- We invested at least 80% of the portfolio in companies with strong or improving ESG characteristics, measured by a combination of the ESG Materiality rating and fundamental research of portfolio companies.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principals. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.
As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period.

Largest investments	Sector	Average weight	Country
TAIWAN SEMICONDUCTOR MANUFACTURING	Information Technology	7.77%	Taiwan

Real Estate	0.69%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Based on reliable data that has made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; or (iii) derivatives for hedging purposes.

Minimum environmental or social safeguards for cash positions and derivatives are integrated into the ESG counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, over the period we engaged with: Bank Central to discuss their sustainable finance and financial inclusion strategy; Bank Rakyat Indonesia on sustainable finance; Tencent on board effectiveness and various ESG topics; HDFC Bank on their materiality survey focusing on climate disclosures; and with WEG to outline climate, circularity and labour management priorities.

How did this financial product perform compared to the reference benchmark?

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI Emerging Markets Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) Global Focus

Legal entity identifier: 549300N6B2IZVI8Z4Q40

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents sustainable investments]*

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favorably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the MSCI All Countries World Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.44 and the benchmark rating was 2.78 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in companies rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principals. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● ***...and compared to previous periods?***

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

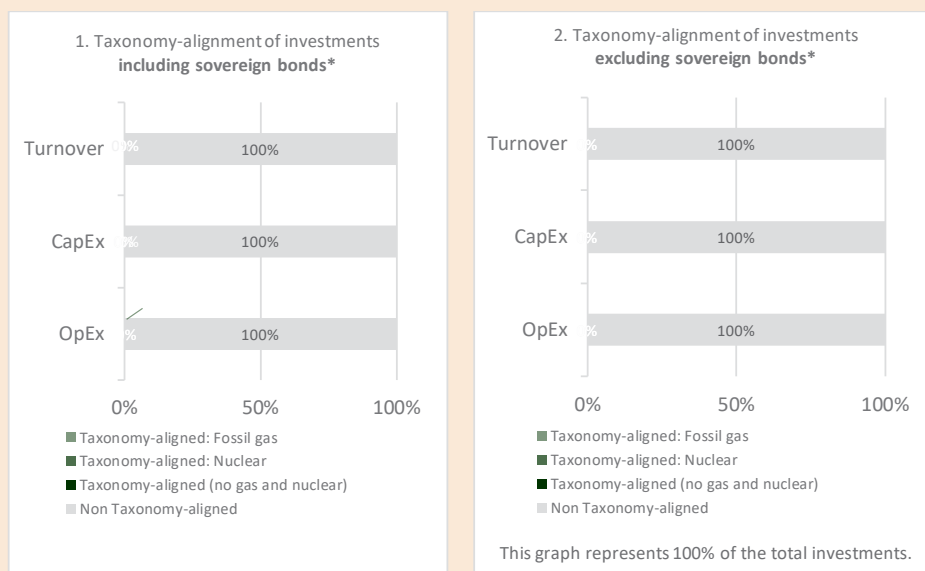

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, over the period we engaged with holdings in the portfolio on a range of topics. These include but are not limited to engagement with: an emerging market bank to better understand its approach to sustainability, governance and climate risk management; a healthcare company on the topic of ethical marketing and off label use of one of their medicines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI All Countries World Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) Global Equity Income

Legal entity identifier: 549300WX6ZDL2WOHJS77

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.
- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the MSCI All Countries World Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.38 and the benchmark rating was 2.78 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in companies rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principles. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period.

Largest investments	Average weight	Sector	Country
MICROSOFT CORP	3.67%	Information Technology	United States
SAMSUNG ELECTRONICS LTD	2.43%	Information Technology	Korea (South), Republic of
SIEMENS N AG	2.31%	Industrials	Germany
STATE STREET CORP	2.22%	Financials	United States
ANGLO AMERICAN PLC	2.17%	Materials	South Africa
INTERCONTINENTAL EXCHANGE INC	2.08%	Financials	United States
TOTALENERGIES	2.05%	Energy	France
BRISTOL MYERS SQUIBB	1.96%	Health Care	United States
ELI LILLY	1.93%	Health Care	United States
TAIWAN SEMICONDUCTOR MANUFACTURING	1.91%	Information Technology	Taiwan (Republic of China)
XCEL ENERGY INC	1.89%	Utilities	United States
RECKITT BENCKISER GROUP PLC	1.89%	Consumer Staples	United Kingdom
EXPERIAN PLC	1.86%	Industrials	United Kingdom
ELEVANCE HEALTH INC	1.86%	Health Care	United States
DEUTSCHE TELEKOM AG	1.84%	Communication Services	Germany

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

78.76% of the financial product was invested in companies with an ESG Materiality rating of 1-3 and so were aligned with E/S characteristics.

21.24% of the financial product was invested in: (1) companies with an ESG Materiality rating of 4 or 5 and so were not aligned with E/S characteristics, and (2) companies not covered by the ESG Materiality model, and (3) cash and derivatives.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● *In which economic sectors were the investments made?*

Sector	Average weight
Financials	16.90%
Information Technology	14.91%
Health Care	12.32%
Industrials	11.76%
Consumer Staples	9.04%
Consumer Discretionary	7.25%
Materials	6.78%
Energy	6.20%

Communication Services	6.03%
Utilities	4.80%
Real Estate	2.02%
Cash	2.00%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

What was the share of investments made in transitional and enabling activities?

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, over the period we engaged with holdings in the portfolio on a range of topics. This includes but is not limited to engagement with a healthcare company on the topic of ethical marketing and off label use of one of their medicines.

How did this financial product perform compared to the reference benchmark?

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

● **How does the reference benchmark differ from a broad market index?**

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI All Countries World Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

 **What was the share of socially sustainable investments?**

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

 **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

 **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, over the period we engaged with holdings in the portfolio on a range of topics. These include but are not limited to engagement with: a real estate company to better understand its emissions and water mitigation actions; a healthcare company on the topic of ethical marketing and off label use of one of their medicines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI All Countries World Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Did this financial product have a sustainable investment objective?	
<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with an environmental objective: ____%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with a social objective: ____%</p>	<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p style="margin: 0;"><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p style="margin: 0;"><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.
- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the MSCI World Small Cap Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.70 and the benchmark rating was 2.99 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in companies rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principles. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period.

Largest investments	Sector	Average weight	Country
KADANT INC	2.05%	Industrials	United States

Real Estate	0.65%
Cash	2.09%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, over the period we engaged with holdings in the portfolio on a range of topics. This includes but is not limited to engagement with a US bank to better understand the company's governance structure, specifically concerning board structure and remuneration.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI World Small Cap Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) American Smaller Companies

Legal entity identifier: 549300FL849SFZ3EMB26

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
●● <input type="checkbox"/> Yes	● ● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.
- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the Russell 2500 Index, assessed over a rolling 12-month period. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.41 and the benchmark rating was 2.97 (on a scale of 1-5, where lower is better).
- We invested at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in companies rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principles. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

Largest investments	Sector	Average weight	Country
WILLSCOT MOBILE MINI	Industrials	3.83%	United States

Communication Services	1.43%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

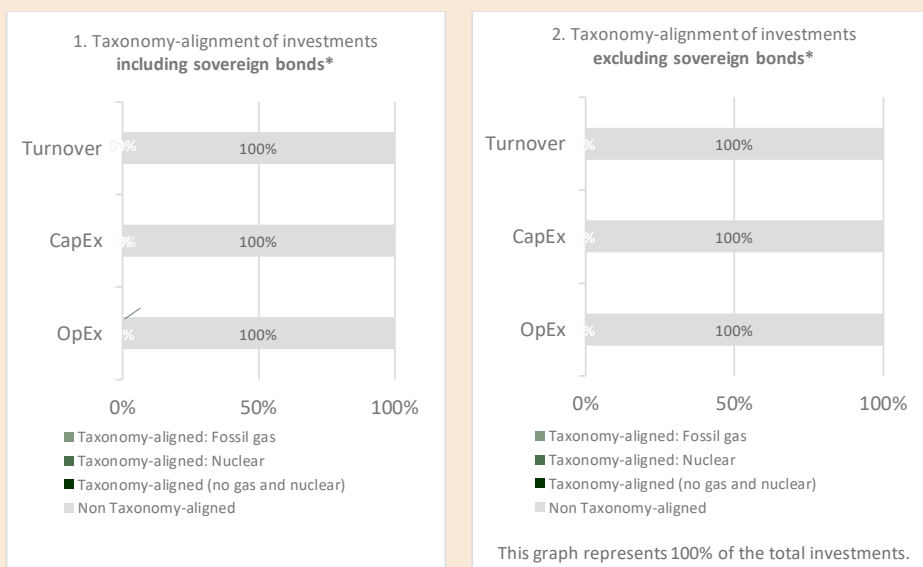

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

 In fossil gas In nuclear energy

 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices.

For example, over the period we engaged with Livent about the key E&S themes affecting them and their ability to retain a licence to operate. The company is aware that licence to operate is critical and claim to be prioritizing human rights, building community relationships and ensuring they meet customers' demands for well audited, lower impact supply chains. The company's highest profile site is in Argentina, where they have historically had issues with anti-mining protests. They have worked with a UN affiliated NGO to run townhall events for locals, and are aware of the need to maintain Free, Prior and Informed Consent on an ongoing basis. The desire to proceed with operations in a way that also benefits communities is one of the main drivers behind seeking IRMA accreditation. Another driver for this is that major OEMs (Livent customers) are on the IRMA board and are pushing suppliers in this direction due to their emphasis on supply chain traceability and carbon reductions. Water is a material topic in lithium extraction, so the company has liaised with local government authorities and US universities to develop a hydro geological study of the area, identifying that they are not as exposed to water stress as peers due to local geographical quirks. They are heavily monitored in the area, and communicate with local communities as well as the authorities on water consumption. Livent have a target to be net zero by 2040, but only a 30% GHG intensity reduction target by 2030, implying significant reductions post 2030. In the near term they are working on process optimisation and are confident of meeting the 2030 target. However longer term they may face challenges sourcing renewables. The company's disclosure remains light and nature impact reduction plans are unclear. Overall Livent have a robust approach to E&S issues for a company their size, however more tangible plans and disclosure on how they are reducing emissions, water consumption and nature impacts will be required, as well as strengthened, clearer approaches to human rights and community relations.

We also engaged with Medpace by writing to the company to explain the importance of diversity in clinical trials to us as investors. We raised our interest in learning more about the company's strategy while simultaneously encouraging greater transparency from the industry on topics such as trust-building with (historically) underrepresented trial participants, incentivization of trial participation (e.g., rewards, infrastructural challenges, decentralized trials), hiring practices, internal awareness and capacity-building, collaboration with relevant stakeholder groups such as patient groups and industry initiatives and tracking of effectiveness of diversity in clinical trials strategy including data collection and use of findings to adapt approaches. We ended the email by asking for an engagement call.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the Russell 2500 Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Product name: Threadneedle (Lux) Asia Equities

Legal entity identifier: 549300NJZIV56FVQ648

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p>● ● <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p>● <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.
- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are

not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.

- Excluding issuers in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding issuers with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and issuers with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the MSCI AC Asia Pacific ex Japan Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.12 and the benchmark rating was 2.30 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in issuers rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principals. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded issuers with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● ***...and compared to previous periods?***

We will provide a comparison of the sustainability indicators to a previous period in the next report.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

What was the proportion of sustainability-related investments?

● What was the asset allocation?

80.8% of the financial product was invested in issuers with an ESG Materiality rating of 1-3 and so were aligned with E/S characteristics.

Asset allocation describes the share of investments in specific assets.

19.2% of the financial product was invested in: (1) issuers with an ESG Materiality rating of 4 or 5 and so were not aligned with E/S characteristics, and (2) issuers not covered by the ESG Materiality model, and (3) cash and derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● In which economic sectors were the investments made?

Sector	Average weight
Financials	25.16%
Information Technology	18.88%
Consumer Discretionary	13.54%
Communication Services	9.67%
Materials	6.84%
Energy	6.02%
Industrials	4.73%
Consumer Staples	4.67%
Health Care	4.50%
Real Estate	4.07%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

 In fossil gas In nuclear energy

 No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices. For example, we engaged with Korea's Samsung Electronics to follow up with the company's CSR/IR team outlining our expectations from the previous dialogue. We encouraged several recommendations, including specific case study examples regarding its chemical management process, alongside more detailed disclosure of its occupational health and safety metrics. This included participation in the Clean Electronics Production Network, and training for facility workers on freedom of association, with particular focus in countries where labor rights regulations are laxer. We also provided best practice examples for each of our recommendations outlined above.

We also engaged with Bank Rakyat. This was a collaborative call with the Head of Investor Relations and the Head of ESG. The call focused on their broader approach to sustainability governance and risk management, as well as climate risk management. We discussed their new ESG roadmap and updated ESG governance process. They have made progress here, now having a new dedicated ESG team. Overall, the call was positive, and Bank Rakyat are making good progress. They committed to updating their TCFD reporting, financed emissions disclosures, and a net zero commitment by early 2024. They mentioned that they would like to submit targets to be Science-based Targets. This is quite ambitious from where they currently are, so we will continue to monitor and engage on their progress in these areas.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

● ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI AC Asia Pacific ex Japan Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) Pan European ESG Equities

Legal entity identifier: 5493003HOJGB5U7D3492

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> No</p> <p style="margin: 0;"><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p style="margin: 0;"><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favorably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- We invested at least 80% of the portfolio in companies with strong or improving ESG characteristics, measured by a combination of the ESG Materiality rating and fundamental research of portfolio companies. The Portfolio will tend to favour companies which score strongly on the Columbia Threadneedle ESG Materiality Rating, therefore giving the Portfolio a positive tilt in favour of ESG characteristics when compared with those of the MSCI Europe Index on a rolling 12-month basis. All strongly rated companies are considered as aligned with the E/S characteristics promoted by the Portfolio. However, the Portfolio may invest in companies with a poorer rating and these companies are also considered as aligned with the E/S characteristics promoted by the Portfolio on the basis that these securities, notwithstanding such rating, are (i) determined through our fundamental research to already demonstrate strong ESG practices or (ii) have scope for improvement in their ESG practices. We seek to encourage such improvements through the implementation of its engagement policy.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● *How did the sustainability indicators perform?*

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the MSCI Europe (Gross TR) Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.70 and the benchmark rating was 2.79 (on a scale of 1-5, where lower is better).
- We invested at least 80% of the portfolio in companies with strong or improving ESG characteristics, measured by a combination of the ESG Materiality rating and fundamental research of companies.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principals. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● ***...and compared to previous periods?***

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period.

Largest investments	Sector	Average weight	Country

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

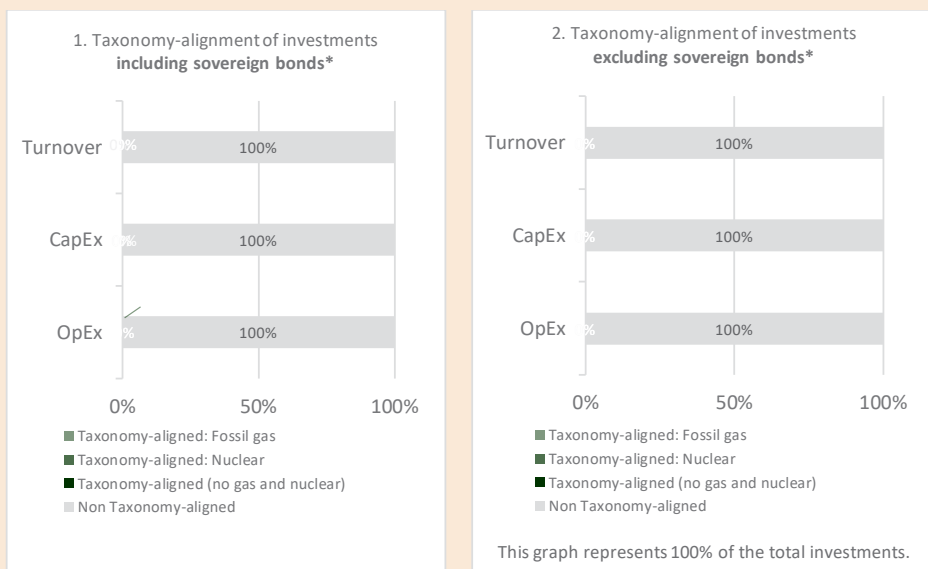

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; or (iii) derivatives for hedging purposes.

Minimum environmental or social safeguards for cash positions and derivatives are integrated into the ESG counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices.

For example, over the period we engaged with ASM International to discuss governance and the incorporation of ESG metrics into executive remuneration. This will provide accountability for leadership. Following our engagement, the company agreed to implement this. Additionally, following engagements in 2022, the company has improved workplace diversity and set future gender hiring targets. Lastly, the company has set emissions target in line with the global 1.5C pathway.

We also discussed nutrition strategy with Nestle. The company shared their ambition to be a leader in the sale of healthy food products. We expressed concern that, unlike their peers, Nestle do not have any specific targets. We stated that any targets would send a strong message to the wider industry. We will continue to engage on this theme.

How did this financial product perform compared to the reference benchmark?

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- *How does the reference benchmark differ from a broad market index?*

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the MSCI Europe (Gross TR) Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Product name: Threadneedle (Lux) Pan European Smaller Companies

Legal entity identifier: 549300FG0S32L53EKJ87

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents sustainable investments]*

●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.

- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● **How did the sustainability indicators perform?**

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the EMIX Smaller Europe (inc UK) Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.76 and the benchmark rating was 2.97 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in companies rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principals. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period.

Consumer Staples	3.38%
Real Estate	2.65%
Energy	0.08%
Cash	0.56%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

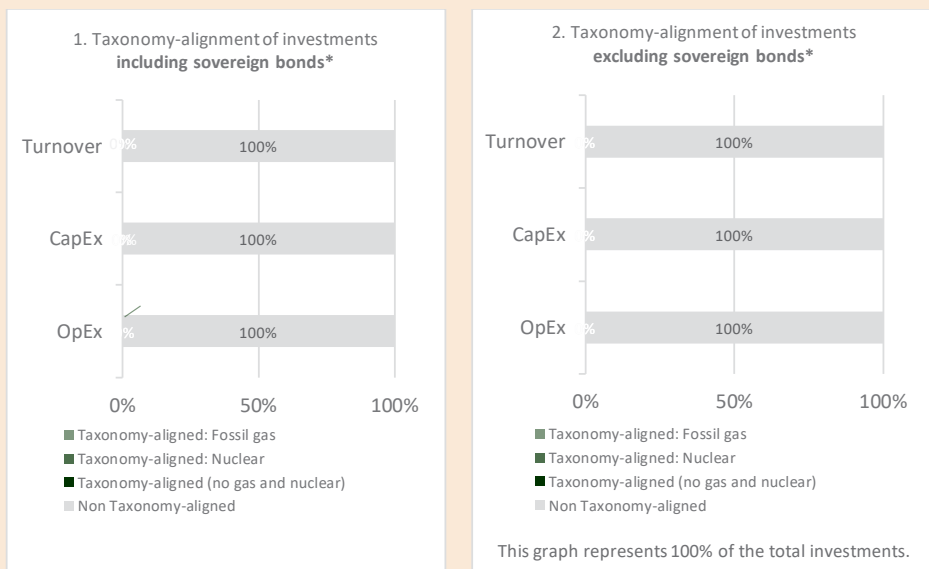

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

For example, over the period we engaged with ASM International to discuss governance and the incorporation of ESG metrics into executive remuneration. This will provide accountability for leadership. Following our engagement, the company agreed to implement this. Additionally, following engagements in 2022, the company has improved workplace diversity and set future gender hiring targets. Lastly, the company has set emissions target in line with the global 1.5C pathway.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the EMIX Smaller Europe (inc UK) Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Threadneedle (Lux) European Select

Legal entity identifier: 549300MKHX2X26Q8CM51

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The financial product promoted environmental and social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Comparing favourably with the index on material ESG criteria, measured by the Columbia Threadneedle ESG Materiality Rating model, over 12 month rolling periods.
- Maintaining at least 50% of the Portfolio holdings in companies rated 1-3 on the Columbia Threadneedle ESG Materiality Rating. Where necessary, by assessing companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment.
- Excluding companies in breach of accepted international standards and principles, such as the United Nations Global Compact and the United Nations Guiding Principles on Business and Human Rights.
- Excluding companies with involvement in controversial weapons, in line with the Columbia Threadneedle Controversial Weapons Policy, and companies with direct involvement in nuclear weapons.
- To support the promotion of environmental and social characteristics, engaging with companies with a view to influence management teams to improve their practices, for example on issues relating to carbon emissions.

● ***How did the sustainability indicators perform?***

The financial product has the following sustainability indicators:

- The primary indicator is the positive weighted average ESG Materiality rating of the Portfolio versus the FTSE World Europe ex UK Index, assessed over rolling 12-month periods. The positive ESG Materiality rating versus the index was monitored on a daily basis by our compliance systems. The portfolio maintained a better ESG Materiality rating than the benchmark throughout the period.
On 31 March 2023 the portfolio rating was 2.34 and the benchmark rating was 2.73 (on a scale of 1-5, where lower is better).
- We invest at least 50% of the Portfolio in companies that have a strong ESG Materiality Rating. Where necessary, we may assess companies that are not covered by the ESG Materiality Rating Model using fundamental research, or by engaging with companies that have a low ESG Materiality rating for improvement, in order to achieve this 50% minimum commitment. The financial product maintained over 50% of its holdings in companies rated 1-3 over the period.
- We excluded companies that we determined were in breach of accepted international standards, for example the UN Global Compact Principles. The exclusion policy was adhered to with the application of strict pre-trade restrictions and was monitored on an ongoing basis.
- We also adhered to our Controversial Weapons Policy and excluded companies with direct involvement in nuclear weapons.

As these indicators form the basis of the environmental and/or social characteristics promoted by the financial product, they are also the binding elements of Portfolio's ESG strategy.

● **...and compared to previous periods?**

We will provide a comparison of the sustainability indicators to a previous period in the next report.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

--- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

--- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable – the financial product does not make a commitment to invest in sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable – the financial product does not make a commitment to consider the principal adverse impacts of investment decisions on sustainability factors.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period.

Largest investments	Sector	Average weight	Country
NESTLE SA	Consumer Staples	6.22%	Switzerland
ASML HOLDING NV	Information Technology	5.42%	Netherlands
LVMH	Consumer Discretionary	5.41%	France
SCHNEIDER ELECTRIC	Industrials	4.49%	France
INDUSTRIA DE DISEÑO TEXTIL INDITEX	Consumer Discretionary	4.28%	Spain
LOREAL SA	Consumer Staples	4.01%	France
TRYG	Financials	3.90%	Denmark
NOVO NORDISK CLASS B	Health Care	3.82%	Denmark
BRENNTAG	Industrials	3.81%	Germany
LONZA GROUP AG	Health Care	3.72%	Switzerland
SAP	Information Technology	3.65%	Germany
PERNOD RICARD SA	Consumer Staples	3.55%	France
DAVIDE CAMPARI MILANO NV	Consumer Staples	3.42%	Italy
SIKA AG	Materials	3.17%	Switzerland
IMCD NV	Industrials	2.77%	Netherlands

Asset allocation describes the share of investments in specific assets.

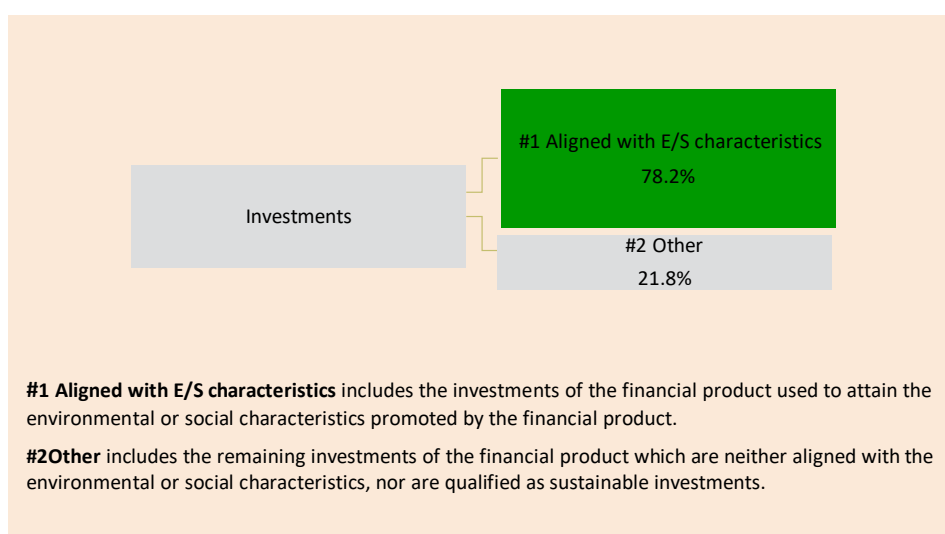

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

78.2% of the financial product was invested in companies with an ESG Materiality rating of 1-3 and so were aligned with E/S characteristics.

21.8% of the financial product was invested in: (1) companies with an ESG Materiality rating of 4 or 5 and so were not aligned with E/S characteristics, and (2) companies not covered by the ESG Materiality model, and (3) cash and derivatives.

● *In which economic sectors were the investments made?*

Sector	Average weight
Industrials	22.26%
Consumer Staples	17.21%
Consumer Discretionary	16.75%
Information Technology	12.77%
Financials	12.13%
Health Care	10.80%
Materials	6.03%
Cash	2.04%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund does not have a commitment to align with the EU criteria for environmentally sustainable economic activities as defined by the EU Taxonomy Regulation.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation.

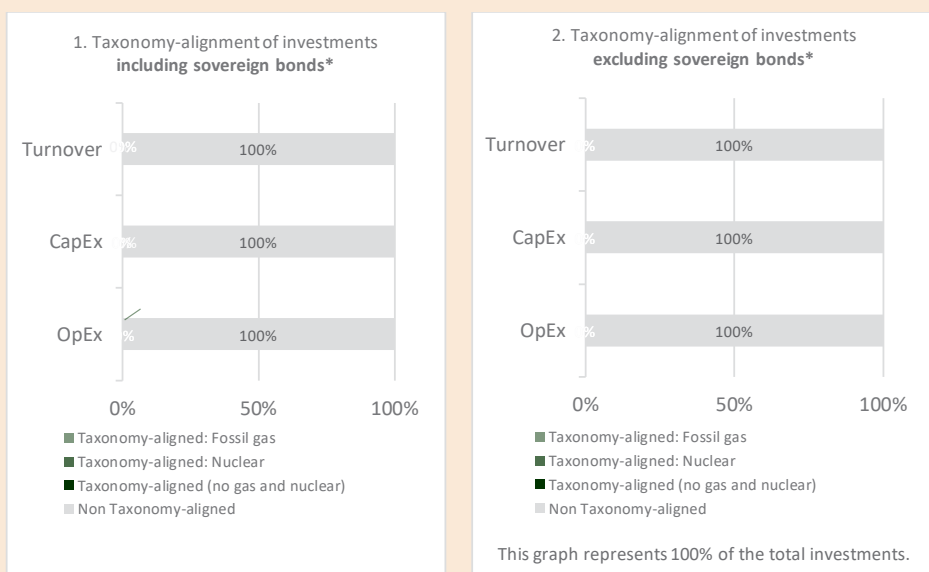

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0% of the investments made by the fund are in transitional and enabling activities as defined by the EU Taxonomy Regulation.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Based on reliable data that has been made available to date, the fund is reporting 0% of its investments are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. The fund is yet to report any alignment to the EU Taxonomy Regulation.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable - the fund does not have a commitment to invest in sustainable investments with an environmental objective not aligned with the EU Taxonomy Regulation.

What was the share of socially sustainable investments?

Not applicable - the fund does not have a commitment to invest in sustainable investments with a social objective

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as “other” include (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; (iii) derivatives for hedging purposes; (iv) companies with an ESG Materiality rating of 4 or 5; or (v) companies not covered by the ESG Materiality model.

These investments are not used to meet the environmental and social characteristics of the Portfolio. The purpose of these securities is to provide a diversified portfolio that can achieve the financial objective.

Minimum environmental or social safeguards are ensured by applying the exclusion screening to all holdings in investee companies. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

We engaged with companies, aiming to influence their approach to ESG risks and ESG practices.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

For example, over the period we engaged with ASM International to discuss governance and the incorporation of ESG metrics into executive remuneration. This will provide accountability for leadership. Following our engagement, the company agreed to implement this. Additionally, following engagements in 2022, the company has improved workplace diversity and set future gender hiring targets. Lastly, the company has set emissions target in line with the global 1.5C pathway.

We also discussed nutrition strategy with Nestle. The company shared their ambition to be a leader in the sale of healthy food products. We expressed concern that unlike their peers, Nestle do not have any specific targets. We stated that any targets would send a strong message to the wider industry. We will continue to engage.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

Not applicable - the financial product does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that the Portfolio promotes.

- ***How did this financial product perform compared with the broad market index?***

Over the period, the financial product maintained a superior ESG profile to the Euromoney Small Europe ex-UK Index, as measured by the Columbia Threadneedle Investments ESG Materiality Rating model.

EU Taxonomy Regulation Disclosures (unaudited)

Regulation (EU) 2020/852 is a framework to facilitate sustainable investment (the “EU Taxonomy Regulation”) which establishes criteria for determining whether an economic activity qualifies as environmentally sustainable across six environmental objectives (“**Taxonomy-aligned**”). The EU Taxonomy Regulation requires that certain disclosure be made in this Report.

Article 6 Financial Products

The investments underlying the financial products listed below do not take into account the EU criteria for environmentally sustainable economic activities under the EU Taxonomy Regulation. The Article 6 Financial Products include:

- Threadneedle (Lux) – American
- Threadneedle (Lux) – American Absolute Alpha
- Threadneedle (Lux) – American Extended Alpha
- Threadneedle (Lux) – American Select

Article 8 Financial Products that Promote Environmental Characteristics

The investments underlying the Article 8 financial products that promote environmental characteristics listed below do not have a commitment to take into account the EU criteria for environmentally sustainable economic activities as defined in the EU Taxonomy Regulation and so the “do no significant harm” principle under the EU Taxonomy Regulation does not apply to them. Based on reliable data that has been made available at the date of this Report, 0% of the investments in the financial products are Taxonomy-aligned.

- Threadneedle (Lux) – American Smaller Companies
- Threadneedle (Lux) – Asia Equities
- Threadneedle (Lux) – European Select
- Threadneedle (Lux) – European Smaller Companies

- Threadneedle (Lux) – Global Smaller Companies
- Threadneedle (Lux) – Pan European Smaller Companies
- Threadneedle (Lux) – European High Yield Bond

EU Taxonomy Regulation Disclosures (unaudited)

(continued)

- Threadneedle (Lux) – Pan European ESG Equities
- Threadneedle (Lux) – Emerging Market ESG Equities

Article 8 Financial Products that do not Promote Environmental Characteristics

The Threadneedle (Lux) – European Social Bond only promotes social characteristics. As such, the underlying investments of this financial product do not take into account the EU criteria for environmentally sustainable economic activities under the EU Taxonomy Regulation and 0% of the financial product's investments commit to be Taxonomy-aligned.
